The mine, which was for some time worked at a good profit, by a Halifax company, was placed in London by Mr. Gisborne.

The Garrison Cricket Club, in the game n Friday with the Odds and Ends, in Halifax, in one innings made a score of 312, the largest score ever made by a club in that city. This score was made against excellent fielding, which is proved by the fact that more than half the number was made by single runs. The Chronicle of the 15th contains a spirited

The young Russian made himself very disagreeable, and presently, like a Tartar, savagely dug his elbows into the ribs of his comdug his chows into the ribs of his com-punions. Several hundred people in St. Louis recently witnessed a somnambulistic circus performance by moonlight. A car conductor, who had been to Barnum's circus, leaped from his bedroom window to a roof below, turned all sorts of summersaults and handsprings, went through a series of exercises on a fire-alarm telegraph wire, and ended the show by taking a flying leap through the window again. His friends found him lying on the floor, with his hands and feet bleeding, but he could give no account of how it happened.

honesty does. The latest thing is the bogus pup dog. A London gentleman writes to the newspapers that a man near the Crystal Palace offered him two pupples for sale, one a real Cuba worth £1, and the other a black-and-white Japanese terrier, priced at £3. The writer, on stroking the pupples, found in them a strong resemblance to the feline race, particularly about the claws and teeth; and when one of them aetually purred, it dawned upon him that the pupples were kittens trimmed and cut in canine fashion. The vender laughed when he was found out; and the next day actually sold one of the "pupples" to a little girl.
