CLOSING LETTER ON MONTREAL EXCHANGE

(F. B. McCURDY & CO.)
Montreal, Oct. 1.—At the annual
meeting of the C. P. R. today, Sir
Thomas Shaughnessy said that the de-
stabilization of the company's
lands to a company in exchange for
its capital stock had been considered.
He intimated that instead of this an
investment fund under special officers
might be formed. Those who attend-
ed the meeting were of the opinion
that the remarks of the president con-
cerning the treatment of receipts from
sales of townships might mean an-
other distribution to shareholders.

On the local exchange today C. P.
R. was unchanged, prices ranging
from 22 to 23.
Brazilian Traction was a little
stronger today, opening at \$2.34, and
touching 98 in the late trading. The
opinion now prevails that the divi-
dend on this stock will not be in-
creased this fall.

When it was seen that life was out
of the recent buying movement in
Tramway Power the price fell away
to 40. At this price, however, it was
supported and yesterday afternoon
and today it was selling fractionally
higher. A number of brokers take
the view that while this issue may go
still lower within the next few days
it is likely to have soon a more pro-
tracted movement than either of
those which occurred in September.

There was considerable demand for
Quebec Ry. bonds, the price ranging
from 49 1/4 to 49. In some quarters
the belief exists that the bonds offer
some attraction as a speculation.

MacDonald was uncertain in today's
trading, but there seemed to be more
confidence in its position towards the
close of the morning session. The
stock touched 25 3/4 around noon. The
general opinion on the street seems
to be that the passing of the dividend
has been more than discounted, as the
stock is earning over seven per cent,
and on this account should sell above
present levels, even though no divi-
dend is forthcoming until the second
quarter of next year.

Montreal Power continues to sag,
touching 213 1/4 this morning and
closing at 213 1/2. Beyond the fact
that the high priced stocks are the
first ones to be affected by a quiet
market the decline in Montreal Power
has no special significance. It is
stated that a considerable amount of
the buying of Montreal Power Rights
it is understood that one London
house has been a steady buyer of
these rights from the outset, either
buying them for their own account
or some of their clients.

CHICAGO GRAIN AND PRODUCE PRICES

(F. B. McCURDY & CO.)
Chicago, Oct. 1.—Wheat—A some-
what easier tone prevailed during the
early trading. With every evidence
that the movement of spring wheat is
letting up as shown by the firmer pre-
miums for the cash article, it seems
as though the present level of prices
was too low, and purchases on breaks
is advisable.

Corn—A raid by local traders car-
ried prices off about 1/8 from yester-
day's close but good buying support
developed on the break and a small
reaction followed.

Oats—Easy with other grains.
Provisions—Fairly active; looks like
packers were sellers.

A. O. SLAUGHTER & CO.

firsts, \$4.40; seconds, \$4.30; strong
bakers, \$4.70; winter patents, choice,
\$5; straight rollers, \$4.60; straight rol-
lers, bags, \$2.05 to \$2.10.

ITEMS ON STOCKS.

(F. B. McCURDY & CO.)
New York, Oct. 1.—Discriminating
absorption on a scale down is reported
in good rails and Copper shares.
Calling of loans may be seen again.
No pool selling is observed as yet.
Great Northern Pfd is being very
strongly urged by responsible sources
as a desirable purchase on the set-
backs.

There is reported a broader market
for stocks, and the distribution of or-
ders is much wider than for some days
principally in the industrial list.

More outside liquidation is expect-
ed in the Steel department.

LETTER FROM JUDSON & CO.

(J. C. MACKINTOSH & CO.)
New York, Oct. 1.—Generally speak-
ing the unsettled weather map and
the Giles report were the influential
factors in today's cotton market. As
the session progressed there were re-
ports of rains over a wide section of
the south and west and the local down-
pour of rain made these reports con-
vincing. The deterioration indicated
by the Giles report, if applied to the
last government condition figures
would make the October bureau con-
siderably under the average estimate
of New York Cotton Exchange mem-
bers, viz.—64. The trade at large was
decidedly more at ease regarding the
Washington situation, the feeling being
pretty confident that at the worst
there would be nothing to interfere
with the marketing of the present
crop. The threatened lockout in Lan-
cashire was a deterrent factor but
sentiment as a whole was more bul-
lish on both fundamental and techni-
cal conditions.

NOON LETTER ON NEW YORK STOCKS

(F. B. McCURDY & CO.)
New York, Oct. 1.—Under the influ-
ence of higher London prices, our
market opened up, the strength of
Union Pacific and the weakness of
Steel being the most conspicuous fea-
tures. Uneasiness over the tariff is
the cause of considerable small liq-
uidation in Steel, which has enabled the
bears to depress prices and cover at
a profit. An announcement in the
near future is expected regarding an
extra distribution on Union Pacific.
We have good reason to believe that
such an announcement will be made.
Just what it will be, or whether it will
be construed as a bull or a bear argu-
ment on the stock cannot be fore-
told. The general market for several
days past has shown a disposition to
react, and the good news on Union
Pacific when published may fall flat
on an unappreciative market. The
market at noon is heavy.
Sales noon, 192,000. Bonds, \$897,000.
