The Methodist people in this district will feel an added interest in far-away China now their money has gone direct. At the time the Methodist church was closed here, Mrs. Holman was treasurer. Mothers Value This Oil.—Mothers who know how suddenly many seize their children and how necessary prompt action is in applying relief always keep at hand a supply of Dr. Thomas' Electric Oil, because experience has taught them that this is an excellent preparation for the treatment of this ailment. An Unblemished Record. Sensational advertising methods have so often been used to exploit worthless articles that we have always preferred to be very conservative in our claims for Dr. J. D. Kellogg's Asthma Remedy. We keep it before the public by modest announcements, relying almost wholly for its more extensive use upon its recommendation by those whom it relieves of Asthma's dreadful agonies. These are now numbered in many thousands. We suggest a trial of Dr. J. D. Kellogg's, by every sufferer from Asthma.

For Scalds and Burns.—Dr. Thomas' Electric Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and aids a speedy recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from inflammation of various kinds. SMALL TOWN IMPROVEMENT

Newbury, July 11, 1921.
To the Editor of The Transcript:

An item appeared in last week's issue of The Transcript regarding conditions relative to the town hall property of Newbury, by a correspondent—there, which was only too true, and we regret the article did not include all that might justly have been said. I do not want to knock our home town—far from it, but when fellow-citizens grow so narrow-minded, when they become so diligent and absorbed in the pursuit of the almighty dollar, that they fail to see their unsightly town as others see it, someone ought to raise a cry. To me it seems there is no harder knocker of the home town than its very own citizens and business men who, as owners of unsightly buildings, rack and ruins, and weed-grown properties, fail to clean up the mess or are willing to sell it to others who are ready to improve and beautify. Back in the days of the "old boys" some feeble efforts were manifested toward "fixing up," but today even the park is becoming dilapidated and needs the good fruits of another awakening.

And Newbury in this respect stands not alone. The cry has gone up that the big centres are absorbing our villages. Why? Just because too many villagers are trying to get too much out of their home town without putting anything into it. It's a fact that the surrounding country makes the town and it's up to every town to keep itself up and span it if it wants the patronage and presence of the community.

LONG DISTANCE is maintained at a high degree of efficiency. Connections with distant points were never more quickly established.

"Long Distance enables us to transact business in twenty cities in one day"—says a subscriber—"we use it to get new customers, to make sales, to order goods or countermand them, to speed up shipments, verify credits, order new parts for machinery, etc. It multiplies our personal contact with our Branches, our salesmen, and the trade."

"Many of our Long Distance calls are now Station-to-Station. A large sign hangs over our Private Branch exchange, reading 'If possible, make it a Station-to-Station call.' Moreover, we notified our customers that two of our most capable men had been designated to look after Long Distance business. As soon as Long Distance calls, our Private Branch exchange operator switches the calls to one of these men, which gives our customers the advantage of Station-to-Station rates."
