Maple Grove Holsteins

Do you know that Tidy Abbekerk is the only cow in the world that produced three sons who have each sired 30-lb. butter cows, and two daughters with records greater than her own. She was bred, reared and developed at Maple Grove. Do you want that blood to strengthen the transmitting power of your herd, at live and let live prices, then write: E. BOLLERT TAVISTOCK, ONT. R.R. NO. 1.

Woodbine Holsteins

Young bulls and bull calves, sired by Duke Beauty Pieterje; sire's dam's record 32.52 lbs. butter, and his two granddams are each 30-lb. cows, with 30-lb. daughter, with 30-lb. granddaughter. Three generations of 30-lb. cows. If you want a bull that will prove his value as a sire, write A. KENNEDY & SON, R.R. No. 2, Paris, Ont. Stations: Ayr, C.P.R.; Paris, G.T.R.

Holstein-Friesian Association of Canada

Application for registry, transfer and membership as well as requests for blank forms and all information regarding the farmer's most profitable cow, should be sent to the Secretary of the Association.

Representation of Live-Stock Men.

Editor "The Farmer's Advocate":

At the last annual meetings of many of the breed societies a communication was presented from the Western Canada Live-stock Union asking for a more equitable representation on the directorate of these associations. The communication was well received by the annual meetings, to such an extent that a number appointed representatives to meet delegates from the Western Canada Live-stock Union.

A joint meeting of many of these representatives was held at Winnipeg during the progress of the Exhibition, when the following representatives were present:

Robert Miller, Stouffville, Ont.; H. Smith, Hay, Ont.; John Gardhouse, Highfield, Ont.; J. M. Gardhouse, Weston, Ont.; John Platt, Hamilton, Ont.; J. D. Brien, Ridgetown, Ont.; Hon. W. C. Sutherland, Saskatoon, Sask.; Lew Hutchinson, Duhamel, Alta.; John Graham, M.P.P., Carberry, Man.; Andrew Graham, Pomeroy, Man.; Dr. S. F. Tolmie, Victoria, B. C.; Dr. J. G. Rutherford, Calgary, Alta.; A. J. MacKay, MacDonald, Man.

The following resolution, moved by Robert Miller and seconded by Dr. S. F. Tolmie, was unanimously adopted:

Resolved, That this meeting of representatives of the live-stock breeders of Western and Eastern Canada recommends that in order to furnish adequate representation to all parts of the Dominion, the election of directors on the boards of the various breed associations should be based proportionately on the amount of bona fide membership fees paid by each Province. This to be done by dividing the total membership fees by the number of directors in each association, and then dividing the membership fees received from each Province by the unit thus furnished, which will give the number of representatives to which that particular Province is entitled. In the event of any Province not furnishing a sufficient amount of membership fees to be divisible by the unit in question, or if any Province does not furnish fees to an amount greater than one-half of the unit, such Province may, for purposes of representation, be united with an adjoining Province. When the amount of the fees derived from any Province, after being divided by the unit, leaves a larger balance than one-half of the unit, such Province to be entitled to another representative.

It is recommended that the representatives from each Province should be selected by the members of that particular breed association in that Province in such a manner as may be found feasible and practicable.

It is further recommended that in order to safeguard the interests of all the members of any association, any resolution passed at a general meeting of the association should be confirmed by a majority of the Board of Directors.

A committee consisting of Robert Miller, Harry Smith, Dr. Tolmie, and Dr. Rutherford, was appointed to lay before the next annual meetings the finding of this joint committee.

A copy of this letter has been mailed to the Secretary of each Live-stock Record Association. A. W. BELL, Secretary-Treasurer.

Questions and Answers. Miscellaneous.

Bitter-Sweet Nightshade.

What is the enclosed weed?

M. E. A.

Ans.—The trailing or reclining plant, with purplish flowers of the same construction as those of the potato, followed by clusters of red, juicy berries, is one of the nightshades, technically known as Solanum dulcamara. The plant loves to creep over brush heaps, particularly on land in and around wet places. The berries are usually feared as poisonous, but the disagreeable taste that succeeds the first sweetish impression will prevent anyone from eating enough of them to do him harm. The leaves and young twigs are used internally in certain skin diseases; the decoction is supposed to disperse tumors. Another plant, a climber bearing orange fruit, is also called bitter-sweet; its bark is used as a liver tonic. J. D.

Raise a
BIG Crop of
GOOD Wheat

With Homestead Fertilizers

The yield of wheat in this country during the last ten years averaged about 15 bushels per acre. In Germany, 31 bushels per acre. Why? Because the German farmer has learned how to use fertilizers and the necessity of keeping his land crumbly.

There is more fertilizer used in Germany, which covers about the area of our State of Texas, than in the entire United States.

We make special fertilizers to fill the requirements of different crops grown on all kinds of soils.

You cannot learn too much about fertilizers, and how to use them. Write us for further information and tell your friends to do the same.

We want agents for unoccupied territory. We are sure we can interest you.

The Michigan Carbon Works

DETROIT, MICHIGAN

Riverside Holsteins

J. W. Richardson,

R. R. No. 2, Caledonia, Ont.

King Johanna Pontiac Korndyke at head of herd; his 12 nearest dams and sisters average 33.77 lbs. butter in 7 days; his sister, Pontiac Lady Korndyke, made 38.02 lbs. butter in 7 days and 156.92 lbs. in 30 days, females in calf to him, are our present offering.

FAIRVIEW FARMS

Can furnish you a splendid young bull ready for immediate service, and sired by such bulls as PONTIAC KORNDYKE, the greatest producing sire of the breed, and also the sire of the greatest producing young sires of the breed; one of his sons already has six daughters with records above 30 pounds, RAG APPLE KORNDYKE 8TH, now heading our herd, and a few by a good son of PONTIAC KORNDYKE, and out of officially tested cows. Come and look them, and the greatest herd of Holsteins you ever saw, over, or write just what you want.

E. H. DOLLAR, Heuvelton, New York (Near Prescott, Ont.)

LAKEVIEW HOLSTEINS

Senior herd bull—Count Hengerveld Fayne De Kol, a son of Pieterje Hengerveld's Count De Kol and Grace Fayne 2nd. Junior herd bull—Dutchland Colantha Sir Mona, a son of Colantha Johanna Lad and Mona Pauline De Kol. Third bull—King Canary Segis, whose sire is a son of King Segis Pontiac, and whose dam is 27-lb. three-year-old daughter of a 30-lb. cow. Write for further information to
