CROW'S NEST.

Summarizing the year's results of the Crow's Nest Pass Coal Company, for The Financial Post, Elias Rogers, the president, says that the output of coal was about 877,000 tons and the output of coke about 266,000 tons. "Since Jan. 1, 1915," declares Mr. Rogers, "we have paid off all our indebtedness and have now a substantial balance in the bank. All bonds against the subsidiary companies have been paid and there are now no bonds oustanding against any of the companies, and no preferred stock. As far as we can judge, the prospects for the coming year are quite as good if not better than the past year."
