On the street from \$8 to \$6c has been paid.

Paus—Have been in active demand at firm prices PRODUCE.

Definemental inactivity has continued generally to rule in the market; with a considerable decline in the prices of flur and wheat. The cause of this state of things is to be found in the continued absence of wany demand for flour, and the downward tendency of prices in outside markets. Still, holders seem bublistic daunted; they refrain from pressing unlessivall cases, and in most instances estuse to make any considerable concession, in the full assurance of an early recovery. The market is certainly in a very uncertain position, from the 'fact that merrly all the fall has been in the States' western markets, and none can bell how those may tion a very uncertain position, from the States well and a live fall has been in the States well and formal the fall has been in the States well and formal the fall has been in the States well and formal the fall has been in the States well and formal the fall has been in the States well and formal the fall has been in the States well and formal the fall has been in the States well and formal the fall has been in the States well and formal the fall has been in the States well and formal the fall has been manded at States and have been manded at States and the states were small in the latter part of last week, but have since there is great excitement in the moisses which were considerably above shipping persons and that no business could be done until their prices had do line or Ragink sprices and that no business could be done until their prices had do line or Ragink sprices and that no business could be done until their prices had do line or Ragink sprices and that no business could be done until their prices had do line or Ragink sprices and that no business could be done until their prices had do line or Ragink sprices and that no business could be done until their prices had do line or Ragink sprices and that no business could be done until their prices had do line or Ragink sprices. The expected arrivals at ports of call for orders n the four weeks from obsuary 19 to Murch 17 were as follows :- Wheat, 425,000 qrs., comprising 15,000 qrs. from the Azov, Banube and Black Sea; 55,000 qrs. from American atlantic ports; 330,000 qrs. from California and Oregen; and 25,000 qrs from Chill and Australia. Further cable advices as to the trade for the week anding on the 2nd inst. are meagre. Mar hets were unsettled with arrivals at ports of call moderate. At the commencement of the week, wheat improved 6d to 1s per quarter, but the advance was subsequently lost. The coast was absolutely bare of maize. Considerable business was done in wheat, to arrive easily in the week, at 3d to 6d advance, which was subsequently lost. Continental advices by mail also are meagre. In France there was more amness apparent, the previous rise in America and agriand causing holders to demand an advance, and attracting more buyers. MONTREAL, March 8.

The arrivals of beef cattle by rail last week were unusually light, being only thirteen car-loads. The offerings were so small to-day that drover did not require to take their cattle to Vicer market, as the busehers were willing to go to Point St. Charles, sithough they had to pay from to be per the more for good cattle than was paid a week ago. One feature of to-day's market was the fact that drovers were unwilling to tell the amounts received for their cattle, which is generally the case when prices are advancing. Fred. Ritchings sold eighteen cattle, even of these, the smallest, were bought by R. Nicholson at \$44 per head, less \$2 on the lot, or a little ever 4c per pound. R. J. Hopper sold 25 cattle and James Eakins sold about ten or a dozen more There were no live hogs on the market to-day. Sales of live hoge were made last week at \$4.75 per 100 pounds live weight, and \$5.50 dressed weight. NUMBER OF FARMS IN
