#### CALL FOR A CONVENTION.

The friends of the local Government in York county are requested to meet in convention at Temperance Hall, Fredericton, on Friday, October 4th, at 2 p. m., for the purpose of selecting candidates to contest this constituency in the pending election. W. WILSON, THOS. H. COLTER.

#### A GENERAL ELECTION.

The local legislature of this province has been dissolved and a general election ordered, nomination on Wednesday Oct. 9th and polling in contested constituencies on Wednesday Oct. 16th. The contest therefore, must be short, and three weeks from to-day, THE HERBLD will be able to announce the result.

In another column we publish the address of Hon. A. G. Blair, premier, to the electors of New Brunswick, setting forth some of the chief reasons why the Government should be sustained in this fresh appeal to the country, and we think it will convince every man whose mind is open to conviction, that the administration of public affairs has been in the hands of a wise, prudent and economical government. It is with the utmost condict in the present instance. When the government came into power in March 1883, it found that many abuses had crept demand for economy and retrenchment; that the governmental machinery was too great for a small province such as this; that new legislation bearing on some of the most important interests of the country was urgently required, and the government backed by the legislature, set immediately about to effect the desired reforms. The old executive council consisted of nine members, the number has now been reduced to seven, effecting quite a large saving. Mr. Blair believed the legislative council to be a useless and after a determined fight he abolished it, for an enlargement of the franchise, and

redeemed all the pledges he made in the declaration of policy, which he made when in opposition. There will be no lack of good candidates on the government side in the coming local election, but of course it is impossible to state at this early date the personnel of all down to the practice of law in Montreal the tickets which will represent the administration. The local government came to a reasonbefore the country is precipitated into the excitement and strife of a federal contest which must come within the next few months. Another reason which no doubt influenced the government to reach its decision lies in the fact that there are at present four vacancies in the legislature, and that by the redistribution bill of last session five additional representatives were added to the strength of the house.
