Around Town.

BIG FISH—Robt. King and Samuel Ackles of the Enterprise Foundry, did some big fishing on Tuesday last, they captured a trout weighing 3½ lbs.

STONE.—The N. Y. Co. shipped 8 cars to Toronto this week. Owing to an accident to the main engine which will cost the company upwards of \$1,000 to make good, the quarries have been closed and about 60 men thrown out of employment.

SCOTT ACT.—The case against Alfred Polley of Port Elgin and Ellen Nollis of same place came up before Stipendiary O'hill on Tuesday last. The witnesses summoned in the case failing to appear, the cases were adjourned until Tuesday next.

UPPER P. DE BUTE.—The members of the W. M. A. Society of the Upper P. de Bute Baptist church, will hold their annual meeting on Sunday evening next at 7 o'clock p. m. A varied and interesting programme of musical and literary numbers has been provided; all interested are invited to attend.

CHOP PROSPECTS.—At present everything points to a bountiful harvest this year. The grass, grain and root crops are far above the average of other years, and the fruit trees are promising a very large crop. So far insects have been moderately scarce and the recent heavy rains have done much good to all crops.

LOCAL APPOINTMENTS.—Mr. H. R. Fawcett has been appointed Collector of Rates for the parish of Sackville, vice William Ayer, deceased.

THOS. WHEATON has been appointed Issuer of Marriage Licenses at Upper Sackville vice Elasha Tingler removed.

THE FISHERIES.—Gaspereau fishing was something of a failure in the Bay this spring. At St. John not more than half a catch was taken, and in this vicinity the same is reported. Shad are coming in in fair numbers. A large lot, salted and smoked have been sent to town principally from below Rockport. A few are being taken at Wood Point. Reports from the lobster fisheries are not encouraging. Catches are small both in quantity and quality.

CAREY MEMORIAL SERVICE.—A mass missionary meeting will be held this evening, at 7.30, in the Sackville Baptist Church, to commemorate the founding of modern missions by William Carey, one hundred years ago. A number of Baptist ministers are expected to address the meeting on different phases of the missionary enterprise. A collection in aid of the Carey Memorial Fund will be taken up. A crowded house and a most interesting service are anticipated.

Local Matters.

William Blackney, of Steeves Settlement, was drowned last Sunday, while bathing in Victoria Pond, Moncton.

Weir & Morrison's foundry at Stelerton, was burned last week. This is the second time these works have been destroyed.

Messrs. Baird & Schurman, who have for some time past been running the Southampton woolen mills, have now made arrangements to purchase that property. The building is to be shortly enlarged.

James McMaster, employed on the water works at Amherst, was severely crushed last week by about a ton of earth falling upon him by the caving in of the ditch in which he was working. One of his knees was badly injured.

David J. Taylor, late town clerk of Parrsboro, was found guilty of embezzling funds belonging to the town on Friday. In delivering judgment, Judge Morse said it was a clear case of embezzlement, and in consequence of the accused man's previous good conduct he would make the sentence as light as possible. He got 24 hours in Amherst jail.

Among the provincial appointments gazetted this week are: William J. Robinson and Joshua Peters to be Members of the Board of School Trustees for the city of Moncton, in room of William J. Robinson and Henry J. Whitney, who in terms of office have expired. William J. Robinson, Esquire, to be Chairman of said Board.

Mrs. J. R. Cowans, wife of the general manager of the Cumberland Railway and Coal Co. died Sunday at the residence of her mother, Mrs. Heath, Brookville, N. S. Mrs. Cowans, who was a most estimable lady, had been in poor health for some time past. She was quite young having only been married three or four years. She will be deeply regretted by a large circle of friends.

Says the HERALD: Port Greville, in Cumberland, is a very busy and enterprising little village which has added a large share to the ship building industry of the province, and her ship yards at present show no decrease in activity. In April H. Elderkin & Co. turned off a handsome tern schooner of 250 tons register, and they now have on the stocks a two masted schooner of 75 feet keel. This vessel will probably be launched about the first of August, and then a keel of 150 feet long will be laid for a barquentine. Capt. George E. Peters has almost completed a tern schooner with a keel of 130 feet. In the yard adjoining Capt. George E. Peters is building another large tern schooner. All three of these vessels will probably be launched before August next.

Over Joggins Bay.

Work at the mines has been very active for two or three weeks past. Orders have been received for the coming year and business promises to be brisker than ever.

The Ray of Fandy Coal Co. owning mines at River Hebert and Macoun, formerly owned by the C. E. Milner, has a large lot, salted and smoked have been sent to town principally from below Rockport. A few are being taken at Wood Point. Reports from the lobster fisheries are not encouraging. Catches are small both in quantity and quality.

MISS THOMPSON, a diplomat of the Good Luck, dropped on Friday last. Mr. Jas. Johnson of the same place has also a promising filly by the same horse.

The records of two fine dairy cows have been reported to the Post this week. Mr. Robert Bell has a grade Guernsey, which made in 7 days this spring 10 lbs. of butter, besides supplying the family needs with milk, cream etc. She dropped her last calf in March.

Herbert Bell, Middle Sackville, has a grade Jersey heifer, 2 year old, that has started out early as a butter producer. Her record this spring has been 35 pounds of milk per day and 11 pounds of butter per 7 days. Who can beat these records?

Mr. James R. Costin, Brile Verte, Stephen, a pretty and well bred Jersey heifer, Beauty, by Mercury of St. Lambert. She was dropped April 10th, '91 and has all the points of a good milker.

MR. ALLISON.—Two weddings of interest to Mt. Allison students took place last week. On Wednesday, Hon. Albert Scott White, B. A. 73, LL B. 77 (Harvard) M. A. '92, Speaker of the House of Assembly was married to Miss Vaughan of St. Martins. On the same day Miss Jennie Butler of the class of '91 was married at her home St. John to Mr. Frank Merritt. Miss Nellie Palmer, of Dorchester was the wife of the bride.

The friends of Dr. Wm. Seaman '89, will be pleased to hear of his success in Philadelphia. Dr. Seaman took high rank in graduating from the University of Pennsylvania and was then awarded the position of resident physician at the city hospital, where he has just been appointed to a similar position in Blocton Hospital Phila., one of the largest in America, averaging 3,000 patients. Considering the large number of applicants and influence, usually successful, which Dr. Seaman had not his success is most creditable to him.

A MEMOIR OF Dr. Botsford has been written by his niece, Miss Murray, and published by McMillan, St. John. While much to interest the public can be said about one who, during his life was occupied in the pursuits of a private gentleman, and was in no sense a public man, still Miss Murray has produced a graceful and readable book, about one in whose life and character there was so much to love and admire. Dr. Botsford's instincts were all on the right side, he lived a useful and happy existence and the city in which he made his home is much the better for his influence and example.

We regret that Miss Murray touched so lightly the founder of the Bond. I family here—Speaker Botsford, who agent of the loyalists was most intimately connected with the early settlement of the country, and who discharged the duties of a most arduous as well as delicate character in such a way as to win the hearty and unanimous approval of the people. The materials exist for a proper biography of Amos Botsford, which will no doubt appear when the history of this community is committed to print.

Local Matters.

The Band will play at Lower Sackville on Saturday evening.

CATTLE.—Two cars of cattle were shipped to St. John this week by Messrs. McGrath and Landers.

FISH TRUCK.—Messrs. C. Pickard and Capt. Chas. Moore took some of the finest trout of the season on Thursday last. The heaviest weighed the scales at three pounds and the three heaviest at 7½.

I. O. O. F.—Mr. Chappell Phinney of Court Tarranar 803, recently received a check for \$86 from the Supreme Court as a stock benefit. This is the second payment Mr. Phinney has received, making in all nearly \$100.

R. C. Picnic.—Posters are out around Sackville announcing the many attractions to be seen at the Mammoth Picnic to be held at Amherst on Tuesday next. If the program is carried out and there is no doubt it will, there will be lots of fun for young and old. No doubt the picnic will be largely attended. See Adv.

SURPRISE.—Bgt. Herbert Robinson, sailed from Barbados about the 1st inst. for Sackville with a cargo of sugar and rum.

Bq. Hiram's sailed from Boston on the 10th for Baie Verte.

Capt. Wm. Ezan has laid the keel of a 100 ton schooner at the landing. She will be 81 feet long 8½ depth and 24 feet in beam.

Around Town.

150TH ANNIVERSARY.—The Dixon Family propose to celebrate the 150th anniversary of the settlement of their ancestors, Charles Dixon, at Sackville, by holding a picnic on some part of the old farm on July 8th. The Historical Society, of which Judge Morse is President, is invited to hold its annual meeting at the same time and place. Further particulars will be given next week.

BAPTISM.—Six young persons were baptized at Middle Sackville on Sunday morning last by Rev. W. H. Warren. The day was bright and warm, and the scenery beautiful, and the baptismal service impressive. A large gathering of people witnessed the ordinance and attended the morning service. There seems to be a steady increase in the membership of the church. Twenty-seven have received the hand of fellowship since the present pastor was inducted into office, twenty having been baptized and seven received by letter from other churches. Further accessions are expected at an early date.

STRUCK BY LIGHTNING.—During the storm of Tuesday evening the residence of Frank Rayworth, Upper Cape, was struck by lightning. Miss Annie Rayworth who was alone in the house was rendered insensible by the shock and upon regaining consciousness found thorough flames. These she extinguished but later found the whole upper story on fire. Assistance was summoned but too late to save the house, which was entirely destroyed together with nearly all the furniture. Mr. Rayworth's loss will be about \$2,000. No insurance. Mr. William Rayworth was badly cut by glass in endeavoring to save the building.

MISS PALMER.—The oldest daughter of the late Mr. Palmer, died on Sunday in town.

The Misses Palmer, daughters of Hanford Palmer Esq., left on Tuesday for a month's visit to Boston.

Prof. Gooden, of Kingston University, passed through town yesterday to visit his home at Baie Verte.

Senator Botsford is regaining health gradually. Drs. Trautman and Mitchell are in consultation on Saturday and pronounced his condition favorable to rapid recovery.

STOCK NOTES.—Mr. Hazen Copp, Port Elgin, was a fine filly by Thos. Wood's Good Luck, dropped on Friday last. Mr. Jas. Johnson of the same place has also a promising filly by the same horse.

Some of Kelly Bros. mill men went into the Bay of Fundy last night the 4th inst got some whiskey brought it home and succeeded in getting some of the men drunk. One poor fellow fell into a cellar and hurt himself so bad that it is doubtful if he recovers.

The whale is still lying on the shore at the Finger Board, and attracting visitors occasionally. Some sharks come in at high water to get a bite.

A number of Methodist Ministers and hymen held their annual District meeting here on Tuesday and Wednesday last week.

We have had some frosts lately, but it is thought they would not do us much harm to the potato crop, but that are up. We had a very fine rain Monday night, with thunder and lightning which lasted nearly all night, and did much good to the crops, besides laying the dust.

Young Bros. are loading the "Amie Harper" with laths for Boston, and several vessels are carrying deals to St. John, and Westport, shipping by Young Bros. Kelly Bros. Christie's, Alex. Landels and others.

Deal shipping out of the river is booming, schooners being about daily, with deals to West Bay and Parrsboro.

MORRISON and BROTHERS RY. trains do not carry passengers, and they stop on the East side of the Baie Verte River, one of the charterers of the bridge having dropped 4 feet. No orders have yet come from the owners of the Ry. at Philadelphia to repair the bridge.

Mr. R. G. Leckie, manager of the Londonderry Iron Mines, tells a St. John N. B. Telegram reporter that the mines are running night and day, and that the produce had ready sale in Canada. About 100 tons of ore per day are being got out. For this traffic the company has had fifty cars built, this spring in Messrs. Harris and Co's. works.

Westmorland Point.

One of the most severe electric storms that ever visited us passed over on the night of the 18th inst. The storm was accompanied by the almost continual flash of the most vivid lightning, and incessant fall of loud thunder, together with rain that fell in torrents, and showers of hail which was feared would break the glass in the windows. We will doubtless hear of serious damage being done.

A quiet wedding took place at the residence of Mr. Rupert Etter, on the evening of the 14th, when his eldest daughter, Arabella was married to Mr. William Bent of Little River, N. S. The ceremony was performed by the Rev. D. M. Bliss in presence of upwards of seventy guests. The large number of costly and useful presents attested very plainly to the high estimation in which the young lady was held. Although the parties have both resided considerably in Uncle Sam's dominion, yet they have chosen this country as most suited to their tastes, where they intend making their home having purchased the desirable farm property formerly owned by Samuel Sharp Esq. in Point de Bute. We wish them all of great happiness and prosperity.

In the death of Mrs. Suddall Lowrie, which occurred on the 8th, our community loses one of its most favorably known members. Her sickness which was of a very protracted and painful character, was borne with the greatest Christian patience, and a well grounded hope sustained her through all her sufferings. Her funeral service was conducted under the rites of the Episcopal Church of which she had long been a worthy member, and the large number that attended her last ceremonies showed the genuine respect that her virtues had won.

The friends of the Rev. D. C. Lawson will learn with regret that he is in very poor health, and not able to travel in order to fill his regular appointments. We know of few that have laboured more abundantly during their ministry than he, or who have a brighter prospect for the recompense of their reward.

Upper Sackville.

On the 21st of April last a number of Sackville teachers met at the Stone College, for the purpose of talking over the advisability of forming a local Teachers Association. An Association was formed, and the following officers elected: President, Mr. W. Macdonald, Vice-Pres. Miss Eliza Doherty, Secretary, Geo. J. Trueman, Treasurer, Miss Phinney.

The society is not confining its work strictly to the discussion of school methods, etc., but devotes from one half to one third of the time upon some literary or scientific work, at present studying Shakespeare's play, "Hamlet." The meetings are held, beginning at 7.30 local time, on the first and third Monday of each month. Two meetings are held in the College, and the third in U. P. S. Sackville. The next two will be in the College, and the members will be very pleased to see any who are interested in the cause of education in connection with our common schools in attendance. All teachers whether engaged in the active work or not, are especially welcome.

Friday night Prof. Andrews delivered his lecture in Upper Sackville as announced in last week's Post. A large number were in attendance but hardly as many of the older people as would be expected in a place like Upper Sackville. On account of the youthfulness of the audience the Professor did not take up his regular lecture, but made the most of his remarks in connection with his stereopticon views. The audience was shown something of the wonderful life that formerly inhabited this globe, the colossal giants that marched up and down upon our planet etc.

Some in attendance (and they can hardly be blamed) seemed more inquisitive as to what the Professor considered the "vivid imagination" of the lecturer, enabling him to think up such big stories on so short a notice.

The lecture of the course will probably be given by H. A. Powell, M. P. P., on the history of Agriculture.
