

Cervical dysplasia, changes in, with myoma, 297, 302
 Cervical glands, metastases in, from adenocarcinoma of body of uterus, 405
 Cervical lipos, edema of, with myoma, 441
 Lymph-glands, metastases in, from adenocarcinoma of body of uterus, 405
 Cervical myoma, 55
 polyp of, with myoma, 298, 300
 hysteromyometomy, 604
 extensive removal of, during supravaginal hysteromyometomy, 604
 extensive, hysterectomy for, difficult, 58
 large, with adenocarcinoma of body, 289
 removal of, through abdomen, 510
 Cervical stump, appearance of, after abdominal hysteromyometomy, 599
 hemorrhage from secondary sarcoma in, 190
 return of myosarcoma in, 176, 190
 Cervix, almost obliterated, with myoma, 441
 atrophy of, associated with myoma, 78, 297
 carcinoma of, associated with myoma, 262, 305, 398
 simulated by submucous myoma, 487
 with myoma and primary carcinoma of ovary, 271
 with sloughing submucous myoma, 398
 Cervix, closure of, after hysteromyometomy, 396
 condition of, in cases of myoma, 440
 double, associated with submucous adenomyoma, 455
 elongation of, with myoma, 441, 442
 in differential diagnosis of myoma and pregnancy, 467
 infection of, following abdominal hysteromyometomy, 664
 involvement of, by myoma, 57
 jammed down on perineum in myoma cases, 441
 normal, with myoma, 441
 pushed up behind symphysis in myoma cases, 441
 return of sarcoma in, 212
 torsion of, 77, 79
 transverse section of, as preliminary step in abdominal hysteromyometomy, 612
 Cesarean section with death four years after abdominal hysteromyometomy, 568
 Chills with submucous myoma, 572
 Cholesterin in broken down hyaline material, 125
 Chorion tendine, metastases in, from sarcoma of uterus, 222
 of uterus, 222
 Clorio-epithelium stimulating myomatous uterus, 482
 Lockscomb sarcoma on surface of uterus, 184
 Colic, renal, with myoma, 466
 Caden, suppurating subperitoneal myoma open-ing into, 142
 Transverse, descent of, with myoma, 463
 Colostoma in breasts with myoma, 449
 Vulvure carnee of right ventricle, metastases in, following sarcoma of uterus, 222
 Constipation after abdominal hysteromyometomy, 659
 with uterine myoma, 445
 Corneal pregnancy, ruptured, simulating myoma, 477
 Corpus luteum cysts with myoma, 346
 Cullen, Church Home cases, 671
 Cystadenoma, multilocular, of ovaries, with myoma, 346, 396, 417
 Cystic areas containing emulsified fat, 92, 124
 degeneration of myoma, 83, 92, 102, 111
 myoma, 112
 abdominal myometomy for, 512
 character of fluid in, 91
 resembling heart cavity, 122
 resembling ovarian cyst, 111
 Cystitis, associated with myoma, 377
 following abdominal hysteromyometomy, 657
 following myometomy, 549
 Cysts, corpus luteum, with uterine myoma, 346
 dermoid, of ovaries, with uterine myoma, 349
 formation, early, in myoma, 96
 Graafian follicle, with uterine myoma, 344
 in myosarcoma, 197, 198
 labial, with uterine myoma, 438
 large, due to hyaline degeneration in myoma, 90
 of ovary, bilateral, and myoma, differentiation, 498
 in myoma cases, 344
 myoma and, differentiation, 495
 papillo-cystomatous, 498
 removal of, during abdominal myometomy, 527
 of umbilicus with myoma, 462
 of uterinus associated with myoma, 463
 of utero-ovarian ligaments in myoma cases, 350
 parovarian, with uterine myoma, 353
 retention, in kidney, with myoma, 427
 tubo-ovarian, with myoma, 340
 vaginal, with myoma, 439
