## SENATE'S MESSAGE TO PRINCE OF WALES

Ottawa, June 27—On motion of Senator David the Senate yesterday unanimously adopted the following congratulatory message to the Prince of Wales.

"Resolved that the Senate of Canada desires to extend its congratulations to His Royal Highness, the Prince of Wales, upon the occasion of the twenty-eighth anniversary of his birth and seizes this opportunity also to congratulate His Royal Highness upon his safe return from his visit to India, where he displayed the noble qualities of heart and mind which characterize him and for which he is beloved throughout the Empire."

Senator Dandurand, on behalf of the opposition, eloquently supported the resolution.

## THE TRAGEDY OF THE SMALL STORE

In walking along our business thoroughfares one is struck with the number of small stores. Butcher shops, groceries stores that sell women's hats. In six blocks on one street recently I counted twenty-two millinery establishments, and these to the exclusion of the large department stores. Then there are shoe stores by the dozens, and photographic establishments, one for every block or so. A walk along one of the shopping streets of the second grade during the evening hours when the presumption is that business would be brisk, gives the following results in one long block: Stores open but empty so far as customers are concerned, ten; stores with customers, three; stores dark seven.

One might well ask why so many shops and do their owners make a living? For the most part the capital cost of maintaining these establishments for the time they survive under any one proprietor comes from people who have saved a little in former occupations. They have a trifle of capital and some credit, and stock up under the impression, false though it is, that anybody can operate a retail business successfully. It happens, however that in the long run, taxes, rent, clerk hire and general overhead, to say nothing of poor management, eats them up. The trifling profits are dissipated, and soon they are at the end of their tether. Then they disappear from the scene, each one a little financial tragedy, and others take their place. And the pity is these people will not learn from the experience of others. But who does?

### NEW FERRY SERVICE

A vehicle and passenger ferry has been placed on the route between Newcastle and Nelson, making two trips each hour. The gasoline launch Dunmir of the Miramichi Lumber Co. is being used to tow a large scow, which has been fitted up to carry passengers, teams and automobiles. Mr. Arthur Petrie of Newcastle is in charge. This will fill a long felt want and will be of much advantage to both sides of the river.

flowers. Both, rightly understood, might be of some use to the Finance Minister. Possibly forget-me-nots.

## BASE BALL NOTES

Tuesday at Newcastle.

Douglastown was entertained for the second time in Newcastle last Tuesday evening. A large attendance of fans gathered to see the local boys take the measure of their north side brothers. The game was called by Umpire Greene at 7.10 o'clock with the visitors at the bat. Douglastown started out in first class style in their first half, getting two runs but from then on were on a successful tallying one more score. They batted well but the locals were on their metal and kept them in check. The visitors played a very clean game and the lack of bickering on the part of the players, was a noticeable feature of the game.

Craig twirled the pill for the locals but was not in his usual form. He only had two strike outs to his credit and the game apparently was a slugging match between the two teams. The game went 6 innings with a score of 9 to 3 in favor of Newcastle.

The line up and summary was as follows:

## POLITICAL LETTER

June 28th. The first session of Canada's fourteenth Parliament has ended amid sounds of revelry and noisy hilarity. The weary legislators can now take their holidays, and joy rides, with the four thousand dollar indemnity the country has to pay each one of them, whether they are worth it, or not.

For any particular value the session has been to Canada; the country might as well "go on strike". The work of the Government, has mainly developed broken pledges and

political deception. They appealed to the people, to give them place and power, only a few months ago, on a certain platform and certain pledges. True, during the electoral campaign "the platform" was renamed "a chart," and having obtained the place and power, their very first session has converted both platform and chart into "a scrap of paper," torn repudiated and scattered to the winds. Such a vast difference is there between the promises of pre-election platforms, and the actual performance of the session after the same promises were trusted to Govern; that a deceived

electorate may well stand aghast, and ask is there any honor, any candor, any truth in the Government's power? By their deception and two faced policy, they have issued a straight challenge to the common sense of the Electors of the Dominion, the people whom they have gulled, and who would not have supported them, could they have foreseen, just what contemptible political tricksters would do when they had the chance. There is still some hope for our Country in the fact that the people cannot be fooled all the time.

Instead of affording relief to the average working man, their tariff, the biggest blunder of the session, has ground him down still more. As to that, one would expect hardly anything different from "the astute gentleman, and veteran "tariff tinker," whose shuffling tactics, are plastered all over his budget. True he did not hesitate to declare in the House his disagreement with the so-called Liberal Party platform, although he was in at the framing, and found in fault with the erection; and was looking upon by his fellow Liberals, as a supporter. It suits his purpose now, to strike a new note. He is finance minister once more, and rides a horse of another color. Pity his admirers and worshippers could not seat him on a brass horse, and preserve him as a permanent monument, to the memory of "artful dodgers and political tricksters." The Premier is not the only one, who should be honored with a clock and silver vase," although discrimination might be necessary sometimes, in the choice of
