There are Feeders and Feeders

BUT THERE IS ONLY ONE

WOOD BROS. Steel SELF-FEEDER

Reasons for buying the
Wood Bros. Steel Self-Feeder :

- Strongest Feeder made, by reason of its being entirely of steel. No wooden sills to rot out.
- Lightest Feeder in use: 300 to 500 lbs. lighter than wooden feeders.
- Has Automatic Bundle Spreader that effectually scatters packed bundles.
- Has Automatic Governor that will not break or get out of order, positively controlling amount of grain to the cylinder at all times.
- Is the easiest running and at the same time the widest and most capacious feeder made.
- Has the faculty of handling tangled, dirty or thistly grain with equal facility that it does the good, and makes no kicks, either.
- Is a Money Saver, Time Saver, Labor Saver and Power Saver.

MANUFACTURED EXCLUSIVELY BY

Sawyer & Massey Co., Limited

Hamilton Engine and Thresher Works,

HAMILTON, CANADA.
