## AN INSPECTION

### Is Made of the Proposed Lake Erie and Northern Railway Route--An Outline of the Various Points.

The members of the Railway Board of the city council, and the members of the Parks Board assembled at the city hall yesterday afternoon shortly after two o'clock where they were joined by Mr. W. S. Brewster, and W. P. Kellett, who represented the Lake Erie and Northern Railway.

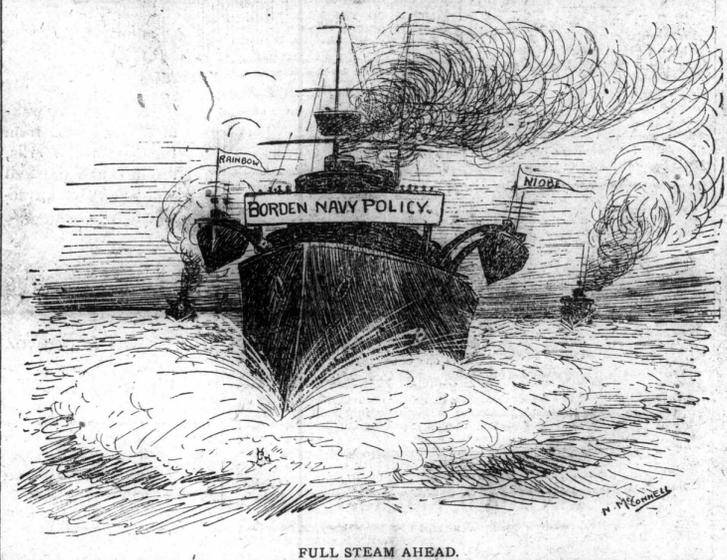

Those present were Ald. W. A. Blinnick, Ald. J. H. Spence, Ald. J. Quinn, Ald. Gillingwater, and City Engineer T. Harry Jones of the Railway Board, and Messrs. E. L. Todd, W. Glover, F. Cockshutt, J. C. Waller and Mayor Hartman of the Parks Board.

The Boards, at the request of the electric road officials, went in automobiles over part of the proposed route of the Paris and Galt entrance of the new electric road. The first stop was made at the Lorne bridge, where Mr. Kellett and his assistant pointed out to those present the exact place where the new road intended to run. Stakes were put up showing exactly the inside and outside of the concrete retaining wall, which will be above the flood level. This piece of work is absolutely necessary to protect their tracks from the floods. It is proposed to build this concrete wall along where the board walk is situated at the foot of Jubilee Terrace. The proposed route does not cut into the land part of the Terrace at all. Those present were shown a plan of the proposed elevation of the bridge and also the point where the railway would cross Colborne street.

It will be necessary to remove the old brick ice house, as the survey line runs right through the centre of it.

The delegation then proceeded along the foot of Scarie Avenue, at a point where the survey line, which runs along the edge of the river bank, takes a turn and runs out into the river, touching a piece of the island and proceeds northward towards the Holmedale. There is a grade here with a raise of 1 per cent, i. e. a raise of one foot in every hundred. The autos were brought in use again and those present proceeded to the corner of Chestnut and West Mill street, at which point the railway survey line crosses West Mill street, takes a sharp turn and proceeds along the property on West Mill street to a point a few feet from the corner of West Mill and St Paul's Avenue. The proposed line at this point runs in right behind the Baptist Mission church, crossing St. Paul's Avenue and running through the property of Mr. Hitchon, and then running parallel with Home street until the Morrell street school is reached, where the survey runs through the school yard. After passing through the proposed G. T. R. Holmedale route, then turning north runs past Wilkes' farm, the Golf links and on to Paris and Galt.

After arriving at the point where the G. T. R. and the electric roads cross, the committee got into the autos and returned to the city. The members of the Railway Board, will be being over part of the route, will be in a position to report on same, and lay the matter before the city council, although a conference between the said board and Parks board may take place first.

FULL STEAM AHEAD.

(Courier Leased Wire.)  
ST. LOUIS, Mo., Jan. 18.—Two sensational runs gave Geo. B. Slosson, the fifth straight block of 400 points in his 2,400 point match with Koji Yamada at 18.2 half-line hills here last night. The total score for the five nights' play is 2,000 to 1,231, in Slosson's favor. Slosson's high runs were 112 and 160 and the Japanese best run was 24. Slosson averaged 28.4-14, and Yamada 8-13.

#### VICTORIA LEADS.

(Courier Leased Wire.)  
VANCOUVER, Jan. 18.—Victoria nosed out Vancouver in a clean game by a score of four to three and went into the lead in the Pacific Coast League. There was but a shade between the two teams, but that shade must be allotted to Victoria. That team never checked better. In the second period, after Victoria scored once the Vancouver team came to life for a few minutes and there was some fast hockey. Cyclone Taylor became "cyclical," taking the puck up for two goals, both of them being shot by Harris. In the third period

## A FIRE

### Takes Place at the Establishment of Miss Wilkes--The Men However Succeeded in Saving Many Valuable Horses.

(Courier Leased Wire.)  
GALT, Ont., Jan. 18.—Fire, which started from some unknown cause, last night destroyed one of the immense modern barns on the estate of Miss Katharine L. Wilkes, at Blair, near here. In the barn were 75 horses, including some of the most valuable of the famous Wilkes' string, such as Great Mikado and Paronella Todd and other stallions. It was fortunate that the blaze was discovered before it had gained much headway, for it gave the men at the farm time to free all the horses and about fifty

head of cattle. None of the animals were injured, but 180 tons of hay and straw and about 5,000 bushels of oats were entirely destroyed. The Galt firemen and the Preston department were called, but without adequate water supply they could do nothing. The crowds, which had gathered from all the countryside, simply watched the valuable structure burn. The barn was electrically lighted, and a short circuit may have caused the blaze. The loss is covered by insurance.

## It is Just Like Spring Weather in the States

#### (Courier Leased Wire.)

NEW YORK, Jan. 18.—Electric fans buzzing in offices here mosquitoes in New Jersey, snowless Vermont, blue birds and robins in Virginia, apple trees budding in Maryland and outside baseball practice in Philadelphia and dandelion picking in many places are reports attesting to the unusual midwinter in the east. Popular belief that yesterday was one of the warmest January days this city ever experienced is borne out by the search of winter records showing that yesterday's 50 degrees is the highest the thermometer has registered for a January 17th since the weather bureau was established 43 years ago.

The Hudson river is being navigated at a later date than any time since 1810 when Robert Fulton was running his steamer, Car of Neptune, between New York and Albany as late as January 20. It is customary to close the river for navigation on Dec. 15. Even in Maine most of the lakes and rivers are open, but the ice companies are still hoping for two weeks of zero weather which is required for a good ice crop.

## British Doctors Have Changed Their Minds

#### (Courier Leased Wire.)

LONDON, Jan. 18.—The members of the British Medical Association today decided by a majority of 113 against 35 votes to release the British doctors from the pledge they had given not to serve under the National Insurance Act which provides a monetary allowance and medical attendance to the working classes during sickness. The opposition of the doctors to the scheme of state

insurance was based on the amount to be paid them for their services to the insured persons which they declared was too small. It is however suspected that politics have much to do with the doctors' resistance, especially in London.

The minority at today's meeting was composed entirely of London practitioners and the campaign against the act continues in the Metropolitan.

## Canadian Cruiser Captures a U. S. Schooner While She Was Poaching

#### (Courier Leased Wire.)

VICTORIA, B. C., Jan. 18.—Although she made a determined effort to elude capture the Gasoline Fishing Schooner Active, Captain Engell of Tacoma, is in charge of the Dominion Government, having been caught in the act of poaching a little over a mile off Cape Cook, Vancouver Island, by the Fishery Protection Cruiser-Newtoning, who brought the vessel into port. The captain and his crew of the Newtoning sighted the Active fishing while patrolling the Active fishing while patrolling the Halibut Banks off the Northwest

shores of the island about noon Monday. The American craft had her gear out, but when she sighted the Newtoning she started up her engines and headed for sea. In the hurry of her escape the Active left her trawls behind. The officers of the Newtoning having taken her bearings found the Active was well within the three mile limit when discovered fishing. She had about 3,000 pounds of halibut aboard when captured. The Active will remain here until the case comes before the courts.

## MUCH RESERVE Is Manifested by the Turkish Plenipotentiaries--Some Caustic Comments at the Expense of the European Powers.

#### (Courier Leased Wire.)

LONDON, Jan. 18.—The greatest reserve is maintained by the Turkish plenipotentiaries here in regard to the note handed to the Ottoman Government yesterday by the European ambassadors at Constantinople. All discussion of the merits of the note is avoided by them on all the elements for an exhaustive judgment.

Osman Nizami Pasha, the Turkish Ambassador to Germany, said, however, he could not help remarking that Europe, which four months ago had proclaimed the principle of the maintenance of the state of things existing before the war, whatever the result of the conflict might be, has now taken the strange course of demonstrating its neutrality by making in the note open allusion to the possible loss by Turkey of Constantinople and some of her Asiatic provinces, when it says that a resumption of the war would "bring into question the fate of the Turkish capital and perhaps an extension of hostilities to the provinces of Asiatic Turkey."

The same can, he said, be asked from the Turkish point of view, he asked what the powers promise concerning the islands in the Aegean Sea.

He continued: "Even admitting for the sake of argument that Turkey is ready to yield the islands in the Aegean Sea, how can she cede them to the powers on the simple promise that their settlement will exclude all menace to the security of Turkey, when Europe has just given such tangible proof of how little her promises are worth."

The delegates of the Balkan allies as a whole are relatively satisfied with the situation, but they do not believe the end of the negotiations is near, as the Porte is not likely to give a categorical answer to the note of the powers.

## The Kaiser Spoke Out in a Plain Manner

BERLIN, Jan. 18.—A newspaper correspondent learns the following from a high diplomatist who knows something in regard to the failure to send to Turkey the collective note of the powers which contained a threat of a naval demonstration in the Dardanelles.

According to this person, the Kaiser, during the annual reception on January 12, entered into a lengthy conversation with the Roumanian minister. The Emperor expressed the hope that Roumania realized the great responsibility which rested upon her in regard to a controversy with Bulgaria, and spoke of the great danger that threatened, owing to the differences between Roumania and Bulgaria, and said it might be the beginning of a general European war.

The Kaiser declared that Germany has joined with the other powers in a collective note to Turkey to remind the Sublime Porte of its responsibilities. Germany, however, he said, was opposed to further coercive measures. Looking straight at the Bulgarian minister, who was within hearing distance, the Kaiser said: "If the collective note fails to have the desired effect, and the suggestion of a naval demonstration is made, Germany will know how to prevent such a demonstration."

## Ten Million Dollars to Aid the Farmers

#### (Courier Leased Wire.)

OTTAWA, Jan. 18.—Hon. Martin Burrell has given notice of the following resolution: "That it is expedient to provide a sum not exceeding \$10,000,000 to be appropriated and paid out of the consolidated revenue fund of Canada during the period of ten years beginning with the year ending March 31st, 1914, for the purpose of aiding and advancing the farming industry by instruction in agriculture, including the work carried on by veterinary colleges."

The Government thus is energetically fulfilling its promise to aid agriculture. The sum, by far the largest ever devoted to the country's basic industry, is especially intended to promote educational work. The work will proceed along the lines laid down by C. C. James as a result of his survey of the industry over the entire Dominion. It is understood that Mr. Burrell and Mr. James have worked out a well-defined scheme for the expenditure of the money on extremely practical lines. The distribution of the grant will be largely on the basis of population.

### Was up Betimes This Morning--French People Hail His Appointment to the Post With Universal Satisfaction

#### (Courier Leased Wire.)

PARIS, Jan. 18.—The French cabinet met today at the palace of Elysee, under the chairmanship of President Fallieres, when all the ministers formally offered their resignations as a sequel to yesterday's election of Premier Raymond Poincare as chief executive. President Fallieres, however, requested all the members of the Government to retain their portfolios until their successors had been chosen. He did not indicate the statesmen, who would be asked to form the new cabinet.

He worked with two secretaries clearing up the arrears of national business.

The newspapers, even those professing Monarchist and Clerical sentiment, comment on Raymond Poincare's election with favor and with a unanimity unprecedented in French politics. It is in fact difficult to find anywhere a dissenting word.

Friends of Jules Pams, the strong opponent of M. Poincare in the balloting, aver that it was the Conservatives who decided the presidency, but to this statement the reply is made that the Conservatives possessed 91 votes in the National Assembly and that therefore with everyone of them supporting the candidature of M. Poincare, he would still have acquired the Republican-Radicals vote more than Jules Pams, as he won the election by a majority of 187.
