

## For that Dandruff

There is one thing that will cure it—Ayer's Hair Vigor. It is a regular scalp-medicine. It quickly destroys the germs which cause this disease. The unhealthy scalp becomes healthy. The dandruff disappears, had to disappear. A healthy scalp means a great deal to you—healthy hair, no dandruff, no pimples, no eruptions.

The best kind of a testimonial—  
"Sold for over sixty years."

## Stomach Disorders

STOMACH DISORDERS.—Gastritis,  
Catarrh of the Stomach, Indigestion or  
Dyspepsia. Symptoms of Catarrh of  
the Stomach are catching pains, weak-  
ened taste and digestion—constant  
desire for fluids—restless, altered heart  
action, sick in the morning and ejection  
of the mucus. The causes are over-  
taxing with food, impure blood,  
malaria, over supply of blood and  
swallowing the secretions from the  
nasal or throat Catarrh. The structure  
of the stomach becomes greatly altered.  
The constant over supply of blood leads  
at first to an increased constant secre-  
tion of gastric juice, and the gastric  
glands become exhausted, shrivelled  
and strangled. The blood vessels and  
nerves are seriously affected, thus all  
symptoms of hunger, the powers of  
digestion are lost. PSYCHIC is for  
sale by all dealers.

## THE IMPRESS BRAND

Ottawa Citizen: There should be no  
hesitation among Canadian cheese  
makers to adopt the impressed brand  
upon their make of cheese, just as the  
New Zealand and Australian products  
are branded and thereby protected from  
fraud. The hall mark is the protec-  
tion of the genuine article and is not  
resorted to in the case of inferior prod-  
ucts except when fraud is contem-  
plated. Canada is to-day making  
cheese that is sought after by the  
British consumer and commands re-  
munerative prices. Self interest should  
induce makers to adopt some device to  
guard against unscrupulous men  
whether in Canada, the United States  
or elsewhere, who would seek to take  
advantage of the demand which they  
have created by selling as Canadian  
goods an inferior make of cheese. It  
is not easy to conceive of a good reason  
why factorymen selling on the Ottawa  
board should hesitate to adopt the  
simple yet sufficient protection of their  
product which would be afforded by the  
impressed brand. Every business and  
selfish instinct cries out for the adop-  
tion of this device. It means dollars  
in the pockets of the farmers and  
factorymen. The general suspicion  
which has been aroused against  
American products furnishes additional  
reason for Canadians protecting their  
trade.

## Americanizing Our Immigrants

"Only the women who have been in  
contact with our would-be citizens,"  
writes Miss Elizabeth Howard West-  
wood concerning foreign women im-  
migrants in the New Idea Woman's  
Magazine, for August, "understand the  
wide gulf between having a home,  
working, even playing in America, and  
being an American woman. For our  
future citizens settle, not as single  
pioneers, but in battalions. Once a  
pioneer has reported favorably of the  
opportunities of a district, a European  
village emigrates en masse," and set-  
tling together, bringing customs, priests  
teachers, textbooks, with them, bid  
fair to shut out everything American  
but American wages.

"It is all very well for us," the  
writer continues "to throw wide the  
gates of Castle Garden and to allow the  
down-trodden and unfortunate of  
Europe to swarm in thousands by the  
day, a million by the year. But it  
then becomes our duty, more for our  
sakes, even, than for theirs, to see to it  
that they become citizens in reality as  
well as in name." It appears that the  
public school, the vacation school, the  
various kinds are doing much toward  
assimilating the diverse elements of the  
country, but concerning the grown  
women immigrants there seems to be  
little hope. "It is an unfortunate,  
pathetic fact," says Miss Westwood  
that a large proportion of our would-be  
citizens who come as grown women  
never learn to speak our language and  
until they die are strangers in a foreign  
land."

## Magnificent Cars on Grand Trunk

The Tourist Traffic over the Grand  
Trunk Railway System to the "High-  
lands of Ontario" is larger than in any  
other part of Canada, and each year  
for several years past the Company  
have been improving the road-bed,  
relaying the tracks with 80 pound rails,  
and augmenting their equipment with  
modern and luxurious coaches, dining

cars and parlor cars, until their present  
trains are among the finest on the  
continent. The latest additions placed  
on this division of the line are the  
series of Buffet-Parlor cars, built  
specially in the Montreal shops for this  
traffic. They are models of elegance,  
both in their exterior and interior finish.  
Eighty-one feet long, they contain a  
parlor with seating capacity of 29  
passengers, a smoking room with seats  
for seven people, and in addition an  
exceptionally large buffet is provided  
for serving meals in the parlor section  
of the car.

The inside finish is carried out in a  
handsome design of mahogany with  
antique bronze trimmings while the  
upholstery is done with green star  
plush and the ceiling of the car painted  
green with gold ornamentation. The  
result achieved being a happy blend-  
ing of color and a pleasing harmony  
throughout. The lighting features are  
combinations for gas and electricity.  
Handsome Wilton carpets of choice  
design cover the parlor and ladies'  
dressing room, and rubber-tiling the  
smoking room, buffet and passages.  
The cars are equipped with six wheeled  
trucks Westinghouse high speed brakes,  
air signals, and other modern appliances.  
They are the standard Grand Trunk  
color (bottle green) and weigh 116,300  
lbs. each.

## Voters' List Court

A court to decide appeals from the  
Athens Court of Revision was opened  
on Tuesday evening by His Honor  
Judge Reynolds. Mr. T. R. Beale  
appeared for the appellant and Mr. W.  
A. Lewis was counsel for the corpora-  
tion.

Each piece of property was taken up  
separately and its actual market value  
determined as near as possible by the  
evidence of the owner and in some cases  
by witnesses.

Very few transactions in real estate  
on the portion of Main street covered  
by the appeals have taken place recent-  
ly, and the value was therefore largely  
a matter of estimation. It was gener-  
ally agreed that the frontage value of  
land lying between Elgin and Victoria  
on Main street was from \$15 to \$20  
per foot, but when it came to the total  
value of each parcel there was an  
element of uncertainty projected into  
the matter that should secure to the  
assessor the sympathy of the whole  
community. Things are not always  
just what they seem, even in real estate  
values, and the unequivocal testimony  
given by the property owners should  
serve as a valuable criterion to the  
assessor of 1907. His Honor intimat-  
ed that the opinion, expressed in  
evidence, of those who had not thor-  
oughly acquainted themselves with the  
character of the property they were  
appraising were of little value.

At ten o'clock the court adjourned  
until this morning when the remaining  
cases were heard, this part of the work  
being finished shortly before noon.  
His Honor dismissed the appeals  
against all residential property, and is  
this afternoon engaged in making such  
equalization in the Main Street prop-  
erty as may be found necessary.

## Seltzer Water.

Seltzer water derives its name from  
the village of Lower Selters, in Nas-  
sau, where several springs, united in  
one basin, yield 5,000 cubic feet an  
hour of this sparkling mineral water.

## Wild Geese.

While wild geese are on the wing  
they are talkative and noisy, but when  
they alight to feed, as they do gener-  
ally at night, they are so quiet that one  
may pass within a few yards of 100  
of them and never notice their pres-  
ence.

## Weather Records.

The first weather record kept in  
America was that by Rev. John Cham-  
plain, at Wilmington, Del., in 1644.

## Grape Treadders.

Grape treadders in Portugal, who  
tread out the juice with their bare  
feet, get 50 cents a day, a high rate,  
as they claim the juice is apt to make  
the feet sore.

## A Plant Barometer.

In tropical countries the dried pal-  
metto leaf is considered an excellent  
barometer. When it breaks with a  
sharp crack or report the weather will  
be fair; when it bends without break-  
ing rain is certain within a few hours.

## The Era of Constantinople.

The era of Constantinople, extensive-  
ly adopted in the Greek empire, like  
several others, began with the founda-  
tion of the world, which is fixed at B.  
C. 5508. This era was generally fol-  
lowed by the adherents of the Greek  
church and prevailed in Russia until  
the reign of Peter the Great.

## Table Cutlery.

The first table cutlery made in the  
United States was in Greenfield, Mass.,  
in 1834.

## Mating an Orange.

The simplest of many ways of eat-  
ing an orange is to cut a deep slice  
from the top and scoop out the juice  
and pulp with a spoon.

## Unwholesome Vegetables.

Persons should be cautious about try-  
ing new and unknown vegetables.  
Even many known are at times un-  
wholesome. Potatoes when not fully  
ripe are deleterious, causing bowel  
complaint and sickness.

## ONLY DOUBTERS SUFFER

OXYDONOR compels the body to ab-  
sorb quantities of oxygen from the  
air, thus making disease impossible.  
Disease is forced out by the regenerat-  
ing, vitalizing power of oxygen. Oxy-  
donor causes the body to be cured and  
re-invigorated just as sunlight and pure  
air revives the drooping plant and  
makes it grow. It converts to the suffer-
