Western Canada Bonds, 800 @ 82 1/2.

PURCHASE PRICES OF PUBLIC SERVICE CO'S BY CITY OF TORONTO

Toronto, Oct. 13.—Mayor Hocken this morning gave out the following table as the assets of the Toronto Street Railway Company, and the Toronto Electric Light Co., being the figures at which the city shall purchase these franchises. \$10,713,553: physical assets, \$9,894,482. Total Street Railway, \$20,608,035.
Electric Light Company, \$6,132,704. Radial ends in city, \$411,447, or a total of \$27,152,186. The mayor adds \$2,000,000 for Toronto Electric Light franchises.

Perfectly Accurate.

The following is a good story relating to the late Earl of Shaftesbury. It is said that the Earl once called a meeting in connection with certain work, and only two people turned up—himself and a very fat reporter. After awaiting, and no one else coming, the Earl said he would dictate his intended speech. The reporter took out his notebook, and the Earl began:—"At a large and respectable meeting held—"

"But that's not quite correct," objected the reporter, as he swept his hand round the empty hall.

"Come, come," said his lordship, "are you not large, and am I not respectable?"

CLOSING LETTER ON MONTREAL EXCHANGE

(F. B. McCURDY & CO.)

Montreal, Oct. 13.—The Wall Street market was closed today on account of a holiday, and as generally happens the local market was dull.

Brazilian was reported a little better in London and it sold here at about Saturday's level. Advice concerning the unfavorable situation in the Republic of Brazil are still being received, but in some quarters it is thought that the market in this stock has seen its worst for the time being at least.

C. P. R. was a shade lower, opening at 229 3/4 and selling at 229 1/2 towards the close. The Wall Street market has been bearish for some time and undoubtedly affects the higher priced stocks like C. P. R.

One of the most active issues of the day was R. and O., which was firm at 109 3/4. The companies of the R. and O. operating in the upper lakes will this year endeavor to increase the number of sailings over the previous year. This will apply more particularly to the lines that are carrying the wheat crop out of the west. Should the company be able to carry out its plans the result will be shown in a still greater increase in its earnings for the season.

Montreal Power sold around 210 3/4 and the Rights at 10 1/8. The buying of the Rights came mostly from one firm, which it is thought is accumulating them for a London house. Toronto Railway was up again today, selling around 144. The orders which came in were mostly for Toronto stock. Traders are disposed to hold their stock for higher prices as they appreciate that if the deal goes through they will get at least 165 for their stock.

Cement Common was fractionally lower, selling at 33 1/4. The preferred was unchanged at 83 1/2. Scotia, which has been selling around 80, was quoted at 78 1/2 today. Although it is stated all the larger Canadian Steel companies will show increases in earnings for the last six months of the year.

Dominion Steel recovered some of Saturday's loss and sold at 44 1/2 in the afternoon. Dominion Steel Corporation is now benefitting from export. Traders have enabled it to carry a larger amount of its output to a more finished condition.

Dominion Textile was unchanged at 91 3/4 to 91 7/8. This stock has been rather inclined to sag of late on account of the feeling that exists in some quarters that the price of raw cotton may advance still further, and that the cotton companies will be compelled to raise the prices of their finished goods. It is felt that this would result in decreased sales.

HOPEWELL HILL

Hopewell Hill, Oct. 13.—The banns of marriage have been published between Rev. David Jenkins, rector of St. Albans, and Miss Annie Robinson of Riverside, the marriage to take place about the middle of November.

Capt. R. V. Bennett of Hopewell Cape, returned Thursday last from receiving medical treatment at the Royal Victoria Hospital for the last month. Her many friends are rejoiced at her perfect restoration to health.

The funeral of the late Perley Tingey, postmaster of Riverside, who was the victim of the auto accident on Friday last, was held from his late residence this morning. Rev. Father Lockary conducted the services at the house and grave. A very large concourse of people followed the remains to the Roman Catholic cemetery where interment took place.

In the absence of Rev. Thomas Stebbings, the services of the Methodist churches on this circuit were conducted by A. C. M. Lawson, who gave forceful addresses on temperance.

The exhibition in Albert closed on Saturday evening with a public meeting in the hall which was very largely attended. Addresses were delivered by the local members of the government, judges, the committee of management and others.

UNCERTAINTY OF MARKET PRICES

(F. B. McCURDY & CO.)

The general business of the country is affected naturally by uncertainty as to whether prices—in view of the new tariff—will be lower, and consumers, where possible, are holding back orders to have this settled.

The security market is watched pretty generally by business people as an index, and when prices there are declining merchants sometimes wait for lower prices in their own commodities. All this will adjust itself.

Government is have declined to 84%. The question of security back of the circuit, however, need not enter in, even if a much more serious decline occurs, as the notes are a first lien against all the assets of the bank, and no bank in the entire history of national banking would have shown inability to pay its notes out of its assets, even if its government bonds had been figured at a nominal price.

Bank clearings show some falling off. The surplus stock of copper metal in the United States decreased in September, 5,320,945 lbs., leaving the total under 30,000,000 lbs. The world's visible supplies are now only 52,170,000 lbs.—much less than one month's production in this country.

The final government report of the year on crop conditions for October 1, out this week, shows improvement in corn over last month to the extent of 22,000,000 bushels; with estimated total of 2,373,000,000 bushels. Wheat indicates the largest crop on record, and oats prospects are much improved.

The market is largely professional, and taking advantage of uncertainty, prices are easily forced down. Stocks like Southern Pacific and St. Paul are a purchase for investment at present valuing low figures, and copper on declines should show profits. Union Pacific, relieved wisely of melon-cutting prospects, has fallen to the level of attractive investment. The later statement of Judge Lovett shows reliable dependence for continuance of the year on crop conditions for October 1, out this week, shows improvement in corn over last month to the extent of 22,000,000 bushels; with estimated total of 2,373,000,000 bushels. Wheat indicates the largest crop on record, and oats prospects are much improved.

Stocks like Southern Pacific and St. Paul are a purchase for investment at present valuing low figures, and copper on declines should show profits. Union Pacific, relieved wisely of melon-cutting prospects, has fallen to the level of attractive investment. The later statement of Judge Lovett shows reliable dependence for continuance of the year on crop conditions for October 1, out this week, shows improvement in corn over last month to the extent of 22,000,000 bushels; with estimated total of 2,373,000,000 bushels. Wheat indicates the largest crop on record, and oats prospects are much improved.

The market is largely professional, and taking advantage of uncertainty, prices are easily forced down. Stocks like Southern Pacific and St. Paul are a purchase for investment at present valuing low figures, and copper on declines should show profits. Union Pacific, relieved wisely of melon-cutting prospects, has fallen to the level of attractive investment.
