

Four Money-Makers for the Printer.

Superior in every detail, and in the leverage cutting with greater ease to operator, and returning from cut with the least possible exertion, owing to their perfect balance. The frame is stronger, heavier and better braced, the knife is thicker and deeper, insuring a truer cut and longer life, the lever is adjustable, the balance is now hung inside the frame, thus saving floor space and removing any obstruction to stumble over. There are split back gauges, side gauges, and a front channelled measuring gauge. Unexcelled in construction, materials used and finish. The Peerless Gem is an Improved Gem, unequalled in strength and precision.

Price, 30-inch Peerless Gem, \$175.00

Price, 32-inch Peerless Gem, 200.00

Subject to liberal discount for cash or short date settlement.

JEWEL PAPER CUTTER—30-inch.

The Jewel Cutters are of novel construction, and for many purposes are very desirable and serviceable. The front part of the frame is in one solid casting, like a square topped A, giving great strength to the cap and a solid cross brace to the table. The clamp and back gauge are interlocking and front and back gauges are furnished. The end lever gives the most powerful leverage, and is often desirable where a front lever cannot be used. The weight of the 30-in. Jewel is 1,000 pounds.

Price - - \$135.00 Net

Excels all other cutters of its size in weight (725 pounds), ease of cut, strength, durability and finish. Built on the Peerless Gem principle, it has leverage of maximum power and easy return. The balance weight is hung inside the frame, thus saving floor space and removing an annoying obstruction. Fitted with improved finger back gauge.

Price - - \$100.00

Subject to liberal discount for cash or short date settlement.

PEERLESS GORDON PRESS.

This press is up-to-date in all particulars. Has wearing qualities—is not shaky or loose at the joints after two or three years' service. Superior material and workmanship, heavy and strong. The shafts and draw-bars are forged from solid steel bars without seam or weld, and cam rollers are of hardened tool steel. It has positive disc motion, double-braced frames, double-locked impression throw-off, depreciable steel grippers, and all modern improvements.

Three Sizes—8x12 inside chase, \$165.00

10x15 inside chase, 250.00

14x20 inside chase, 400.00

Subject to liberal discount for cash or short date settlement.
