

The Thing That Interests Dairymen Today

is not which Company has made the most failures in its attempts to make successful Cream Separators, or which Company has abandoned or discarded the most inventions because (by its own admissions) of the inferiority of those inventions.

The questions which interest dairymen are :

Which is the best Cream Separator in 1909 ?

And which will continue to be the best Separator in 1910 ?

The United States Separator holds the World's Record for close skimming.

Its record has not been equaled by any Cream Separator, although numerous attempts have been made to equal it.

The **United States** has a **solid one piece frame**. No bolts, screws or rivets to work loose.

Gearing enclosed in dust-proof case. Gearing runs in oil bath.

Closest skimmer in the world.

Simple and easy to clean.

Light running.

Longest life.

The **United States** has the best point of all—**perfect separation**—and also has **more other good points** than any other Separator.

Selling Agents in every dairy section in the country, will grant a free trial.

Send for Catalogue No. 143.
