

Those Tinkling Tango Tunes

are simply fascinating when reproduced by The EDISON Phonograph. There's no fun trying to do the new dances—the Fox Trot, Maxixe, One Step, Hesitation, Boston, Three Step—to the jerky drumming of a piano. There's no tempting tempo.

But when the National Promenade Band swings into the seductive “La Bella Argentina” or “Waltz Hesitation”, and

The new EDISON PHONOGRAPH

(THE INSTRUMENT WITH THE DIAMOND POINT)

reproduces the full, rich melody—the sway and swing of it—the fascinating rhythm of it—then you have something worth dancing to.

There are other special Dance Records available to owners of Edison Phonographs—several hundred other Band and Orchestra records, many of which are suitable for the new dances—and any number of Tango songs like “Underneath The Tango Moon.”

The new Edison Phonograph has the diamond reproducing point, unbreakable and long playing records, superior motors and construction, concealed horns, and the Cabinets are made in true Period styles, in perfect harmony with the finest furniture.
