A BUDGET OF NEWS FOR THOSE INTERESTED IN LABOR IN THE WORLD OF LABOR

GLEANED FROM THE EXCHANGES AND OTHER SOURCES

Iron moulders are winning out in their big strike at Chattanooga, Tenn. Six of the largest foundries in the city have come to terms with the union and conceded to all demands. The strike was declared to enforce a nine-hour day, a minimum wage of \$3.25 for bench employees, \$3.50 for floormen, and a 10 per cent increase for piece-work.

Some idea of the growing strength of the Brotherhood of Painters, Decorators and Paperhangers of America can be gathered from the fact that with the close of the month of June, 1916, the membership had grown to the 83,853 mark. A man who would have predicted this eight years ago would have been classed as "bug-house" but to-day the organization is hustling to make it a straight hundred thousand, and they mean to do it, too.

The Brotherhood of Painters, Decorators and Paperhangers of America now pays out in death and disability claims a sum in excess of \$20,000 per month.

Some forty-one strikes are in progress in Detroit, Mich., at the present time, and 140 policemen are on picket duty. So great has the police brutality become in connection with the cigar makers and other labor troubles that the Detroit Federation of Labor has instructed its Executive Board to retain counsel and secure an injunction against the police department and to fight the case to a finish.

The Journeymen Barbers have just won out in a big strike in New York City, in Brooklyn and Kings. According to the terms of settlement, signed by the boss barbers, all employees must be members of the union and hours agreed upon are to be from 8 a.m. to 8 p.m., with dinner hour off. The boss barbers may open out their shops themselves as early as they choose, but must close sharp at 8 o'clock p.m.

The local cooks' union in Minneapolis is waging a strenuous battle to keep the city from being overrun by the Japanese and Chinese invasion. Last week alone seven big restaurants passed into the hands of Orientals, and their white help was dispensed with.

1916 has been the most prosperous year in the history of the International Brotherhood of Electrical Workers. Not only is the membership rapidly increasing, but never before have wages so materially advanced or such a large number of union shop agreements been signed up with employers.

In spite of interested rumors to the contrary, the Ottawa, Ont. local of the Amalgamated Association of Street and Electric Railway Employees is well satisfied with the new agreement recently signed up by the representatives of the union and the street railway management. Under it the employees receive a general advance in wages and a reduction in the hours of labor.

J. E. Wilton and W. R. Trotter, both members of the Vancouver Typographical Union, have been nominated to contest constituencies in the city in the interests of the labor party. Six members are to be elected from that city, and already there are 19 candidates in the field, representing Cists and Tories, Laborites, Socialists and Independents. Looks as though it was going to come to a real scrap this time.

Vancouver building trades unions have started to build up their various organizations. At a recent meeting held in that city the view was expressed that there was never a time when it was so necessary to get down to business. Energetic committees were appointed, and a live forward movement will be immediately inaugurated.

The problem of the deadly running board on street cars which caused so many serious accidents in Toronto, is yet a problem in the city of Winnipeg, according to the following which is clipped from The Voice: "These old street cars with the dangerous side-boards, have got to wear out, no matter how many get injured in the process. The street car men have never let up in their attempts to get the traps legislated out of existence; that they have not refused to operate the cars altogether is one of the wonders that does not carry its own explanation."

The newly formed Builders' Laborers' Union in Winnipeg has decided that 30 cents per hour shall be the minimum wage rate in that city and vicinity.

Motormen and conductors in the employ of the Guelph Radial Railway have applied for an increase in wages. At the present time they receive 22c an hour, and ask for a graded scale up to 35c an hour.

The Vancouver, B.C., Licensed Hotel Keepers' Association for obvious reasons is trying to be good; at present, perhaps because the prohibition question in the Pacific Province is to the fore. Anyway, it has passed a resolution to the effect that all hotels will dispense with Asiatic labor as rapidly as possible between now and the end of the present year, and after Jan. 1, 1917, Orientals are to be totally excluded. Trades unionists, however, have their suspicions.

In none of the new callings thrown open to women during the past 18 months has their business ability apparently occasioned more surprise to those who doubted it, than in the matter of banking. An authority on banking recently expressed himself quite vigorously on the question. "If anyone had told us," he said, "twelve months ago that young women would have so distinguished themselves, we should have smiled. We find increasingly that they are business-like, conscientious and enthusiastic. I do not think the war has brought a more remarkable development than the revelations of the capacity of women in banking."—Christian Science Monitor.

BILLION DOLLAR CROP EXPECTED points throughout Western Canada, Dr. McGill of the Dominion Grain Commission, is quoted in Calgary as saying that Alberta would have a crop as good as last year, that the Dominion would have a billion dollar grain crop and that the grain crop of the three Prairie provinces would be little, if any, behind that of last year.

"The country as a whole never looked better than it does at present," said Dr. McGill. "The weather was made to order, as you might say and I am of the opinion that this year's harvest will be another wonderful one."

Those who contemplate going West will do well to remember that the most fertile districts in Western Canada are served by the lines of the C.N.R. and that this season they can travel from their home districts to destination Canadian Northern all the way.

Arrangements have been made whereby passengers may travel in comfort. Colonist and lunch counter cars being a feature.

The first of these excursions will be run in August, the date will be announced later.

For further information apply to nearest Canadian Northern Agent, or write to R. L. Fairbairn, General Passenger Agent, 68 King St. E., Toronto.

GREECE FALLING INTO DISFAVOR

Athens, Aug. 25, via Paris.—The present political and military situation, says the Paris, has resulted in an exchange of views among the Entente powers, regarding the attitude to be taken towards Greece. It is questioned by the Entente diplomats, the newspaper states, whether the measures agreed to by Greece in response to the demands of the Allies, including mobilization of the army and a government offering all necessary guarantees for benevolent neutrality are now sufficient in view of the situation.

SUPPLEMENTARY BLACK LIST

By Courier, Leased Wire Paris, Aug. 26.—The Journal Official to-day publishes a supplementary blacklist of various houses and companies in neutral countries. Two of the names in the list are American, those of Herman Kupper of 52 Murray street, New York City, and the National Zinc Company of No. 2 Stone street, New York City.

THE FAIRY WOODPECKER

Once upon a time a feather fell from a tree and a mischievous elf turned it into another woodpecker.

Now, the feather was small and so the little woodpecker wasn't even so big as a fly. There he was, black and white, with a red spot on his head, and he could fly a good sight better than you or I, if his wings were small.

But, jealous! My, oh, my! he was so jealous of the big
