USE BARRETT'S

Velvex Creosote Shingle Stains

HALF THE COST—TWICE THE WEAR

BY using Velvex Creosote Shingle Stain you bring out all the beauty of the wood. Besides, Velvex will give long life to your shingles, for it contains Creosote, the best wood preservative known. This means prolonged protection against wind and weather. Velvex soaks deeper into the wood than paint and consequently rarely needs renewing.

Barrett's Velvex Creosote Shingle Stain cost about half as much as paint and give double the wear. They do not evaporate or dry out and of course cannot peel off. The antiseptic nature of Velvex Stains absolutely prevents decay and makes the wood immune from attacks of insects or rodents. These stains come in any color you want. They are very easily applied. Practice economy this season by using Barrett's Velvex Creosote Shingle Stains. Send for sample of wood stained by Velvex Creosote Shingle Stain.

Solve The Fuel Problem

With a New Perfection Oil Cook Stove

BOTH Summer and Winter The New Perfection Oil Cook Stove will do more work than a Coal or wood Stove of twice its size.

THE Long Blue Chimney New Perfection Burners are the latest type of oil cooking burners. They were adopted after years of experience.

The long chimney creates a draft, furnishes the flame with enough air for perfect, clean combustion and makes every drop of kerosene do all the work in its power. All the oil is turned into heat. No smoke—no odors. No soot to blacken pots and pans.

B. F. MALTBY

Town Council

(Continued from page 4)

Turo had agreed to the percentage basis. Motion was not considering any such travelling company during the war. The Dominion licence was \$250 per week. If the percentage basis was not adopted here the Company would apply for a straight theatre licence. The company had its own electric attachments. She did not know what power would be needed.

On motion of Ald. Sargeant and P. Russell, it was resolved that the delegation present from the Newcastle Women's Institute be heard.

Mrs. R. W. Crocker, Mrs. C. C. Hayward and Mrs. G. G. Spahart comprised the delegation. Mrs. Crocker was the spokeswoman.

Mrs. Crocker said that at the last meeting of the Women's Institute it had been decided to ask the support of the Council in regard to the enforcement of Compulsory Attendance at school, the Curfew law, and the law that forbids young children attending Moving Pictures without their parents or guardians.

Miss Murlock said that Bassini's Plays Ltd. was a Summer Carnival Co., passed as O. K. by the Dominion and Provincial censors, and employing 150 people. This company would turn over the money, 15 per cent of the proceeds of their Merry-go-round and twelve Vaudeville shows and 25 per cent of the proceeds of the 25 concessions (refreshments booths, etc.) to the Red Cross or any other fund named by the Town. The company would guarantee to pay at least \$300 to such philanthropic fund. The Town would be expected, on the percentage basis, to supply land and electric current free. The Company wanted to come here the week of July 22nd. They proposed to play in St. Stephen, St. John, Sussex and Newcastle. In N. S. Halifax and the great need of making children go to school was apparent. Educated men were needed. It was of no use to allow a child to grow up uneducated, and then expect him to make a start of his own accord. She thought many parents did not send their children to school. Then there were the Curfew Law and the Moving Pictures questions. Would the Council help in these matters?

On motion of Ald. Sargeant and Stuart, it was resolved to take up the requests of the Women's Institute later in the evening and that a report of the decision be sent to the Ladies.

Following bills were passed:

G M Lake	\$4.75
R C Clark	50.00
The J D Creaghan Co	\$11.00
Park & Fire	
Summer Co.	\$11.50
Light & Water	
Summer Co.	\$68.00
Newcastle Planning, Mill	24.80
Can. Oil Co	114.96
Inverness Ry and Coal Co	384.98
Can. Gen Elec Co	9.70
Maritime Foundry	25.50
	\$337.94

Ald. John Russell submitted a list of officers for ensuing year.

The list was adopted as read.

On behalf of the Police Committee Ald. J. Russell asked a few days grace for appointment of a Day Policeman.

Ald. Stuart said that according to the Building By-Laws adopted two or three years ago, the office of Building Inspector was a most important one and should have a salary attached. No one may erect or alter a building without permission, and the Inspector must see that the law is in every case carried out, that all new and altered buildings are properly placed and safely constructed. No man could be expected to properly fill such an office for nothing.

Ald. Doyle understood that the Building Inspector was to be paid by the owner of the building inspected.

The Mayor said that no person should be allowed to put up any building without the consent of the whole Council. No one should erect a building that spoils the look of the street. Architects should have to submit their plans to the Council.

Ald. Durick said that there were other laws to go by than the By-Laws on Building. The Fire Company expects the Town to appoint proper officers. The Building Inspector was very necessary. The Town was not in a position to pay all officers. The Building Inspector should collect from the people to whom he gives his services.

Ald. Sargeant said that the Town should not allow people to block a whole street for a month.

Ald. Russell spoke of a company not clearing off the sidewalk after building.

Ald. Doyle said he had granted that company an extension of time for clearing the sidewalk.

Ald. Sargeant said that that company intended to get a concrete sidewalk down before they finished and were also willing to pay half the cost of a concrete crossing opposite

The list of officers was adopted as read:

It was moved by Ald. Doyle and seconded by Ald. P. Russell that section 1 of Bylaw No. 26, "A Bylaw Relating to Dogs and Dog Taxes," be amended by striking out the words "one dollar" in the 2nd line thereof and substituting therefor the word "Two dollars, so that the amended section shall read:

1 That there shall be imposed on the owner, keeper or harbinger of each dog in the town of Newcastle, an annual tax of Two dollars for each dog and five dollars for each bitch.

Ald. Stuart said that considering the Food Department's assurance that it cost \$34 a year to feed the average dog, that three hundreds in town had been lately raided by dogs with disastrous effect, that many sheep in country districts were killed by dogs, and many dogs were cross and many more useless, the keeping of dogs, especially in war time should be restricted and their undue increase discouraged. He moved, in amendment, that the tax be \$5 instead of \$2. The amendment was not seconded and the motion carried.

Ald. Crocker, pursuant to notice, moved that the price of electric light be raised from 15 to 20 cents per kilowatt, except where otherwise provided by special contract, the discount at for payment within ten days after the end of the month to remain at 20 per cent. This was seconded by Ald. Sargeant.

Ald. Durick asked if the chairman of the Light and Water committee had any idea of the cost of light per kilowatt.

Ald. Crocker replied that it had been figured out that light cost 16 cents here. A traveller had told him that in Sussex the rate last year was 15 cents for house light and 14 1/2 cents for power, with 10 per cent discount. This year the discount was being discontinued.

Ald. Durick said it was unfortunate that the Town had no certain date to go by. Twenty cents looks too big on paper. He favored charging 18 cents, with ten per cent off. That would sound better and be a little more profitable than 20 cents, with 20 per cent off. The big light rate was like what Ald. Stuart said about the tax rate.

Ald. Crocker said that the large discount was meant to insure prompt payment. Sussex charged 25 cents meter rate and made every light bill at least \$1.00, including meter rent.

Ald. Doyle and Stuart agreed with Ald. Crocker.

Motion carried.

The Mayor reported that the C. G. R. officials were in town recently on a tour of inspection. Short notice was given, and it was impossible to get the full council together to meet them. Ald. Durick could not go. Ald. Crocker and P. Russell had come with himself and also George Stab-

MARTIN-SENOUR

PAINT & VARNISHES

The Practical Economy of Good Paint

Good paint is never an expense, but a saving. By its use you save your buildings from a steady deterioration in value.

Economy in painting demands the use of Quality Paint—Martin-Senour "100% Pure" Paint—the paint that protects and preserves.

The use of cheap materials is a waste of money—a waste of time.

MARTIN-SENOUR

"100% PURE" PAINT

wears longest, covers the greatest surface (900 sq. feet per gallon) and because of its even texture, takes least time and is easiest to apply. It is absolutely guaranteed—"100% Pure" White Lead, Zinc Oxide and highest quality Linseed Oil. It is admittedly the most economical paint on the market.

Take no chances. Make your investments secure by applying on your buildings, inside and out, protecting coats of Martin-Senour "100% Pure" Paint.

Ask for "Farmer's Color Set" and "Town and Country Homes". Just what you'll need in planning your painting.
