A ST. CATHARINES MIRACLE.

AN OLD AND ESTEEMED CITIZEN RESTORED TO HEALTH AND STRENGTH.

Mr. C. W. Hellesma, Sr., Relates the Particulars of His Sufferings and Relief to a Standard Reporter—Advice to Other Sufferers.

(St. Catharines Standard.)

Casually, the other day, the *Standard* learned that Mr. C. W. Hellesma, Sr., one of the oldest and most respected citizens of St. Catharines, had been restored to health after years of suffering, in a manner bordering on the miraculous. The editor of this paper had known Mr. Hellesma for years, and he was anxious to hear from him the story of his wonderful recovery. He had not seen Mr. Hellesma for some months, but met with a very warm welcome when he told the Standard the story of his recovery. Mr. Hellesma's home is on the corner of St. Paul and Court streets, and he is well known to all our older residents as a citizen of the highest integrity, having lived in this city since 1838.

"I have had rheumatism," said Mr. Hellesma, "more or less for the past twenty years, which often got so painful that I could not get about at all. I had been to all the doctors here and to some in Toronto and Buffalo, but I could get no relief worth speaking about. Five years ago I went to Welland and took a vapor bath, and felt so much relieved that I took two more. The relief, however, was only temporary, and after a half year ago the lameness and pains came on again and so completely made me up that I could hardly do anything. I applied to a number of doctors but without relief. One of them said, 'but without relief. If I were a younger man there might be some hope for me. I was 84 last October. I then discontinued the doctors' treatment and about a year ago got a bottle of Dr. Williams' Pink Pills for Pale People and used them without feeling any benefit, and quit. This spring I used another box without any effect and again stopped. You see I expected too much and seemed to get a box of 'Pills' ought to do what years of doctoring did not do. In July I read about the case of Mr. Condon, of Oakville, who had used, I think, eighteen boxes. When I read that he was so fully cured that he was able to work again, and even play baseball, I took courage and saw that I had not before given the pills a fair trial. I then got half a dozen boxes and was on the fifth when I felt any beneficial effects. I had read in the Toronto an old battle-scarred Irish veteran carried the British flag at the head of the column. This is said to be in line with Mr. Blake's wishes and as showing a better feeling existing towards the British government than the Irish in view of the Home Rule bill being introduced by Gladstone.

"On several occasions," writes Rev. Wm. Law, formerly of Carmarthen street Methodist church, St. John: "I have suffered from severe nervous exhaustion and general debility. I was advised to use Hawker's justly celebrated Nerve and Stomach Tonic, and have great pleasure in testifying to its restorative, tonic, invigorating and building up properties."

A Boston syndicate which has secured an option on the St. John, N. B., Rolling Mills intends to control the four large Montreal manufacturing companies—Peck & Berry, Pillow & Hersey, Montreal Rolling Mills, and Abbott & Sons. The syndicate has also options on the Nova Glasgow and other Nova Scotia steel plants.

A remarkable family named Duffin lived in South Lincolnshire, England. The head of the house is Thomas Duffin, and he was 96 years old in January. He has a son, George Duffin, who is 72; a grandson, George Duffin, who is 47; a great-grandson, Joseph Duffin, who is 25, and a great-great-grandson, George Duffin, aged six. Thomas Duffin is well and active and his hope is to live until he can see his great-great-great-grandson.

The Standard reporter called upon Mr. A. J. Greenwood, the east end druggist, whose store is only a few doors from the residence of Mr. Hellesma, to ask how the sale of Dr. Williams' Pink Pills stood in regard to other proprietary medicines, and incidentally to enquire what he thought of their effect in Mr. Hellesma's case. "Pink Pills for Pale People have a great sale," said Mr. Greenwood, "and I am continually asked for them. With regard to Mr. Hellesma's case I knew that for years he had suffered from rheumatism and other diseases, and that the pills he had used had performed the miracle. He has frequently told me that he had tried doctors without number, besides other patent medicines, but without any avail. My sales of Dr. Williams' Pink Pills are constantly increasing, and all agree that these excellent little pills are beyond praise. There are many people in this district who have cause to be thankful they tried Pink Pills."

The reporter called upon Mr. W. H. Greenwood and Mr. Harry Whitcomb, the well known druggists, and both spoke highly of Pink Pills, saying that they are the most popular remedy in the store, and that these using them are loud in their praises of the results.

Dr. Williams' Pink Pills are a perfect blood builder and nerve restorer, curing such diseases as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus' dance, nervous headache, nervous

—The British have had a severe battle with tribes beyond Chitral, where the British have been for some time endeavoring to strengthen the Indian frontier against the possibility of Russian encroachment. The British recently occupied Chitral, beyond Chitral, with a garrison. Mountain tribes made an attack on the fort and were driven off with the loss of 200 men. The British then marched against the enemy and the tribes of hostile tribes stormed the village. Major Duffin was shot through the heart while leading his men in assault. Every point occupied by the hostile natives was carried. The British lost 23 killed; 30 wounded. The tribesmen finally submitted to British authority. The result of the struggle has greatly strengthened the British position at what is considered its weakest point in the vicinity of the Hindu Kush.
