TIS SAD BUT TRUE.

Guelph, Ont., December 17.—The Gas-Electric Motors, Limited, which attempted to set up in business here a couple of years ago and which was promoted by one F. McHenry Kitching, a former employe of Thomas Bros., has gone into the hands of the receivers and the local investors, of whom there are but a few, have apparently lost the majority of what they put into the business.

After the failure to put the business in this city the company went to Guelph and purchased a buildings. Considerable stock was sold in that district and hose investors, it is said, are now mourning the loss of their coin. It seems that the big central plant of the company was nothing but a myth. Information also comes that prior to leaving the city, one of the members borrowed \$100, putting up \$5,000 worth of the stock of the company for security.

Everything for the smoker covers the ground and as he ships to all parts of the Dominion promptly he is doing a favor to all lovers of the "weed."
