

## Had Palpitation of the Heart Weakness and Choking Spells.

When the heart begins to beat irregularly, palpitate and throb, beats fast for a time, then so slow as to seem almost to stop, it causes great anxiety and alarm. When the heart does this many people are kept in a state of morbid fear of death, and become weak, worn and miserable. To all such sufferers Milburn's Heart and Nerve Pills will give prompt and permanent relief.

Mrs. John J. Downey, New Glasgow, N.S., writes:—"Just a few lines to let you know what your Milburn's Heart and Nerve Pills have done for me. I was troubled with weakness and palpitation of the heart, would have severe choking spells, and could scarcely lie down at all. I tried many remedies, but got none to answer my case like your Pills. I can recommend them highly to all having heart or nerve troubles."

Price 50 cents per box, or 3 boxes for \$1.25. For sale at all dealers or will be mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## QUESTIONS AND ANSWERS. Miscellaneous.

### A MILL PRIVILEGE.

What is the meaning when a deed of land gives a certain mill owner a right to flow back the water in his mill pond to a nine-foot head? Does that mean the dam shall be nine feet, or does it mean the water shall be nine feet? The water is running over the dam about six inches deep, making a flow back nine feet six inches, or the water at the tumble dam would measure 9½ feet high. Elgin Co., Ont. C. M.

Ans.—What is probably referred to in the deed is the water, not the dam.

### TELEPHONE TOLLS.

Am a subscriber to a rural phone. We are charged with long-distance tolls. Accounts are rendered quarterly. I have requested that my toll accounts be itemized, as part are personal and part business expenses, which I wish to keep separate. I can't get them to itemize as requested. They simply send in totals for each month. Can they collect an account which is not itemized? Ontario.

Ans.—Not if claim resisted. You are legally entitled to insist upon being furnished with details of the account.

### EFFECT OF ALFALFA ON BUTTER FLAVOR.

We are greatly interested in "The Farmer's Advocate." We have been thinking of putting some part of our farm into alfalfa hay. A friend, however, informs us that it gives a peculiar taste and smell to milk and cream. Is there any way of avoiding this? Thanks to the advice of "The Farmer's Advocate," and to a Eureka churn, the advertisement of which we saw in that paper, we have at last succeeded in making really good Jersey butter. We do not wish to jeopardize our hard-won success by a crop which will lower its quality. R. H.

Ans.—There is little foundation for such an alarm. Good alfalfa hay, fed as part of a ration, should produce no undesirable results in the dairy product. We have heard such assertions as you quote, but doubt whether there is much ground for them, unless the cows in question were fed almost exclusively on alfalfa hay, and that of inferior quality. Ripe alsike hay has an undesirable effect on butter flavor, but no one on that account condemns the inclusion of some well-cured alsike in the dairy cow's ration. By all means grow alfalfa for your dairy herd.

### Veterinary.

#### SORE NECK.

Mare is troubled with a sore neck. It comes on in boils. It will heal when she is idle, but so soon as put to work it breaks out again. I have used a zinc pad in top of collar without results. J. E. V.

Ans.—Of course, this is due to the weight of the tongue on the neck, else to pinching by the collar. If possible, give rest, or work with a breast collar until the parts are thoroughly healed. Lance all boils freely, and then dress three times daily until healed with a lotion made of 1 ounce each of sulphate of zinc and acetate of lead to a pint of water. If compelled to work with collar and harness, use a leather pad instead of a zinc one. Keep thoroughly clean, work as little as possible to a pole, and do as little backing as possible. There is no way to prevent this trouble except by wearing a collar that fits properly. These harness are particularly predisposed to the trouble. V.

One proof-reader on a small middle-sized daily was a woman of great energy and extreme propriety, says the *London Evening Journal*. One day a reporter succeeded in getting into type an article about Willie Brown, the man who was killed in the west-end. The wife, on the following day, sent the proof-reader on his desk a note asking, "Which is the west-end box?" The proof-reader took only an instant to answer: "The one the son sets on, of course."
