**Did you ever have your range grates burn out?**

If you did you will know what that means in common ranges—it means plumbers, delay, muss and big bills—because common ranges are built that way. As range grates must some time burn out you are certain to have that kind of trouble if yours is a common range.

If you have the Pandora you won't have any trouble, because you can take out the old grates and put in the new ones in ten minutes, and a ten cent piece for a screw-driver does it easier in the Pandora than a whole kit of plumbers' tools will do it in common ranges.

A ten cent piece for a screw-driver is all you need to take out old and put in new Pandora grates.
