

fusing him with a map that he cannot read.

BY THE DEFENDING OFFICER:

Q-352 So you came back and parked your car on the ball field, where you had been parking it for two or three months?

A-352 Yes, sir.

Q-353 Now then, how much butter do you get in every morning - in the Mess?

A-353 Well, it varies from four to five pounds. If they are short, it is four pounds; if it is a little over, it is five pounds.

Q-354 I don't suppose you remember the morning of October 31st?

A-354 I always check the rations over when they come in, and if I recall rightly, I think it is five pounds.

Q-355 On October 31st?

A-355 Yes, sir.

Q-356 That is the usual rations?

A-356 Yes, sir.

Q-357 How many Sergeants are there?

A-357 They vary from 32 to around 35 or 37.

Q-358 How much butter do you put on the table during the day?

A-358 They have seven butter dishes and they generally get a pound print to two plates.

Q-359 Two or three pounds?

A-359 Around three and one-half pounds.

Q-360 How much butter do you use to cook with, during an ordinary day?

A-360 Oh, I don't know. We take what is left over after a meal and put it in a can.

Q-361 How much butter would you say is used in a day, in the Sergeants' Mess?

A-361 Some days you use a little more than others, but I
