Dear Sir

The Indians at Fisher's Grant Reserve have had no fire wood since some time. They have been encroaching on other people's property to keep themselves warm. A gentleman by the name of Sam Fraser has ten acres of wood to sell at (4) four dollars an acre which is reasonable. This quantity ought to do them for some years. The land is not to be sold, kindly give this your immediate attention & oblige

Yours truly
A. D. McLeod
