

# Wreck Chart of the Coast of Newf'land.

WE would specially draw the attention of Ship-owners, Captains, Agents and all interested in shipping to a CHART OF NEWFOUNDLAND, showing the positions in which ships have been wrecked on its coast, dating from about the year 1820 to December 31st, 1903.

A study of this Chart will be of the greatest value to navigators frequenting these waters, and must result in the saving of many ships from disaster.

The Chart has been compiled by R. White, Esq., Inspector of Lighthouses, Marine and Fisheries Department, Newfoundland.

A valuable reference book accompanies each Chart, giving names of ships, rig, date and number of lives lost, etc.

Orders placed with either of the undersigned will receive prompt attention. Price per copy, with handbook, \$5.00, sent *post paid* to any address on receipt of price.

Sole Selling Agents in Newfoundland:

S. E. GARLAND,	GARLAND, & Co.
