Remember, it's J. Douglas Hazen, not J. D. Hazen.

The water wagon is never so crowded as it is in Lent.

It is hard to run across a man now who isn't going to Quebec next summer.

We don't mind very much so long as George W. Fowler isn't the power behind the throne.

When a man gives up anything in Lent, it's drinking or smoking, when a woman gives up anything it's chocolate.

'An unprecedented rush of immigration is expected,' headline in Toronto Globe. Why not keep that head standing?

Former Moncton detectives assaulted a man on the street. Which shows you what a policeman will do when he is not a policeman.

A Dr. Wendel declares that men are more beautiful than women. The learned doctor must have spent a good deal of his time in Boston, Mass.

Chicago marriage license bureau reports that all the leap year records were beaten last month. It seems that when the Chicago girls want husbands they come right out, flat-footed.

Now it is rumored that the little Jap is after John Chinaman. There has been a belief that the pugnacious little fellow would be in somebody's hair, and this may be the real reason to the situation.

'All the gubernatorial candidates strongly favor prohibition,' says a headline in the Charlotte (N. C.) News. It is thought the great majority of the land keep that headline stereotyped.—Washington Herald.

Gen. Woodford is right. New York is a doubtful state. With the intense unpopularity of the Roosevelt administration in this city, a united, greedy and powerful Tammany, the discontented vote swollen to great proportions, the difficulty of financing a Republican campaign—with all these things taken into account, it is folly to deny that a greater majority for Bryan may be rolled up in Greater New York. Political managers may as well face the situation.—New York Evening Post.

Ask Your Own Doctor

If he tells you to take Ayer's Cherry Pectoral for your severe cough or bronchial trouble, then take it. If he has anything better, then take that. We have great confidence in this medicine. So will you, when you once know it.

John Hopkins

Curers and Packers,
St. John, N. B.
ed over 40 Years.
John 15—A. M. S.

Dist. Attorney Jerome, with a large force of assistants and stenographers, is engaged in preparing an answer to the charges filed against him by the Metropolitan stock holders, and it is said that the task will occupy all the week. No short, ugly word will surface in this case.

Many newspapers repeat the statement that Judge Killam's death is a national loss. It is a pity these things are not said during a man's lifetime. Judge Killam devoted his great talent and power of work to a public service, that is of estimable value, yet he got a great deal more blame than praise.—Toronto Globe.

A whiskey club has been started at Waynesfield, England, which already numbers fifteen members. Meetings will be held at which whiskeys will be measured and experiences exchanged. A prize will be given after the first year to the young man who grows the longest and handsomest whiskers. Great. Look out for the wart sores and the chills in conversation.

Professor Starr, of the University of Chicago, has started for the Far East looking for the Lolos, a little known cannibal tribe. Of course, the professor is taking some chances, but he will escape the campaign, voice of the spellbinder, slaughter of favorite sons, boost in the price of oil, more trades by 'me and my people' and various other horrors.—New York Evening Telegram.

Think of sharpshooters striking silently, surely, without giving the slightest evidence of their hiding places.—New Haven Register. Oh, I'll never do. Fancy going forth on the hunt and killing a bear or a bobcat with no loud shouts, no yelling dogs, no perspiring guides, no popping rifles, no smell of powder, with no more soul-stirring riot than would attend the crushing of a cockroach. What's this use.

PRESIDENTIAL POSSIBILITIES

In the latest budget of 'Presidential Possibilities' the name of Judge Gray, of Delaware, appears to loom large on the Democratic horizon. He has been endorsed by a recommendation that he has reconciled capital and labor in the bitter industrial wars of modern times. Noteworthy among these recommendations is that accomplished by the Anthracite Strike Commission, of which he was chairman. It is further stated that no peacemaker in the whole range of American history ranks with this man in the service which he has rendered to his country, and that to his initiative and force must be attributed the reform of the child-labor laws in the state of Pennsylvania, and, in a large measure, the success of the child-labor movement throughout the country. Judge George Gray has had experience as Attorney-General of his state, as United States senator, as representative of his country on the Peace Commission of 1898, the Joint High Commission and the Hague Court. Against him it is urged that he belonged to the 'Gold Wing' of his party some twelve years ago, and that his state has but three electoral votes. Meantime the figure of one William Jennings Bryan continues to overshadow all others so far as the 'possibilities' from the Democratic side are concerned, and there are many of the best posted politicians on both sides of the fence who admit that he has a first class fighting chance so far as any man as yet has offered on the Republican side shapes in the arena. All over the country conventions are being called by the Democrats, and as far as at present appears the entire Central, Southern and Western States will go solid for Bryan. Taft and Hughes appear to have the running to make for the Republican nomination, and of these two Taft appears to be gaining ground. The Hughes boom has so far been confined to the far east, and gives few signs of getting to serious proportions outside of that section.

LA GRIPPE COMING AGAIN
Europe is now in its grasp, and in a short time America will be overrun by the grippe. Get ready, and use preventive measures. Build up a surplus of vigor by Ferrozene, and inhale Catarrhoxone three times each day. Nothing destroys the grippe germs like Catarrhoxone. It cures the cold, breaks up the fever, relieves the headache and destroys every vestige of catarrh and sore throat. For Bronchitis and colds in the throat, inhale Catarrhoxone in best. Sold by all dealers, 25 c. and \$1.00.

READFIELD, Thursday.—Postmaster George C. Hinton, aged 38, of this town is dead from a wound received by the accidental discharge of a rifle in the hands of his six-year-old son, Master Emory, tonight. The bullet hit Mr. Hinton directly between the eyes and it penetrated the brain. He is not expected to live a few hours.

About to Die Father.
Just Master Emory was about to obey a command from his father to lay the rifle down, the bullet was discharged. The bullet struck Mr. Hinton's head between the eyes. The man staggered and fell almost instantly. Dr. Milliken was at once summoned and after a hasty examination he found that the bullet had penetrated the brain. Word was sent to Augusta, for surgeons who at once started for here with all dispatch.

Postmaster Hinton was in his sitting room reading a paper tonight at 8.30 o'clock when the accident occurred. He was standing beneath the lamp when he noticed that his young son was playing with a 22-calibre rifle, the property of an older brother. At once Mr. Hinton told his small son to lay down the weapon. The boy started to obey and then the tragedy occurred.

Sank to the Floor.

For a moment the boy stood as if stunned when he saw his father fall and the bright red blood begin to flow from his forehead. Then with a shriek he ran to his father, beside him, crying as if his heart would break. The other members of the family, although for the moment paralyzed by the terrible occurrence, lost no time in sending for Dr. Milliken.

George C. Hinton was one of Readfield's most respected citizens. He was serving his second term as postmaster. Besides a wife he has two sons.

Postmaster Lane of Augusta has been notified to send someone to take charge of the office here.

Mr. Hinton died at 12.50 a. m. It is expected that Henry W. Plummer of Augusta, the coroner, will hold an inquest tomorrow.

CLEVELAND, Ohio, Thursday.—One hundred and sixty-five lives, all but two of them children between the ages of six and fifteen, are known to have been lost in the fire which yesterday destroyed the public school in North Collingwood, ten miles east of this city. Several others are still missing and their bodies may possibly be found in a day. It probably will be several days before the exact number of dead is accurately determined.

Majority Identified.
Of the bodies recovered one hundred and eighty have been identified. The remaining bodies are so blackened by fire and smoke, so battered and bruised by trampling feet, that it is only by means of some unburned article of wearing apparel that their names can be ascertained.

Miss Anna Moran, the principal of the school, denies that the doors opened inward and insists that they were never locked during school hours. She said, "With doors open I and I suppose other teachers, thought it was a regular fire drill. Every child in the school has gone over and over again from the second floor in the space of less than one minute and thirty seconds. You can judge from that how quickly we reached the first floor. When we reached the front door we found the doors open up to the basement. Stairs and without knowing it we led the little children into the very face of the fire. Only one of the double doors was open. The other was closed by a spring at the top. Before the janitor got it open the children had wedged themselves into the vestibule and the others in a panic stumbled and climbed over them. It was frightful, so near to safety."

TO STOP A CRYING BABY.

It may be cramps, perhaps colic, pain or gas on the stomach, but in any case a few drops of Nerviline soothe the pain and allow the child to sleep peacefully. Nerviline cures minor ills such as colds, headache, internal and external pains, as well as any doctor, safe to use because a small dose is required. Mothers, you will find Nerviline an invaluable aid in preventing and curing sickness. Keep a little right at hand, some you will need it badly. Sold everywhere at 25c.

AMHERST, Thursday.—A bad rear end collision occurred on the I. C. R. between Louisville freight specials at Salt Springs Station, N. S., about 11 o'clock this morning. It appears that Barker's east-bound special was doing some shunting and was about through and backing in on a siding from the east. The electric semaphores were in danger, when McDonough's east-bound special with driver Hennessy at the throttle came in at a high rate of speed and cut Barker's train about five cars from the rear in three seconds. Barker's special was badly wrecked.

Five Cars Smashed.
Five cars were badly smashed, loaded with freight. The injured men were taken by special train with all possible speed to the hospital at Springfield. The line is blocked. The local train and the O. P. R. express are behind the wreck. An auxiliary car has left Truro for the scene of the accident. The line will be cleared in a few hours. Facts as to how the accident occurred cannot be had yet on account of conflicting reports. One of the injured men whose name is not known is not expected to live.

LA GRIPPE COMING AGAIN
Europe is now in its grasp, and in a short time America will be overrun by the grippe. Get ready, and use preventive measures. Build up a surplus of vigor by Ferrozene, and inhale Catarrhoxone three times each day. Nothing destroys the grippe germs like Catarrhoxone. It cures the cold, breaks up the fever, relieves the headache and destroys every vestige of catarrh and sore throat. For Bronchitis and colds in the throat, inhale Catarrhoxone in best. George C. Hinton was one of Readfield's most respected citizens. He was serving his second term as postmaster. Besides a wife he has two sons.

Postmaster Lane of Augusta has been notified to send someone to take charge of the office here.

Mr. Hinton died at 12.50 a. m. It is expected that Henry W. Plummer of Augusta, the coroner, will hold an inquest tomorrow.

WINNIPEG, Man., Thursday.—Quietly, steadily, and systematically as great bodies move, the Grand Trunk Pacific west of Winnipeg, and the transcontinental line, east, are making elaborate preparations for opening and especially from Fort William to Edmonton are these preparations in evidence. Throughout the extreme extent of thousands of men are working with unfailing energy to make possible the movement of grain to the head of the lakes at the earliest possible date. In the vicinity of Winnipeg the activity is most marked and preparations are being made for a summer's work on a scale that is most extensive. In the great yards by St. Boniface, enclosed by a high fence, two miles in length and several hundred yards in width, twenty or thirty miles of track have been laid.

East of St. Boniface, track layers have reached Rennie, where a large force of men is engaged in constructing an overhead bridge across the main line of the C. P. R. Six miles west of Winnipeg where the temporary yards and shops will be situated, several miles of track are laid and work on the shops will be commenced shortly. The line will be completed from Fort Winnipeg by June 1, which will give a clear track through to Saskatchewan.

While the company has not yet brought any passenger equipment from the east already there are some 32 engines and 6000 box and flat cars on the western line. These will be greatly supplemented before September when the harvesting operations begin.

At Rivers, the first divisional point on the line west of Winnipeg there has been a brisk demand for lots and the nucleus of a goodly sized town is now in sight. Some twenty buildings consisting of stores and dwellings are in course of erection. The land commissioner of the company will be west in about a week or ten days, when preparations will be made for placing from sixty to one hundred townships on the market.

WINNIPEG, Thursday.—A great extension of the Government telephone system this year is contemplated, and the department expects that at least a thousand men will be required to complete the work.

SHE IS WHITE AS A GHOST

Is it a matter of pride to be pale as a lily—certainly not. What every woman wants is strength, color, vigor, buoyancy and health are the right of every woman, and these she need not lack if she uses Ferrozene. It gives appetite, creates strength, enriches the blood, gives vigor to the nerves, color to the cheeks and brightness to the eyes. Ferrozene is at once convertible into health, beauty and strength. There is power in Ferrozene—try it, and you will know what you have missed, 50c at all dealers.

JUNEAU, Alaska, Thursday.—Two Stetson miners, one union and the other non-union, died yesterday and the burial of one almost precipitated a riot in which the police were called on to restore order. The union man was buried peacefully, but when the priest in charge of the funeral services attempted to say Mass for the non-union man, he found the church door locked. A mob of 200 union men requested the priest to refuse to bury the non-unionist. The priest declined to heed the demands of the Slavonians who refused to turn to permit the body of the man to be taken into the church. The disturbers attempted to stop the hearse by holding the horse's bridle and succeeded in dragging a number of the men from the procession. The marshal attempted to restore order, but for the time being he was powerless. The crowd followed the body to the cemetery and made another disturbance there. Order was finally restored and no one was injured.

LONDON, Thursday.—Nova Scotia's exhibit of apples at the Royal Horticultural show today was awarded the gold medal for the apples shown. They were in splendid condition though picked six months ago. Sir R. G. Gordon, premier baronet of Nova Scotia, is dead.

The Canadian Pacific and Allan Lines are specially arranging to deal with the large numbers of tourists extending to go to the Quebec Tercentenary.

GREAT DANGER IN HEADACHES.
It's often dangerous to cotton to head-aches a trifling ailment. If the head-aches, the stomach is out of order and some serious disease may be impending. To tone up the stomach, to give the healthy action, nothing in modern medicine is so successful as Dr. Hamilton's Pills. The concentrated vegetable extracts in Dr. Hamilton's Pills have a quieting effect on the stomach and remove all disorders. Your headache will be cured and they won't return if you use Dr. Hamilton's Pills. Sold everywhere.

MONTREAL, Thursday.—The only feature of the Dominion Coal Company's annual meeting here today was the election of Mr. Graham Fraser to the directorate, the former board being otherwise re-elected. Mr. James Ross occupied the chair. The business of the meeting was carried out without a word of discussion. Mr. Ross in explaining the position of the Coal Company in its litigation with the Dominion Steel Company, expressed his belief in the victory of the latter company. The Dominion Textile Company's Hoehegna operatives are still on strike and it is announced that they will accept of a settlement. Under the Industrial Disputes Act, efforts were made last night to bring about an agreement failed. The St. John operatives will meet on Saturday to discuss the question of a sympathetic strike.

HAVE YOU WARTS?

You can cure them painlessly by Putnam's Corn and Wart Extract. Never known to fail. Be sure you get Putnam's, in 25c bottles.

TORONTO, Thursday.—Detectives Wallace and Kennedy, with the assistance of the Canadian Detective Bureau, landed an important prisoner on Saturday, in the person of George S. Woods, alias George Barry, alias Woodward, aged 26 years, 46 Seaton street, on a charge of vagrancy.

He was overheard describing to a confederate the plans he had made for a raid on the branch of the Bank of British North America at the corner of Dundas and King streets, and if the suspicion of his identity is verified, he is wanted in many places in the States.

OTTAWA, Thursday.—Mr. Graham made his annual statement on the Intercolonial to the Commons today. After paying a compliment to the staff he pointed out that the canal business on the St. Lawrence was not as large as it might be. The traffic of the Soo had reached twelve million tons, two thirds its capacity. He was partly of the opinion that it might be better to lease the Colborne canal to a private company to see if it could operate it so that the country will get the whole benefit. Mr. Graham admitted that the government administration of these canals had not been highly satisfactory.

G. T. P. Making Progress.
The G. T. Pacific was making progress and was well under way from Winnipeg to Edmonton, while a good route had been found through Yellow Head Pass to Prince Rupert. On the 1806 miles of National Transcontinental from Moncton to Winnipeg there was 550 miles under contract. Practically the whole had been located and much had been graded. Mr. Graham said he hoped to do much more for transportation in Prince Rupert Island.

I. C. R. For Nine Months.
As regards the I. C. R. in nine months of the fiscal period in 1907 train and car miles had been reduced and freight tons had been increased. The road had paid for the period had shown a surplus of \$218,139. The receipts for the period were \$5,486,371 and the operating expenses were \$5,268,232. For twelve months ending with June 30th last, there had been a surplus of \$387,624. To the end of December the surplus had been \$179,624. The falling off had been due he said to bad weather and hard times in December. At the end of the fiscal year the surplus would probably be still less, Mr. Graham admitted.

No Politics in It.
The I. C. R. has 5291 employees. Mr. Graham denied that there was any politics in the management of the I. C. R., declaring that 43 per cent. of the employees were members of unions in whose hands the advancement of the men rested to a large extent. Mr. Graham had been asked why he tolerated unions on the Intercolonial. He thought the men had a right to organize for their own protection and advancement. Mr. Graham stated that a provident fund had improved relations between the management and the men and had enabled retiring of a number of faithful servants who had passed the age of effective service.

On English Basis.
Discussing the capital and revenue question Mr. Graham said that in England there was a rule that all for permanent betterment of roads was charged to capital, and all for maintenance charged to revenue. On this continent there had been no such rule. In good years they spent on improvement and in poor years they spent on dividends. An endeavor was being made to get the Intercolonial accounts on the English basis.

Tetter, Salt Rheum and Eczema.
These are diseases for which Chamberlain's Salve is especially valuable. It quickly allays the itching and smarting and soon effects a cure. Price, 25 cents. For sale by all druggists.

Dr. Cates, Dentist,

Will be at his Campbellton Office every day in the month excepting the 25th at Jacquet River, (if falling on Sunday the 26th)

Attention is called to the latest, best and most scientific preparation for the painless extraction of teeth. Also Porcelain Inlay Fillings, Porcelain plastic fillings, (enamel), Crown and Bridge work, regulating with perfect fitting and appearing artificial teeth. HELPFUL ADVICE

You won't tell your family doctor the whole story about your private illness—you are too modest. You need not be afraid to tell Mrs. Pinkham, at Lynn, Mass., the things you could not explain to the doctor. Your letter will be held in the strictest confidence. From her vast correspondence with sick women during the past thirty years she may have gained the very knowledge that will help your case. Such letters as the following, from grateful women, establish beyond a doubt the power of

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

to conquer all female diseases. Mrs. Frank Emsley, Lindsay, Ontario, writes to Mrs. Pinkham: "When I wrote to you some time ago, I was a very sick woman suffering from female troubles. I had inflammation of the female organs and could not stand or walk any distance. At last I was confined to my bed and the doctor said I would have to go through an operation, but this I refused to do. A friend advised Lydia E. Pinkham's Vegetable Compound. After using three bottles of it, I feel like a new woman. I most heartily recommend Lydia E. Pinkham's Vegetable Compound to all women who suffer with female troubles."

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, nervous prostration.
