QUEBEC

COMPTON CO, QUEREC. COMPTON CO, QUEREC. COMPTON CENTRE-We are having fine weather now, and crops are growing well. There are a few who have not finished their spring worky set. Having is coming early, and will be a good crop. Many of the strawberry patches were bighted by frost and will not be a very heavy crops-I. G. C.

SHERBROOKE CO., QUE.

ONTARIO

DURHAM CO., ONT.

DURHAN Co. ONT. BLACKETOCK.— Owing to the continued dry, warm which, the growth of grain crops has not very rapid. The root crops have not advanced very root crops have and the count. There have been complaints that count. There have been complaints that count. The looking well, however. Pasture has been looking well, however. Pasture has been very good this season. Cover will be an average crop. Old meadows will not be very heavy. Fail wheat is looking well.— R. J. BALIBILIPTON CO. ONT.

HALIBURTON CO., ONT.

HALIBURTON CO., ONT. HIONDALE.—The weather is warm and dry. The late grain looks well, but needs rain badly. Early grain is not doing well. Early oats are heading out at ing up for wanted black. Hay is dry are doing nothing. Water is low for the are doing nothing. Water is low for the are doing nothing. Water is low for the time of the year Straw will be show. If rain does not come soon.—I. P. H. If rain does not come soon.—I. P. M.

WENTWORTH CO., ONT.

WENTWORTH CO. ONT. KIRKWALL-Thas mad three species have been very warm and three species in need of rain. Fail when is commence-ing to turn. The hay crop is not so heavy as was expected, will not average over 15 ions an acre. Pastures are short in the spring. Mangels have comp un splendidly, and are growing fine where properly cultivated. Stock and produce of all kinds still continue to sell high. do. Pork is down 10. signs 55 ets a. cattle from 4% to 5 ets a h. depending on quality. New hay is \$2100 a ton, and oats about 4& a bush.-C. A. W. WELLNGTON CO. 907.

WELLINGTON CO., ONT.

WELLINGTON CO. ONT. FERGUS-Ve had a fine rain the be-ginning of the week, which will mean hundreds of dollars in the farmers' pockets. It has been hot and dry ever since, and rain is needed again. The shower helped the root crops. The fly was making good headway with cablage plants and turnips. Farmers are busy plants and turnips. Farmers are busy plants and the early with cablage plants and the early with cablage doing fine and looks better than the late sown. Peas, oats, barley, and corn all look well. Some alfalfa has already been
