Winter Wheat

ONE CROP PAYS FOR THE LAND

The winter just past was considered a very severe one, but not a single field of **Winter Wheat** in the **Calgary District** suffered damage from freezing. Average yield for the last three years over 30 bushels per acre. According to the Government reports, no other district in Western Canada shows as high a general average yield of all kinds of grains as the **Calgary District**. Write for our booklet, showing 100,000 acres of winter wheat lands near Calgary. Cheap now. Worth \$50 per acre in a few years.

Mild Climate, Pure Water, Sure Crops and Cheap Fuel.
