This case has in the past been closely followed in St. John, ow and the important points connected with it, and the judgment of the Candian supreme court will be awaited

with interest. The plaintiffs, the appellants before the supreme court, are a firm in London, Eng., and carry on business in Canada through the Merchants' Bank of Halifax, the manager of the bank at Halifax acting as their agent for the Maritime Provinces. The defendant, Mr. William H. McLeod, resides in Richibucto, in this province. Four promissory notes all dated Jan. 30, 1892, and falling due on Sept. 30, 1893, 1894, 1895, and 1896, had ben made by George K. McLeod, and endorsed by the defend-ant. The three first notes are each for £1,625 and the fourth for £1,705.16. The case was first argued before the chief justice in St. John without a jury in June and December, 1904. The notes were admitted and Chief Justice Tuck found from evidence that proper notice of dishonor was given the defendant notices were not given as to the other three. He also found that the giving of time to the maker of the notes was clearly established by the evidence. On the ground that time was given and the endorser thereby discharged, the chief justice found on the first note in favor of the defendant. With regard to the other three, judgment was given for the defendant because of the fact that proper notice of dishonor was not given. In the Imperial Bills of Exchange Act, it is provided that notice may be given as soon as a bill is dishonored, and must be given within a reason ed Kingdom to Australasia by way of able time thereafter. Further, that in

the absence of special circumstance notice is not deemed to have been given within a reasonable time unless where the person giving and the person to receive notice reside in different places, the notice is sent off the day after the dishonor of the bill, if there be a post at a convenient hour on that day, and if there be no such post on that day, then by the next post thereafter. Notice of dishonor of a note payable in London, Eng., by a person in this prov-

ince sent the third day after protest by the first Canadian mail from Lon-don is not sufficient, where there are mails leaving London for the United States between the date of protest and the leaving of the Canadian mail by which the notice would have sooner reached its destination.

THE EVANS VACUUM CAP is a practical inven on scientific and hygienic principles by the simple means of which a free and normal circulation is restored throughout the scalp. The minute blood vessels are gently stimulated to activity, thus allowing the food supply which can only be derived from the blood, to be carried to the hair roots, the effects of which are quickly seen in a healthy vigorous growth of hair. There is no rubbing and as no drugs or chemicals of whatsoever kind are employed, there can be nothing to cause irritation. It is only necessary to wear the Cap three or four minutes

#### 60 Days' Free Trial! THE COMPANY'S GUARANTEE

An EVANS VACUUM CAP will be sent you for sixty days' free trial. If you do not see a gradual development of a new growth of hair, and are not convinced that the Cap will completely restore your hair, you are at liberty to return the cap with no expense whatever to yourself. It is requested, as an evidence of good faith, that the price of the Cap be deposited with the Chancery Lane Safe Deposit Company, of London, the largest financial and business institution of the kind in the world, who will issue a receipt guaranteeing that money will be returned in full on demand without questions or comment, at any time during trial period

The eminent DR. I. N. LOVE, in his address to the Medical Board on the subject of Alopaecia (loss of hair) stated that if a means could be devised to bring nutrition to the hair follicles (hair roots.) without esorting to any irritating process, the problem of hair growth could be solved. Later on when the EVANS VACTUM CAP was submitted t him for inspection, he remarked that the Cap would fulfil and confirm in practice the observations he had previously made before the Medical Board. DR.W.MOORE, referring to the invention, says that the principle

which the Evans Vacuum Cap is founded, is absolutely correct and indisputable.

An illustrated and descriptive book of the Evans Vacuum Cap will be sent, post free, on application.
