Dairy Show.

The Forest City Will Be the Center of Attraction for Stockmen Dec. 11 to 15.

London, from Dec. 11 to Dec. 15, will be the center of attraction for the stock and dairy men of the Dominion. In that week the sixteenth annual Ontario Fat Stock and Dairy Show will be held at Queen's Park. Some idea of the magnitude of the exhibition is learned from the fact that over \$5,300 is offered in prizes. The show is to be held under the auspices of the Dominion Cattle Breeders' Association, the Dominion Sheep Breeders' Association, the Do-minion Swine Breeders' Association, the Cheese and Butter Association of Eastern Ontario, the Western Fair Association, the London Board of Trade and City Council, and the County Council. The Cattle, Swine and Sheep Breeders' Associations will hold annual meetings during the week, and on Tuesday, Dec. 12, there will be a joint public meeting in the city hall, and addresses by notable speakers are announced. ## MR. SHAUGHNESSY

The C. P. R. President Discusses His Western Trip.

Montreal, Nov. 8 .- Mr. T. G. Shaughnessy, president of the Canadian Pacific Raifway, has returned to Montreal after his first official trip of inspection over the road since his appointment to the presidency in succession to Sir William Van Horne. Mr. Shaughnessy made a thorough inspection of the lines west of Winnipeg, returning over the are likely to s

It was just to their taste. a year since he traveled over the same territory before, and there were many evidences of progress and increased prosperity to be noticed on every side. Speaking of his trip Mr. Shaughnessy sand: It was just an ordinary business journey, and apart from the satisfactory condition of affairs generally, both as regarded the railway company and

the population of the Northwest, there was nothing of interest to mention. The shipments of ore from the British Columbia mining district had not been quite as large of late as might have been expected, but the develop-ment of the mines had progressed steadily, and no doubt the shipments would increase in a short time. As for the possible effect of the war in South Africa on Canadian mining enterprises, he did not think it would make much bought the horse out of the third yes- difference with us. THE CAR FAMINE.

Toronto, Nov. 8.-The car famine has taken a novel turn. Through the inability to obtain cars necessary to move the unprecedented amount traffic, two of the important roads in the Northwest have stopped all soliciting of freight and passenger business, have called in their traveling freight and passenger agents, and put them at work hunting up cars to handle the business. The cry for more cars is heard from every quarter and business is piling up at freight depots everywhere from New York to San Francisco and from Canada to the gulf.

BRAIN FOOD.

Is of Little Benefit Unless It Is Digasted.

Nearly everyone will admit that as a nation we eat too much meat and too little of vegetables and the grains. For business men, office men and clerks, and in fact everyone engaged in sedentary or indoor occupations, grains, milk and vegetables are much

more healthful. Only men engaged in a severe outdoor manual labor can live on a heavy meat diet and continue in health. As a general rule, meat once a day is sufficient for all classes of men, women and children, and grains, fruit and vegetables should constitute the

bulk of food eaten. But many of the most nutritious foods are difficult of digestion, and it is of no use to advise brain workers to eat largely of grains and vegetables, when the digestion is too weak to

assimilate them properly.

It is always best to get the best results from our food that some simple and harmless digestive should be taken after meals to assist the relaxed digestive organs, and several years ex-perience have proven Stuart's Dyspepsia Tablets to be a very safe, pleasant and effective digestive, and a remedy which may be taken daily with

the best results. Stuart's Dyspepsia Tablets can hardly be called a patent medicine, as they do not act on the bowels or any particular organ, but only on the food exten. They supply what weak stomachs lack, pepsin diatase, and by stimulating the gastric glands increase the natural secretion of hydrochloris acid.

sure to have perfect digestion, which means perfect health.

There is no danger of forming an injurious habit, as the tablets contain absolutely nothing but natural digestives; cocaine, morphine and similar drugs have no place in a stomach medicine and Stuart's Dyspepsia Tab-lets are certainly the best known and most popular of all stomach remedies. Ask your druggist for a 50c package of Stuart's Dyspepsia Tablets, and, after a week's use, note the improvement in health, appears and nervous

> Ten Thousand Additional Troops To Be Sent Out.

> One Report Says Great Britain Will Mobilize the Second and Third Army Corps for Service Immediately

London, Nov. 8.—An air of relief was observable among the British war office officials today as a result of the reassuring news from Ladysmith, and the tone of comment on the war news has assumed an optimism that lately has been absent, leading to the belief that, in addition to the brighter prospects of the beleaguered garrisons, the war office is cheered by the news of the arrival at their destination of the first transports with Gen. Buller's army

Now the officials are inclined to predict that low-water mark has been reached, and that slowly but steadily the rising tide of victory may be ex-

The proposal to send out an additional 10,000 troops is highly approved, and it is considered probable that fully that number will be required, as all independent reports concur in saving the resistance of the Boers will be stubborn to the last, and that not until the resources of the two republics are exhausted will they acknowledge that they are beaten.

TELL-TALE HOLES The bullet-holes in the uniforms of the Durban volunteers show the narrowness of their escape from Fort Wylie, which was only effected after the heavy fire of the Durban Fusiliers had inflicted severe loss on the Boers. A member of the garrison, who was hard pressed by the Boers, leaped into the river amid a shower of bullets and, diving repeatedly, reached the far bank unscathed.

Gen. French managed to leave Lady-smith by the last train from there. Four miles from Colenso the Boers fired at the train, but no one was hit. The general is going to Cape Town in order to take command of the cav-alry. The Border Regiment arrived here on Friday.

## TRANSVAAL BANK ROBBED

Clerk Embezzles \$350,000 Before He Is Detected.

London, Nov. 8.—A story of embez-zlement of £70,000 comes by mail from Johannesburg. This large sum has been abstracted in the course of five years by Jonathan King, chief clearing clerk at the Standard Bank of South Africa.

According to his own confession, King opened an account with another bank in Johannesburg. He then drew checks ranging from £5,000 to £2,000 on the Standard Bank in his own favor, paying them into his own account at the other bank. The checks would be sent for clearance to the Standard Bank, and would naturally come into King's own hands as head of the clearance department. In order to insure that the amount should actually be paid into his account King People who make a daily practice of taking one or two of Stuart's Dyspepsia Tablets after each meal are his defalcations for that particular day.

Possibility of a Conflict Between Russia and Japan.

Czar and Czarina Meet the Emperor and Empress of Germany-Dividing Up the Samoan Islands.

New York, Nov. 8 .- The probability of war between Russia and Japan before the spring is discussed. Japan has a larger fleet in the east than Russia, and in pursuance of a design to acquire Corea and thwart Russia's Chinese schemes before the completion of the Trans-Siberian Railroad, may make war. The London Daily Mail, commenting on the report, says: "Japan knows that her time for striking is now or in the forthcoming spring. That is to say, she must assail Russia before the completion the Trans-Siberian Railway, while the hands of France are tied by the Paris exposition. If Japan takes the opportunity, war is likely to have but one result. Russia was never more heavily handicapped, while Japan has never been better prepared. We have before pointed out the strict neutrality of the Russians, and at the present moment it is by no means due to friendship for England. With the German emperor's visit to England to occupy Russia in the west, and with the activity of Japan in the east, Russia is hardly ready to adopt the suggestions of Dr. Leyds at the present moment. it is for this reason that the threaten-ed intervention for which the French worked so vigorously a week or two ago is falling out of view."

DIVIDING UP SOMOA. Berlin, Nov. 8 .- It was officially announced this morning that an agree-ment subject to the approval of the United States has been arrived at between Great Britain and Germany by virtue of which the Samoa act is repealed and the Islands of Upolu, Savaii and the small adjacent islands fall to Germany as free propert, and the island of Tutuila and the subsidiary islands go to the United States, Great Britain, renounces any claim to the Tonga Islands and to Savage Island in favor of Great Britain, and also cedes Choi-Britain. The consular representatives of the two powers in Samoa and the Tonga Islands are to be withdrawn for the present and German subjects are to have the same rights as British subjects in regard to the free and unim-peded enlistment of native laborers in the whole of the Solomon group in the possession of Great Britain, including Choiseul and San Isabel.

ANGLO-CANADIAN TRADE London, Nov. 8 .- The Board of Trade returns for the ten months ending with October show the following increases in British imports from Canada: Sheep and lambs, £36,000; wheat, £85,-000; wheat-flour, £240,000; harns, £64,-000; butter, £484,000; cheese, £97,000; Newfoundland copper, £34,000; pulpwood, £21,000; sawn wood, £205,000. The decreases were: Cattle, £96,000; peas, £77,000; maize, £315,000; bacon, £211,000; eggs, £20,000; fish, £246,000; horses, £47,000.

The chief increases in the British exports to Canada are: Cotton piece goods, £64,000; linen piece goods, £21,000; woolen tissues, £20,000; railway iron and steel, £113,000; tin plates and sheets. £67,000. The chief decreases were: Worsted

tissues, £17,000; wearing apparel, £8,-000; slops, £34,000. The total trade for October, according to the statement of the board of trade, shows increases of £5,531,600 in imports, and £3,836,000 in exports.

## Going Down Hill.

once the grave.

Once the declining years of life are reached, the sap of youth begins to flow more slowly, and soon to dry up. The muscles grow soft and weak, the nerves lose their tone, and a general weakening of the vital forces sets in. This is the Process of Decay. Can we This is the Process of Decay. Can we

Dr. Arnold's English Toxin Pills contain all the substances required to build up new bone and tissue. They renew the vital forces, retard the gradprocess of decay, give firmness to the relaxing muscles, strength to the weakening bones, tone to the unstrung nerves, and stimulate every organ to a proper and naturally vigorous performance of its duties.

For aged people, persons who are recovering from fevers, or from other debilitating diseases, Dr. Arnold's English Toxin Pills are the best and strongest prop and restorative obtainable. A single dose is enough to prove this. They prevent relapse, generate fresh energy, store up vitality and build new, firm tissues rapidly, while purifying the blood and ridding the system of all disease germs.
