Great Britain And China Agree to Remain in Pekin.

The Japanese Will Also Stay With Them-Chinese Daplicity.

London, Sept. 11—A special despatch from Berlin says Great Britain and Ger-many have agreed not to evacuate Pekin until further satisfaction for recent out-

rages has been obtained.

Lord Salisbury will return to London Lord Salisbury will return to London Friday, when some fresh development in the Chinese situation is expected. Beyond Japan's reply, showing her intention to continue to occupy Pekin, there is little to throw further light. From Shanghai comes a report that Li-Hung-Chang has despatched an urgent telegram to the Empress Dowager at Tai-Yuen-Fu annuncing the purpose of the allies to advance to Pao-Ting-Fu, and perhaps even further. The Tien Tsin correspondent of the Daily Mail saserts that everybody in Pekin is living on bully beef and hard tack.

The Secretary of the State for India, Lord Geo. Hamilton, has received the following despatch from Gen. Gazelle, dated Pekin, Sept. 2:—"We have occupied the railway junction at Fung-Tai, also the road

Dr. Morrison, the Pekin correspondent of the Times, wiring Aug. 31, confirms the reports of the treachery of the Chinese Government and the insurances of imperial Government and the insurances of imperial decrees ordering the extermination of foreigners. "The imperial troops," he says, "mined the British legation, and probably in another day there would have been a terrible explosion. A similar mine made by the Chinese imperial troops exploded in the Pei-Tang Cathedral and engulfed 200 native Christians.'s

A later message urges Earl Li to endeavor earnestly to bring the powers to agree to evacuate, since, if Russia is obliged to reconsider her decision a loss of prestige is inevitable. London, Sept. 11.—The Boers seem to have been ashamed of their hasty retreat from Lydenberg, their latest stronghold, for, according to the Mail's correspondent at Maritzburg, they returned after the town was occupied by the British and shelled the place from a neighboring height. There is no trustworthy indication as to the where.

Consul Stowe to Pretoria, and which was wrecked by Boers under Commandant Theron. In a recent letter to relatives he says that when within twenty miles of Kroonstadt the train was held up by Boers. The time was 1 o'clock in the morning, while all were asleep. The Boer method was to run the engine in on a siding, throw the switch over and upset two cars, outspoken views on the subject. Several times since the school episode he has been complained against for selling liquor during prohibited hours and yesterday morning he paid another fine for the same offense. He thus effectually stopping the train, then fire on every truck containing men. As the private car was sup-posed to carry a British General and his staff it suffered most, and was riddled with bullets. Col. Biggar was in a middle compartment with Lord Len-nox, military secretary to Sir Alfred Milner, and Dr. Wilson, and thinks he may have owed his escape from injury to the fact of his putting out the lamp in his compartment while the other members of the party burned theirs The Boer commander told them afterwards that his men had used the lights as targets. Several shots passed close to Col. Biggar, but he escaped uninjured.

Even after discovering that the car flew the Stars and Stripes the enemy searched it for firearms but released the occupants, pushed the car on a siding and then burned the rest of the train and took all the escort of troops prisoners. (They were afterwards re-

WOMEN WHO WEAR WELL.

It is astonishing how great a change few years of married life will make in the appearance of many women. The freshness, the charm, the brilliance vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ig-norance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage. Many neglect to deal with the unpleasant drains which are often consequent on marriage and motherhood, not understanding that this research drain is relative that the cheat this secret drain is robbing the cheek of its frshipss and the form of its fairness. As surely as the general health suffers when there is derange-ment of the health of the delicate. womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in renewed comeliness. A LELIGHTFUL EVENING. The band concert excursion to Port ambton last evening proved delight ful. There were between two and three hundred on the excursion, about fifty of them being from Chatham. The run to Port Lambton was made in good time and the hour and three-quarters spent there proved very pleasant. The bright moon assisted in lighting up the dancing platform and a new feature was presented when mu sic and a caller-off were furnished for a square dance. A half-dozen sets were quickly made up and the quadrille was enjoyed by all participating, while Gen. Agent Tillson and Detective Skirving looked on with approving eyes. proving eyes.
