

Government a vast sum of money in replanting. It means that our heritage is returning; a new forest is born to enrich our country in a future time.

There are still large portions of barrens not seeded as yet, but if these conditions exist on average barrens today, is it not reasonable to believe that other portions will re-seed as years go by?

It would be a crying shame for another fire to destroy this grand contribution, which Nature is again giving to us, and I hasten to make an appeal in behalf of these young trees

for protection—for a Provincial Forester to direct affairs and intelligent Rangers to trail careless sportsmen, who do not realize the possibilities of fire.

Forest conditions effect everybody, and to avoid a forest famine in the future, we must act now. The Government must spend some money on them, and every businessman in the Dominion of Canada should be a member of the Canadian Forestry Association. Once their shoulders get behind the wheel of forest protection, give it a push and keep it going!

These pictures illustrate the good work done by rangers patrolling the Cochrane district of Northern Ontario. They have persuaded settlers to pile their slash for safe burning. In such hazardous country an ounce of prevention is worth a ton weight of cure.
