feverish or fretful.

ed by this means,

be dipped in the solution for a moment and all grease is removed. The brush should then be rinsed in cold water, sha-ken well, and dried in the air, but not in the arm. so closely together that unless separated neither will be worth anything. This is the season when pear blight appears, and a sharp lookout should be kept for it. If cut promptly a little be-low the blighted place the disease may be stopped. Care should be taken to The ordinary method of scraping or burning off old paint is hardly expedicut back as far as the sap shows discolortious enough for general purposes, and is also laborious. Soda and quick-lime are ation, as it is evident that discolored sap is proof of the presence of disease. We have no faith in the various preventfar more thorough. The solution of half of each is thus made: Dissolve the soda ives of blight. The disease is very un-certain, and cutting back is the only in water, and then add the lime and apply with a brush to the old paint, which

If there is much ragweed among the Charcoal is a great sweetener of the clover after the grain crop is gathered, especially if it towers above the clover, breath, and besides that it strengthens and whitens the teeth, removes the tart should be cut down. After the grain and his beard a venerable white. tar, prevents toothache, and gives the is off clover takes a fresh start to grow, and will often smother the ragweed if gums and lips an attractive color. About a knife should be rubbed gently into the ach as can be placed on the point of the latter is put back so that both can start even. It is better to do this than interstices of the teeth on going to bed, to be rinsed thoroughly in the merning. The objection to charcoal is its grittiness and it must be reduced as nearly as possible to an impalpable powder. Its puri-fying qualities are invaluable, and it is

Much of the baled hay that comes to market is in poor condition from mould or mustiness. This is due to imperfect or mustiness. This is due to imperfect curing or putting up when wet. There is strong temptation to the farmer to put up his hay as fast as made, and all the more so if rainy weather interferes with having. But the great peeds to sweet But the grass needs to sweat somewhere before going into the bale. If it does not the sweating will surely result in musty hay, and perhaps also in

patient sit up, or propping up his head with pillows. You want to send the We have known farmers who thresh early to take the grain straw and spread it between rows of potatoes after the last cultivation. It prevented weeds from growing up so quickly, and by keep-ing the soil moist, undoubtedly benefits the crop. The great cost of this application on a large scale must prevent it from being generally used. If the soil Biting the lips frequently makes them sore, and for hard, dry lips a little pure glycerine, lightly rubbed in at night, is often beneficial. A harmless application is kept free from weeds, loosening the surface occasionally with a hoe makes the cheapest mulch, and one as good as could be wished.

teaspoonful each of glycerine and mut-Manuring too heavily with unfermented manure is a frequent cause of scab in potatoes. Sometimes a clover by fer-The wax and suet are melted separately, and then the whole mass is well mixed and poured into a mold to menting in the soil will cause it. plying a little commercial phosphate at lanting with the seed is a preventive. The sulphuric acid used in dissolving the osphate destroys the fungus growth, However old, obstinate or chronic your case may be Burdock Blood Bitters has cured so many seemingly incurable which cause first a mildew on the skin of the potato and then a scab. After the skin is broken, insects sometimes come yours. Cases of dyspepsia, scrofula, liver complaint, etc., of twenty-five years' standing have been cured by B. B. B. and feed on the tuber. Some think it is the insects that cause the scab, but we believe this to be a mistake.

The blossom of corn differs from that

of all other grains in being double. The tassels are the male part, and the pollen It can do no harm to try Freeman's Worm Powders if your child is ailing, they shed fertilizes the silk, and thus makes the grain on the cob. In wet or cold seasons so much pollen is washed away by rains that the ear is usually im-perfect. It will be found, too, that the latest ears are commonly only partly filled out, and with soft corn at that. A solution of chloral hydrate, five grains to the ounce of water, will clear the hair of dandruff, and prevent Nature keeps the cob fresh and the silk it falling out from that cause. It is also in condition long after the tassal has be-come dried and worthless. Some years if claimed that partial baldness may be cursowed corn is sown later near a field of corn for grain, the latter will be helped A slim young man in the height of

There is nothing gained by growing three plants where there is only room for two. The two plants the place car, when a companion remarked, "Aw, Chawles, deah boy, how d'ye catch that dweadful old." "Aw, deah fellah, leit my cane in the lower hall tother day, and in sucking the ivery handle, so dweadful cold, it chilled me almost to death." If Charles had used Dr. Harwould comfortably accommodate would be much finer than the three that you manage to "just squeeze in." And remanage to "just squeeze in." And remember that one plant, well-grown, is worth a score of poorly grown ones. One good plant is something to be proud of, while a number of poor specimens ought to make the grower ashamed, not of the plants, but of himself. Treat plants precisely as you would people, and give them all the chance they want to develop. Let them show what they can do, and they cannot do this when they are cramped. they are cramped.

Bon't Speculate.

Run no risk in buying medicine, but try the great Kidney and Liver regulator, made by Dr Chase, author of Chase's receipes. Try Chase's Liver Cure for all diseases of the Liver, Kidneys, Stomach and Bowels. Sold by James Wilson deverges. Mr Goode, druggist, is not a book agent, but has the agency in Goderich for Johnston's Tonic Bitters, which he can heartily recommend for any com-Wilson, druggist. plicable. This valuable medicine has been with most astonishingly good re-sults in cases of general debility, weak-

When the Queen removes from Os-borne to Windsor her carriages and horses are sent ahead in two special trains. Fifty carriage trucks are usually needed to transport the stable and its of appetite, and for that general worn out feeling that nearly every one is troubled with at some part of the year. Don't forget the name Johnston's Tonic attendants.

A Wonderful Organ.

The largest organ, and one that plays a controlling part on the health of the body is the liver. If torpid or inactive the whole system becomes discased. Dr. Chase's Liver Cure is made specially for Liver and Kidney diseases, and is guaranteed to cure. Recipe book and medicine \$1. Sold by all druggists.

Here are two stories of a well known English prelate whose name may be guessed. To a man who had been bothering him for promotion till he lost his temper he said, "Dear Sir,—If it were to rain rectories and shower vicarages I inflamed condition of the lining membranes of the nostrils, tear-ducts and throat, affecting the lungs. An acrid mucous is secreted, the discharge is accompanied with a burning sensation. There are severe spasms of sneezing, frequent attacks of headache, watery and inflamed eyes. Ely's Cream Balm is a remedy that can be depended upon. 50cts. at druggists; by mail, registered, 60cts. Ely Brothers, Druggists, Owego, New York. should present you—with an umbrella."
