# The Latest and Best **Medicine for**

Medicine has made great strides during the past few years. Doctors do not pres-cribe the same remedies now they did twenty-five years o. There is something better. Dr. Huge's Health Tablets for Women are vastly better than the remedies put on the aarket then, which contain the second secon

they are now superceded in the march of medical science by something better. Many of the most effective

ingredients in Dr. Hugo's Health Tablets had not been discovered twenty-five years go. Some of them were not Scovered ten years ago. Yet the world's best physi-

clans are now using them in diseases of women. There is no other proparation in which they can be obtained except these tablets. That is why we term Dr. Hugo's remedy "The twentieth century preparation for women." It is up-to-date. Women cannot afford to ignore these recently discovered ingredients, which science has made possible for their relief.

It is an incontrovertible fact that these tablets, embracing as they do, all the latest and best in medicine, will change weak and diseased organs (no matter which they may be) into strong and healthy or-gans, when the tired feeling, nervousness, and irritability, which come from a run-down condition, will disappear.

They will take away the backache, constipation, and dragging-down pains which are symptoms of a run-down condition or some serious disorder. They will cure all menstruation or uterine troubles even when chronic. In a sor Castle, where during the last nine years of his life he devoted himself to ientific and artistic pursuits. A "Rubber" Calendar The Canadian Rubber Co. of Mon-treal, Limited, have just published one of the finest trade calenders we have yet seen. The size is 22x15 and there is a sheet for each month. On every page is displayed engravings of some of the company's most noted products, and this feature is very interesting, and quite novel so far as the rubber companies in the Dominion are con. cerned. The date figures in the calendar are very large, and the banking and other holidays are shown in red. The company has issued many thousands of these calendars, put up in cartons, ready for mailing, and any business firm in the Dominion can ob-

tain one by simply sending a written request to either the head office, Montreal, or any of the sales branches throughout Canada.

Death of Mrs. Peter Johnston After an illness of a few days with oneumonia, Mrs. Peter Johnston died at the family residence, Oak Leaf, on Tuesday evening. She was a most estimable woman, a daughter of the late Thomas Morris of Glen Morris, and leaves besides, her husband a family of grown up children to mourn her loss The funeral will take place at 11

a m. on Thursday to Trinity church.

Prince Rupert was born in 1619, the son of Frederick V, Elector palatine and Elizabeth, eldest daughter of James I. of England. He was a man of impetuous bravery, but at the same time showed lack of caution. When only thirteen years old he took part in the siege of Rheimberg, and at the age of eighteen commanded a regiment of cavalry in active service. At the beginning of the civil war in England he was placed at the head of a regiment of hor-e and took part in several battles. Notwithstanding a serious error at Marston Moor, he was soon appointed Commander of the Royal troops. After the defeat of Naseby, on June 14, 1645, he retired to Bristol but surrendered that city on August 22. The King thereupon deprived him of his commission. In 1648 he was, for want of any competent man, appointed to command the fleet. He was blockaded by Blake in Kinsale Harbor, and in October, 1649, forced his way out and steered for Lisbon. Blake pursued him and he was only saved by assistance from the King of Portugal. He subsequently escaped to the West Indies, but after the restoration of Charles II, he was made a Privy Councillor, and served under
