

NEWS OF THE CREEKS

Miners' Union Meeting Saturday Night a Good One.

Mr. and Mrs. Ben Leshar, of Monte Cristo, left for Los Angeles, Cal., this week.

Mr. E. K. Carruthers has resigned his position as chief engineer at 2 below Bonanza and accepted a position as foreman on 46 below Bonanza with Mr. Tyrrell. Mr. Carruthers has been connected with the N. A. T. & T. Co. for several years, and Mr. Tyrrell may be congratulated in securing his services.

A cigar case which was advertised in the Nugget a short time ago, lost between 26 and 40 Eldorado and containing the initials G. H. B., has not yet been returned. Anyone returning same to this office will be suitably rewarded.

Miss Jenny Parry, of 18 below Bonanza, will give a birthday party on the 25th inst. Those receiving cards may consider themselves fortunate as it will be a swell affair.

It is surprising what reports go out to parts of the U.S. regarding the conditions of affairs in the Yukon. A letter was received by a prominent gentleman on Bonanza a few days ago saying, "We hope you will get home safe this fall as we hear the Indians are on the war path and very dangerous and numerous."

Mrs. G. N. Williams and son, of 30 Eldorado, are visiting with friends in Dawson this week.

Mr. Roscoe Green, of Grand Forks, has sold his business to Messrs. Anderson & Swan, of Dawson, who will take possession at once and dispose of part of their large stock at the Forks. Mr. and Mrs. Green are among the most popular people at Grand Forks, and will be missed in both business and social circles as they leave at once for their home in Oregon.

The miners' meeting at Grand Forks Saturday evening was one of the largest and most enthusiastic yet held at that place. A large number of applicants were received and everything looks favorable for a strong organization in the near future. The lien law was the subject for much discussion during the evening. Many opinions were heard upon the subject and all felt that something must be done at once to protect the laborers. The executive committee was instructed to prepare an amendment that shall provide a lien that will give the laborer priority

against both the dumps and claim for all wages prior to all other debts. The executive committee was further instructed to go on with all business and meetings on all creeks as heretofore arranged. It was also unanimously decided to call a convention at Dawson for July 27th at 8 p. m. The president vice president and secretary to be delegates at large. Each district to send as many delegates as it chose, but to have but one vote for every 25 members of the district represented by said delegates.

Combine Against America.

New York, June 25.—Frank A. Vanderlip, formerly assistant secretary of the treasury, who has just returned to Washington from a long trip abroad, is quoted by the Tribune's correspondent as saying: "I think it is not only possible, but highly probable, that Europe can and will agree to binding terms of trade combination against us within the next few years, and that the result will be the most gigantic and stubborn commercial war in the history of the world. As most of our commercial treaties expire in 1903 I look for the beginning of the war then in the refusal of most of the continental nations to renew those conventions."

"At the present moment Austria, which never did like us, is leading in the movement against the United States, and I found Goluchowski, head of the ministry of that country, our bitterest and most outspoken foe. Obviously the other ministers of the old world, including even that of England, are artfully encouraging Goluchowski in his course of opposition with a view of drawing our fire before they openly declare themselves. For the immediate future our trade prospects were never brighter in Europe. There has been almost a total crop failure in Germany. The agricultural outlook is only a little brighter in France than in Germany, and even in England the crop yield is not very promising. But as soon as the continent recovers from its present agricultural depression I confidently believe the tocsin of war will be sounded."

In Russia there are loud professions of friendship for the United States, and one hears many expressions of admiration of our commercial development and methods. The Russians are modeling their tariff system after ours, and in a few years will be applying it with vigor and severity against all nations alike, but particularly against the United States.

"We can meet Europe's onslaught with courage and confidence. We outstrip her now in every material resource, on the labor-saving machinery, and in the rapidity with which our surplus capital is accumulating. Add to these advantages a patriotic citizenship and an intelligent working class, and who can doubt for an instant that we will win the battle?"

When it is over then the problem will be to keep the distracted hordes of Europe from overrunning this country and to prevent the desperate monarchies of the old world from acts of territorial aggression in South America, upon which they are already looking with covetous eyes."
