VIGOROUS MANHOOD

Two "Health Belt Men" One

50 Years Old, the Other 30

CAN YOU PICK OUT THE YOUNGER?

I can show you how to restore your youth and how to keep it. A "Health Belt man" CANNOT grow old; he must be young forever. Years count for nothing in this life, so long as you have great vitality. Weak-

ness, Nervousness, Unmanliness are conditions to be laughed at by the in-

ness, Nervousness, Unmanliness are conditions to be laughed at by the intelligent user of my great appliance, for it gives, in abundance, all that vim, vigor and nerve force which the weakened system craves. Worn every night and all night for two or three months, it sends a great, warm, glowing volume of electricity into your body through the nerve centers at small of back; from the first hour's use you experience a decided benefit; there is a great, mysterious force which gets right to work. No drugs to be taken; no conditions imposed except that dissipation must cease. Help

nature that much; the Belt will do the rest. It takes the weakness and

kink out of your back; it drives rheumatic pains away from all parts of the

body; you will feel and look young and strong again; women and men noticing your physical change will be more attracted toward you on account of your new vitality and life; in two months you can experience the full vigor of perfect manhood, or you need not pay me. I will accept your case on the "No Cure, No Pay" plan, or if you prefer to pay cash, I will

If in or near this city, take the time to drop in at my office that you may see, examine and try the Belt. If you cannot call, fill in the coupon and get the free booklets by return mail. They are better than a fortune

DR. E. F. SANDEN, 140 Yonge Street, Toronto, Ont.

They had been courting just a week, and at last he ventured to ask her to go to a football match. He was pointing out the members. "Now, there's Johnson," he said: "in a few weeks he will be our best man." "Oh, George," she lisped, "this is so sudden."

First Reveller—"I say, old man, your wife won't do a thing to you when she smells the whiskey."

Second Reveller—"When I'm near her I'll hold my breath."

First Reveller—"You won't be able to. It's too strong."

They fully describe my Health Belt, and contain much valuable informa-tion. One is called "Health in Na-ture," and deals with various ailments

common to both men and women, such as rheumatism, kidney, liver, stom-

ach, bladder disorders, etc. The other, "Strength," is a private treatise for men only. Both sent upon application, free sealed, by mail.

ecial waterproofing compounds," etc.

They don't tell you what the goods are made tell the buying public just what Amatite i

How Amatite is Made

Before you go to your dealer and buy a roofing we should be very glad to send you a sample o that you can see for yourself just what we re talking about—what a solid, substantial, Amatite is made of two layers of Coal Tan Alternating with these two layers of pitch are two layers of coal-tar-esturated wool felt to Remember, in this connection, that Amatit made by the largest manufacturers of roofing tracerials in the world, and that when you but his roofing there is something behind it. W

On top of these four layers is a real minera nd absolutely requires no painting.

It Needs No Painting

Roofings that require painting are a worry and an expense. Every year or two you have to climb up and give them a coating with some special compound sold by the manufacturers, so

MONCTON MAN, AGED 104, HEARS FROM HIS BROTHER AFTER 60 YEARS

John McKelvie Landed in St. John Five Years Before Queen Victoria

was also able to read newspapers without glasses.

About six weeks ago he received a letter from his brother Patrick, of the partial of Killegordon, in Donegal, and from whom he had not heard for six y years. Deceased is survived by one son and a daughter and a stepson and stepson and stepson and the communication. It transpires that friends in Memramcook tentioned John McKelvie in correspondence with friends in Donegal. The brother in Lenegal heard of his brother through the Donegal friends, and was thus able to write to him in Moncton.

The death occurred yesterday of one of the oldest and best known residents of Ingleside, William I. Stevens, aged 86 years. Deceased is survived by one son and a daughter and a stepson and step-daughter of Mr. and Mrs. Marcellus Ryan, the charming young daughter of Mr. and Mrs. Marcellus Ryan, was married at 5 o'clock this morning to Edward Griffin, of Auburn, Me. Rev. F. J. McMurray was the officiating clergy man. The happy couple left on the early train for Houlton, thence going to Ashland, Me., where they will make their home.

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery

and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy fiesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs.

Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Peislets cure it. They never gripe. Easy to take as candy.

DRAINAGE AND GOOD ROADS

Importance of Both as Bearing Upon the Comfort, Health, and Prosperity of the Country-New Brunswick May Learn from Ontario's Needs.

The long spell of rainy weather-now bree weeks-finds the country water soaked, save and except where the drains and rails and cars alone can supp have been laid. There is more greenness traction to the people at large, irrethan growth in sight. There has not yet tive of climate. This living touch end been one warm rain and the rush forward the city limits of many of our cities that follows. But with a let-up in the towns, and most of what we have rainfall and a spell of heat the outlook Sundays. for the farmer and gardener and fruit grower will suddenly brighten.

provement a four-inch tile drain would be heating. on either side of the average country immediate future is electrical energy road! Lack of drainage is the greatest have used up our wood and we have road! Lack of drainage is the greatest drawback in this Ontario of ours today. It costs our people more money in poor crops and more discomfort than anything else. And yet it is the one thing that the average farmer neglects or does badly, and the road-maker avoids. The municipalities may not be able to gravel and macadamize their roads; it is an easy thing to drain them and to have them nearly always dry.

In a very wood and we import coal. We have enough power, if conserved, converted into and distributed to every house, to our inhabitants clean and health and convenient heating for all our spatial coal barons and the railways he bed the anthracite of Pennsylva the way our houses are heated cities, even more so in the course.
