#### THE BASIN OF AHE ATLANTIC.

THE BASIN OF AHE ATLANTIC. The basin of the Atlantic Ocean is a long trough, separating the Old World from the New, and extending probably from pole to pole. This ocean furrow was probably scored into the solid crust of our planet by the Almighty hand, that there the waters which he called seas might be gathered together so as to let the habitation of man. From the top of Chimborazo to the bottom of the Atlantic, in the deepest place yet reached by the plummet in the Northern Atlantic, the distance in a vertical line is nine miles. Could the waters of the Atlantic be drawn off so as to expose to view, this great scagash, which separates continents, and reaches from Arctic to Antarctic, it would present a scene the most rugged, grand aud nt a scene the most rugged, grand and imposing.

imposing. The very ribs of the solid earth, with the foundations of the sea, would be brought to sight, and we should have presented to us, at one view, in the empty cradle of the ocean, "a thousand fearful wreeks." with that dreadful array of dead men's skulls, great anchors, heaps of pearls and insetting heaters which in the of pearls and inestimable stones, which, in the poet's eye, lie scattered in the bottom of the sca, making it hideous with sights of ugly death. The deepest part of the North Atlantic is probably comoving the bottom of the Bornudas death. The deepest part of the North Atlantic is probably somewhere between the Bermudas and Grand Banks. The waters of the Gulf of Mexico are held in a basin about a mile deep in the deepest part. There is at the bottom of in the deepest part. There is at the bottom of the sea, between Cape Race in Newfoundland, and Cape Clear in Ireland a remarkable steppe, which is already known as the telegraphic plateau. A company is now engaged with the project of a submarine telegraph across the Atlantic. It is papposed to carry the wires along this plateau from the castern shores of Mewfoundland to the western shores of Ireland. The great-circle distance between these two shore lines is 1600 miles, and the sea along the route is probably nowhere more than 1000 feet deep.—*Professor Maury*.

AN UNNECESSARY EXPENSE.-Lord Lucan. in an UNNECESSARY EXPESSE.—Lord Lucan, in his evidence before Mr. Roebuck's Committee, says, "the cavalry horses under his command were not fit for a *charge*." If so, we should like to know why they formed an item in the army estimates.

PRECIOUS FREIGHT .- Last week there were in Principus Factour.—Last week there were in the Southampton Docks gold and silver to the amount of £600,000, which had arrived in the West India steamer Tyne and the Alexandrian steamer Euxine. Nearly 20 carriages were required to copyoy it to London. The principal portion of the specie was silver. About £8,000 worth of silver weighs a ton; each railway carriage conveys about four tons weight.

TENACITY OF LIFE IN A SHEEP. -- A COTTON pondent sends the following account of the extraordinary tenacity of life in a sheep, and certifies as to its correctness. He says: "Mr. Eli Fiske of Freedom, in the county of Waldo, had a sheep buried in the snow, during a heavy snow storm, on the 19th of January last. She was not discovered until February 13th, a period of 25 days, when Mr. Fisk accidentally found the sufferer by hearing the grating of her teeth. She was standing erect when found, the wool on her back frozen to the snow above her, readering it impossible for her to lie down. The snow drifted so hard that Mr. F.'s entire herd of cattle travelled over the sheep's back, for many days, without breaking through. The sheep is now alive and doing well."—Maine Farmer.

A Tour Fr. — A junior returned a pair of trouters to his tailor last week, because they were too small in the legs. "But you told me to make them as tight as your skin," said the tailor, "True," quoted the gent, "for I can sit down in my skin, but I'll be split if I can in these breeches!" The tailor caved in.—

"Sam," said one little urchin to another, " does your schoolmaster ever give you any rewards of merit ?" " I s'pose he does," was the rejoinder; " he gives me a lickin' every dry, and says I merits two."

## HOLLOWAY'S OINTMENT.

EXTRAORDINARY CURE OF ASTHMA !! OF AN OLD LADY SEVENTY FIVE YEARS

OF AGE. Copy of a Letter from Mr. Thomas Weston, (Book Store,) Toronto, dated the 9th October, 1854. To Professor Holloway,

To Professor Holloway, Sir,—Gratitude compels me to make known to you the extraordinary benefit an aged parent has derived from the use of your Pills. My mother was afflicted for upwards of four and twenty years with asthma and spitting of blood; it was quite agony to see her suffer and hear her cough; I have often declared, that I would give all I possessed to have her cared; but although I paid a large sam for medicine and advice, it was all to no purpose. About three months ago, I thought perhaps your Pills might benefit her; at all events I resolved to give them a trial, which I did; the result was marvellous: by slow degrees, my mother became better, and after persevering with your remedies for nine weeks, she was perfectly cured, and now enjoys the best of health, although seventy-five years old. I remain, Sir, Your obliged, THOWAS WFETYN

#### THOMAS WESTON. (Signed)

REMARKABLE CURE OF DROPSY. AFTER BEING TAPPED THREE TIMES.

Copy of a Letter form Anthony Smith, Es4 Halifax, Nova Scotin, dated the 25th August, 185 To Professor Holloway,

To Professor Holloway, Sir, --I desire to add my testimony to the value of your Pills, in cases of dropsy. For nine months I suffered the greatest torture with this distressing com-plaint; was tapped three times, and finally given up by the doctors; having become in appearance as a skeleton, and with no more strength in mp than a child just born. It was then, that I thought of trying your Pills, and immediately sent for a quantity, and commenced using them. The result I can searcely credit even now, although true it is. After using them for four weeks, I felt much better, and by persevering with them, at the expiration of two months, I was completely cured. I have since en-joyed the best of health. I am, Sir, Yours sincerely (Signed) ANTHONY SMITH.

ASTONISHING CURE OF GENERAL DEBILIET AND LIVER COMPLAINT !!

Copy of a Letter from William Reeves, of Charlottetown, Prince Edward Island, dated 17th Nov. 1854.

dated 17th Nov. 1854. To Professor Holloway, Sir,—I am happy to say, that your Pills have re-stored use to health after suffering for nine years from the most intense general debility and languar, my liver and bowels were also much deranged for the whole of that time. I tried many medicines, but they were of no good to me, antil I had recourse to year Pills, by taking which, and following the printed directions for seven weeks I was cured, after every other means failed to the astonishment of my neigh-bours, acquaiatances, and friends. I shall ever feel grateful to you for this setonishing restoration to other means failed to the astonishment of my neigh-bours, acquaintances, and friends. I shall ever feel grateful to you for this setonishing restoration to health, and will recommend your Pills to all sufferers, feeling it my date to do an feeling it my duty to do so. I remain. Sir.

in, Sir, your humble servant, ed) WILLIAM REEVES. (Signed)
