LABOR MEN DISCUSS MANY QUESTIONS

Meeting Held Last Night Was Particularly Heavy One.

There Was Good Attendance and Delegates Had Talk Fests.

The Trades and Labor Council had an interesting session in Union hall last night, at which many things of interest were discussed.

The Session—Roll Call
At the last meeting of the Council was decided to have a roll call at each meeting night. This was done last night.

Credentials Received
The following credentials were received from the Brantford Typographical Union No. 378 and accepted: Geo. Brayshaw, Geo. A. Moore, and George M. Crooks. This makes the full compliment to the Council. The other delegates are W. D. Reeves, R. G. Scott and Ira D. Scruton.

Strike in Hamilton
A communication was received from the Hamilton District Trades and Labor Council, notifying the council that the iron moulders and core makers in the city of Hamilton are out on a strike in the following foundries: Hamilton Westinghouse Company, Sawyer-Massey and the Dominion Steel Casting Co., and requesting that all iron moulders and core makers keep away from Hamilton.

Directory Scheme
The E. Little, representing the directory proposition which was recently considered by the council, in a communication which was read last night to the council to take up the directory scheme again. The communication was filed.

Hospital Work
The Women's Hospital Aid of the Brantford General Hospital wrote the council, asking for its aid and cooperation on tag day, which is being held Saturday. The request will be complied with.

The communication received from Women's Hospital Aid gave rise to a short but funny discussion. One of the delegates who has recently returned from the hospital, told of shortage of coats and other apparel that is worn by the patients. He said there was only four coats for some twenty patients. A delegate wondered what kind of consolation it would be to wear a coat after a foreigner who eats onions and uses garlic. A bright delegate informed him that the coats were probably washed.

CANADIAN TEAM SAILED LAST NIGHT

Bowlers For the Old Land Got a Happy Send Off.

MONTREAL, June 5.—The members of the Canadian bowlers team to the Old Country collected in the city yesterday evening and entertained the Victorian contingent at a breakfast. The Ottawa contingent, which arrived during the afternoon, was met by the members of the Toronto and western players were met on arrival of the Grand trunk train. Friendly games were played at Westmount during the evening.

A large contingent of local bowlers, H. Brown, Vice-President of the C. Y. C., Toronto and A. C. McKeown of the High Park Club, Toronto, were on board the Victorian, to see the visitors off and in an informal manner wish them good luck and bon voyage.

Edinburgh Strike
EDINBURGH, June 5.—The strike threatened by 40,000 shipbuilders which was recently favorably settled upon, has been averted for at least a week as a result of a compromise between the men and employers. Another meeting will be held at the end of this period to consider propositions made by the employers.

The Fire Loss
INDIANAPOLIS, Ind., June 5.—The early-to-day destroyed a portion of the Mait Motor Truck plant, causing a loss estimated at \$900,000. The chief loss, in addition to the value of the buildings, was in valuable stock-room. A large number of unfinished machines in the storage room also was destroyed.

France is Sufferer From Low Birth Rate

Figures Submitted To-Day Show That Natural Increase in Germany is Very Much Greater.

[Canadian Press Despatch] PARIS, June 5.—The question of the protection of women in France during motherhood, came up in the Chamber of Deputies to-day and gave rise to a lively debate. Deputy Fernand Engerand, in proposing a measure to compel employers to continue paying the wages of working women in case they are absent from their employment owing to motherhood, said that France and Turkey were the only European countries in which motherhood was not protected. The death rate among children who are put out to nurse

in France, he said, sixty per cent, while that among children nursed by their mothers was only 12 per cent. The number of births in Germany, he asserted, exceeded the deaths by 800,000 annually, while in France the excess was only 40,000. "If France had passed a measure of this kind twenty years ago," said Deputy Henri Schmidt, "the Chamber of Deputies would not be obliged to vote on a law compelling Frenchmen to serve three years in the army, nor to appropriate the many billions we are called upon to spend."

NEW SCHOOL MUST BE BUILT IN EAST WARD

At the meeting of the Public School Board to-night the question of overcrowding in the schools will receive consideration. Every school in the city is filled beyond the limit provided by the school regulations, and various expedients are being put in operation to relieve the situation. At King Edward school the halls are used necessary to rent other quarters. At Alexandra schools the congestion for class-rooms. At Victoria and Alexandria schools the congestion is particularly acute, and the only hope for permanent relief is the erection of a new school. The trustees to-night will probably move to have plans drawn up for a new school in the East Ward. This will mean that the ratepayers will be called upon to raise \$30,000 or \$40,000 for the purpose, and the only comment which can be made is that the expenditure is absolutely necessary.

Always Was A Patriot

Mother Frank, Who Adopted Ten Children, Passes Away.

AMSTERDAM, N. Y., June 5.—Miss Julia Frank, 72, known as "Mother Frank" is dead at her home in West Stoney Creek. She adopted and reared ten children and for forty years had attended Memorial Day services here and had decorated the grave of every soldier. Miss Frank's sweetheart, a soldier in the Union Army, was killed at the battle of Bull Run and for more than fifty years she has kept a light burning in her window in anticipation of his return. She never accepted as authentic the report of his death. The farm where she has spent her life is bequeathed to an unmarried sister on condition that the light be kept burning for the soldier.

A Suicide

Louis Cleghorn, Toronto Man, Jumped Off a Bridge at Calgary

[Canadian Press Despatch] CALGARY, Alb., June 5.—Louis Cleghorn of Toronto, a stranger in Calgary, but evidently a man of affairs, hanged himself about nine o'clock Wednesday evening, drove to the middle of the Centre Street bridge across the Bow River, handed the chauffeur an envelope containing a \$10 bill, jumped into the river and was seen no more. In the tonneau of the car was found a note which stated his name was not Mason under which he registered at a local hotel, but Cleghorn, and asking authorities to advise Mrs. Lewis Cleghorn of 55 McDonald avenue. The suicide is described as being well dressed, wearing a brown suit and hat. He was about 35 years of age. Cleghorn had been in the city several days according to the statement of the manager of the hotel at which he was stopping.

Killed by Jumping
NEW YORK, June 5.—Dr. Stephen O. Storck, 35 years old, one of the most prominent dentists in the city, and wealthy, was killed early to-day by falling or jumping from the eighth floor of an apartment house on West 58th street, where he lived with his wife and two children. The police reported the case as a suicide, but the family gave out no information concerning it. Friends said that over-work had unbalanced his mind.

CANADA WILL PAY HEAVILY FOR MISTAKE

England Cools Off With Canada's Refusal to Aid the Empire.

Investors Not So Favorably Impressed With the Dominion.

[Canadian Press Despatch] MONTREAL, June 5.—"I think that the course of action pursued by the Liberal minority in the House of Commons and the Liberal majority in the Senate to the naval bill, will prove extremely detrimental to Canadian financial interests. I have only recently returned from England, and it is already evident that recent political events have very materially cooled off the warm feeling for Canada existing among the British investing public. It is no longer correct to say that there is no sentiment in business, and that money is sent to Canada by English investors in preference to other fields merely because Canada offers better results. In reality there is a good deal of sentiment in the matter of making a choice between various investments. Now if our parliament had passed the bill and granted the paltry \$35,000,000 paltry that is compared with the enormous sums that other countries of no greater wealth must pay for defense, a sentiment very favorable to this country would have been created in the investing public of Great Britain."

Such were the opinions expressed by Mr. Edmund Bristol, K.C., M.P. for Centre Toronto, in an interview last night at the Ritz Carlton Hotel, where he is staying for a few days with Mrs. Bristol. Asked as to what he thought of an effort to bring on a general election, Mr. Bristol, speaking as a leader in the world of finance, and not as a member of the Conservative party, stated that he believed, considering the financial position of the Dominion at the present time, that a general election would be little short of a national calamity.

HIS WIFE DEAD CHILDREN SLEEP ON THE GRAVE

Extremely Sad Case of a Missionary, Who Was Called From His Family.

BROOKLYN, N. Y., June 5.—Rev. Jas. MacEwen, of Maxville, Ontario, a missionary of the Congregational Church, stationed at Bahia, Brazil, left the United States Immigration Station, at Ellis Island yesterday. Special transit privilege was granted him on account of ill-health to cross the United States with his sick children. Two months ago he went on a missionary tour to the back country in Brazil, 1,000 miles away from Bahia, leaving his wife in Bahia with five children. His wife was stricken with tropical plague and died. Rev. Mr. MacEwen was notified of her death by native runners and used all his money in a quick trip to Bahia. When he reached the home station he found two of the elder children, a boy of five and a girl of eight, asleep on his wife's grave. Mr. MacEwen, stricken with grief and broken down in health, left the buried wife at Bahia and embarked in the steamer on the s.s. Vestris, of the South American Line. On the trip to New York the first cabin passengers took up a collection of \$250 to help him. When he landed at Ellis Island he was held by the health officials because two of the children were sick. Special transit privileges were finally granted for the first time in two years by the Washington authorities and the minister and his children were allowed to start for Maxville.

She Gave Her Life
SOMERVILLE, Mass., June 5.—Realizing that she could not save herself, Miss Annie Cullen, an 18-year-old girl, who came to this country from Ireland two weeks ago, tossed to safety a baby she was carrying in her arms, an instant before she was crushed to death by a passenger train at north Somerville station last night. The child was unharmed. Miss Cullen in an attempt to avoid being struck by a freight train, stepped directly in the path of a rapidly approaching passenger train. The accident was witnessed by many persons who were powerless to help the girl.

Mad Suffragette is Still Unconscious

Woman Who Stopped the King's Horse is One With High Education—Hopes For Her Recovery.

[Canadian Press Despatch] EPSOM, Eng., June 5.—Emily Wilding Davison, the militant suffragette, who yesterday caused a sensation by leaping at the King's horse and seizing the reins at full speed in the race for the Derby, and who suffered terrible injuries, was still unconscious at noon today. The doctors in attendance at the local hospital, however, consider that there is more hope for her recovery. Miss Davison is one of the best known English suffragettes. She is a

young woman of high education, having taken the degree of bachelor of arts at London University, where she was a student in the final honor school. She is a citizen of London by birth but spends much of her time at her residence in the county of Northumberland. The police to-day notified the authorities of the Epsom Hospital that Miss Davison must be regarded as a prisoner. The surgeon in charge states that it will be several weeks before she is able to leave the hospital.

NO FOREMAN FOR SEWER DEPARTMENT

At the meeting of the Board of Works to-night action will be taken in regard to the purchase of a traction engine for the city. Ald. Suddaby was unable to say to-day what the recommendation of the committee would be. In connection with the appointment of a boss for the sewer department there is said to be nothing doing. It was announced to-day that while Ald. Sutch was considered the best man available for the job, the work under the two foremen was being carried out satisfactorily at present. One job is being done on Balfour and another on Rawdon street, and Ald. Suddaby, chairman of the board, believes that the two foremen will be equal to the task of looking after the work in future. He is strongly opposed to the appointment of a superintendent for the department.

Miller Will Be Free Friday

[Canadian Press Despatch] OTTAWA, Ont., June 5.—The Commons is spending the day cleaning up business in preparation for prorogation to-morrow afternoon. The Highways Bill was killed by Hon. Frank Cochrane moving non-concurrence in the Senate amendments. Premier Bowden announced the Government would probably make a grant to the peace centenary celebration of Britain and the United States did so. R. H. Miller, the state prisoner, in jail here since last February for contempt of Parliament, will be liberated to-morrow afternoon. It is understood that the movement for a \$1000 bonus to members has fallen through and that they will receive only the usual indemnity of \$2500. Parliament will have been in session 197 days to-morrow.

Britain Acts Canada Lags

[Canadian Press Despatch] LONDON, June 5.—The British Government has decided to lay down three battleships of the present year's naval program immediately instead of next March, as originally intended. This move is sure to be taken in consequence of the rejection by the Canadian Senate of the Canadian Government's naval aid bill to appropriate \$35,000,000 for the construction of three dreadnoughts for the British navy, according to Winston Spencer Churchill, First Lord of the Admiralty, in an announcement made in the House of Commons to-day.

Body Cremated

LONDON, June 5.—The body of Alfred Austin, the late poet laureate who died on Monday, was cremated at Golders Green to-day without any ceremony, but by permission of King George, a memorial service was held in the Chapel Royal, St. James' Palace, at the same hour, and was attended by members of the Austin family.

EXPECTATION OF HEIR OF ROXBURGH GIVES RISE TO QUESTION OF TITLE

DUCHESS OF ROXBURGH

Expectation of an heir to the Dukedom of Roxburghe ten years after the marriage of Miss May Goelet, of New York, to the present Duke presents a problem as well as a surprise to London's lofty society. Upon the birth depends the question of whether the ancient title and estates shall be handed down in direct line or shall go to Lord Alastair Robert Innes-Ker, the brother of the Duke. Although the relationship between the two households is very cordial it is known that the Duke and Duchess are eager that their child shall be a boy, so that the title shall be his. The Duchess' friends have been told that a famous gynecologist has received a \$5,000 fee and has practically staked his reputation on his declaration that the heir shall be a male child.

FALLING OFF IN NUMBER OF MEMBERS

Report of Presbyterian Assembly Under New Moderator.

Amount of Funds Raised Showed, However, Half Million Increase.

[Canadian Press Despatch] TORONTO, June 5.—With the new moderator, Rev. Dr. Murdoch MacKenzie of Hontan, China, presiding, the second session of the general assembly of the Presbyterian Church opened in Massey Hall this morning with an attendance fully equal to that which followed throughout the proceedings of the pre-assembly congress, which closed yesterday.

The morning was largely devoted to the work of preliminary organization, committees being appointed, the program arranged and details settled with the object of expediting the work during the ensuing week of the assembly. The appointment of Dr. MacKenzie as moderator has proved very popular with the commissioners to the assembly and he was busy to-day acknowledging congratulations. Dr. MacKenzie was born in Scotland and since 1888 has been actively engaged in the missionary work of the church at Hontan, China.

The subject of home missions will be considered at a great mass meeting to-night and foreign missions will be considered at a similar public gathering on Friday evening. The ordinary business of the assembly will not be dealt with at either of these sessions. Applications from nineteen ministers of other denominations or other assemblies including some evangelists who had been ordained for admission to the general assembly, as fully qualified ministers were received and favorably dealt with this morning.

The reports which were presented for the consideration of the commissioners, included that of the committee on statistics which dealt in detail with the material state of all the presbyteries; that of the hymnal committee, the James Robertson Memorial fund committee and the committee reporting on travelling expenses of commissioners.

The statistics committee states that the Presbyteries report 168,000 Presbyterian families in the Dominion, 34,409 single persons. Allowing five persons to the family, this gives a total of 874,414 members of the church which the report contrasts with the 1,113,324 Presbyterians discovered by the last Dominion census takers and draws the inference that the balance, 240,910, are not actively connected with any congregation. Families reported show an increase of 4,223 and 15,808 individuals united on profession of faith. "When we come to the financial side of the report, we come out of the shadows into the sun" declares the report in drawing attention to an increase of \$697,101, in the amount raised by the church for all purposes during the year, the figure being \$5,417,163.

He Made Good.

LEE, Mass., June 5.—A promise made 24 years ago was fulfilled yesterday when Charles Blonde received a check for \$50,000 from his brother Joseph Blonde of Anchio, Wyoming. He left Lee in 1889 to seek his fortune in the west and Joseph told Charles that he would make him a present if he prospered. In a letter accompanying the check, Joseph said that he had not forgotten his promise and that he had "made good."

CONVICT STOLE THE GOVERNOR'S CLOTHES

Trusty Negro Employed in Mansion Made Daring Escape.

[Canadian Press Despatch] JEFFERSON CITY, Mo., June 5.—Donning a good suit of clothes belonging to Governor Major Geo. Clemons, a Joplin negro who is serving two years in the pen for burglary, stole away from the convict mansion yesterday and is still at large. Clemons was employed with a number of other convict trustees in laying a water main. He had occasion to go into the basement to establish a connection. While there he hastily went upstairs, discarded his convict garb and decorated himself in the governor's suit. He then hid until nightfall and made his escape. The governor's predecessor, Robt. S. Hadley, lost an \$88 dress suit in the same manner when he was the resident of the executive mansion. A white convict trustee, employed as an electrician about the mansion, stole away from his guard post on the governor's swallowtail and left for parts unknown.
