## Harbor Grace Notes.

Some of the residents of Noad St. are complaining of the nuisance of men, or at least those who are the size of men, who congregate there nightly, and by their often unbecoming talk annoy the residents and passers-by. We know we have only to mention this when the police will have the nuisance obviated.

We are fully in accord with the ideas of a writer in the "Standard," of Friday last, over the non-despatch "Sympathy," when he suggests that the public should make an effort to assist the Misses Fitzgerald who were burnt out on Saturday night week. Owing to one of the women being an invalid, the other spent valuable time in rescuing her, consequently by the time help arrived nothing could be saved. The Misses Fitzgerald were hard-working people and deserve to be assisted, which we know they will when the public are appealed to.

Mr. A. J. Goodland, Principal of the C. of E. High School, Trinity, has received the appointment to a similar position in the High School here. Mr. Goodland comes highly recommended, and the C. of E. people are fortunate in securing his services. He will commence his duties after the mid-summer holidays.

W. B. Grieve, Esq., arrived in town by Saturday's train on a business trip. Mr. Grieve's friends were pleased to see him in the enjoyment of good health after his recent visit abroad.

The contract for the building of our Marine Railway Dock has been given to the Crandell Co., of Boston, a well known dock-building concern, and the work will soon be commenced and pushed to a finish. Success to the enterprise.

Magistrate Fitzgerald, who by the way is a Harbor Gracian, spent a few days in the old town last week, visiting friends, etc.

It is said that the Fire Company are arranging for the building of a new boat for the races of 1911. We'll have to make arrangements to get an excursion from St. John's for our regatta this year. Many of your city folks have no idea how we enjoy the "day of the races."

A pretty wedding took place at the R. C. Cathedral at 8.30 last evening, when Mr. Michael Donnelly, of Riverhead, and Miss Ella Cody, of the same place, were joined in the holy bonds of matrimony. His Lordship Bishop March performed the ceremony that made the happy couple one. We join the many friends in wishing the newly-wedded pair many years of happiness.

Miss M. Wallace, who for the past two years has had charge of Victoria Street school, will resign her charge at the end of the school term. Since coming to Harbor Grace Miss Wallace has made many friends who will regret to hear she has decided to leave our town, and whose best wishes will accompany her.

The Salvation Army had a more than usually interesting meeting last night, and so earnestly did the officers appeal to the congregation that some six or seven came forward and expressed their determination to lead better lives.

The Telephone Company are about putting in a number of telephones for people desirous of sharing in the advantages of this mode of communication.

Mr. James Simms, carpenter, who has been very ill for the past week or so passed away at 5 o'clock this morning. Mr. Simms had been in failing health for years, but he fought bravely against his ailment and worked away at his trade until a short time ago. He was about 38 years of age. His only son, Mr. James Simms, now of St. John's. He resided with his sister, Mrs. Robert Noseworthy, to whom and the other relatives we tender our sympathy.

Mr. Rowe, watchmaker and jeweller, has taken the shop on Water St. lately occupied by Mrs. C. Campbell and will carry on business in his line there.

A number of young men left this morning by train for Bell Island where they will endeavour to get work for the summer.  
Planters are finding it hard to get men for the fishery this summer, although the wages offered are higher than usual. After two bad voyage seasons are afraid to risk the summer at the fishery.  
Mr. Albert Rogers, of the Union Wood Company, has just sold his interest in that business to a gentleman of this town. Mr. Rogers expressed himself as having no fear of the success of the concern, but simply with draws by mutual consent. It is another business in view, which if we mistake not will help to build up this

are the two great creators of energy. You can get along without Scott's Emulsion if you have enough sunshine, but for the millions who don't get much sunshine, Scott's Emulsion is absolutely necessary. You can always get Scott's Emulsion. Get sunshine, too, whenever you can.

The boys of King Edward Brigade took a turn around town last night, and proved that they are learning their drill well, and are to be congratulated on their appearance.

The lads of the C. C. C. formed two football teams from their ranks a short time ago—a senior and a junior team. Let the other brigades do likewise, and a friendly game at intervals during the summer will prove very interesting.

The ship, Constance arrived from Trinity Bay yesterday with another load of firewood and fence stuff for Mr. E. Simmonds.

A number of men are now employed by Mr. Rogers, Chairman of the Road Board, extending Military Road so as to connect it with Long Hill, near Shannon Park. This road will prove a great benefit to a large number of people of the higher levels.

The annual dance under the auspices of the Masonic Society takes place in the Society's Hall to-night. Much preparation has been made, and the lads and lassies are pretty sure to have a good time, as they always do at the Masonic dance.

Mr. Albert Rogers intends going to St. John's to-morrow on a business trip, and expects to be absent until Saturday. While at St. John's Mr. Rogers will make an effort to meet some of the officers of the C. L. B. with a view to the better management of the Brigade here. He is taking a very great interest in the movement, and assures us that he considers the time he puts in with the Brigade not by any means wasted. He also tells us he can already see much good resulting from the organization of the Brigade.

SEAMEN WILL MEET.—As exclusively reported by the Telegram a few days ago the local seamen are looking for \$25 a month. A delegation that called on the ship owners during the week was informed that they were not willing to give them \$25. They were satisfied to pay them \$21 at the Shipping Office and \$4 at their own office. The men will meet to-night at 8.30 to decide as to what steps are to be taken in the premises.

WAS FINED \$5.—The man Dwyer who was arrested by Sergt. Byrne on board the scurr. X10-U8, Saturday, and was tried before Magistrate Power, Monday, when the affair was proved to be trivial, nobody being badly hurt, as reported at first, in the fight between the prisoner and a man named Elliott. Dwyer was fined \$5 or 14 days and costs.

Special to Evening Telegram.  
LONDON, May 16.  
The memorial to Queen Victoria was unveiled to-day by her grandson, King George V, in the presence of the Emperor and Empress of Germany, and of numerous members of the British and German Royal families. The King, in a speech eulogistic of Queen Victoria, described the memorial as a tribute of races and legions more various in character and circumstances than have ever been combined before in a common purpose. He referred feelingly to the pleasure afforded him by the visit of the German Royal family, saying:—"It is a source of deep satisfaction to me and to my family that my dear cousin, the German Emperor, accompanied by the Empress, is present at this historic ceremony. His Majesty is the eldest grandson of Victoria, whom he always loved and revered with natural affection. His presence and sympathy with us during the last days of her life, and afterwards, will never be forgotten by me and my people. Strong and loving ties of kinship and friendship unite the thrones and persons. The Nation rejoices with me that he is here to-day to share in the unveiling of this memorial."

Special to Evening Telegram.  
LONDON, May 16.  
Chancellor Lloyd George presented the Budget to-day in the House of Commons. The only novelty contained in the proposal to pay the members of the House of Commons a salary of \$2,000 a year. The Chancellor declined to give members travelling allowances or pensions and excluded from this salary benefit all Ministers already drawing salaries. The Chancellor's realized surplus, including payments delayed in 1909-10 by the action of the Lords in throwing out the Budget of that year totalled \$28,035,000. Of this sum he proposed to devote \$7,000,000 in support of sanitariums for consumptives. The estimated expenditure for the current year is \$906,170,000, which is \$38,750,000 in excess of the previous year. The estimated revenue is \$908,580,000. No fresh taxation is provided.

Special Evening Telegram.  
NEW YORK, May 16.  
One effect of the decision in the Standard Oil case, in which the public will be most vitally concerned, will be, according to business men here, the probable advance in price of all oil products to the consumer. As a result of the original decision, the owners of these properties will not make any real change in ownership in these concerns. They will still be Standard Oil properties, although the stock will be distributed among numerous shareholders, instead of being strong concerns like the present corporation. This means that whereas now many of these concerns are united under a general management, they will in future, if the mandate of the Court is accepted at its face value, be operated as distinct concerns. The operating expenses will be increased, while there will be no way to compel actual competition among the companies for trade.

A section of the French relief column engaged the rebels at Merida, 190 tribesmen lost 100 killed and 200 wounded. Other parts of the French column were attacked by other tribes. The French drove off the enemy at the point of the bayonet. The column is now proceeding to Fez to aid the besieged Sultan and the French forces at the Capital.

**Hundreds Leaving.**  
People who arrived from Bell Island yesterday stated that hundreds of men have left that place of late, and that the D. I. S. Co. especially are finding it hard to keep up a supply of miners and labourers. They have now only eleven sets of loaders left; but the N. S. Co. have not yet felt the exodus as badly as the other concern. Most of the men leaving are going to Sydney and other parts of Canada, and some to the fishery.

**A Fine Schooner.**  
Yesterday a fine schooner, named the Carpassian, owned by Joseph Holder of Grate's Cove, arrived here and will be measured to-day. She is a vessel of about 18 tons, and proved to be a fast sailor on the run up. The craft was built by the owner's son. A young chafed aged 19, who never before did any work of a similar kind, and who did not see schooners building. The vessel is highly creditable to the builder.
