ELOQUENT APPEAL BY THE PREMIER

Hon. George W. Ross Voices Canada's Claims in England.

Gloomy View of Affairs in the East Taken by the London Times-A New Cunarder.

London, Aug. 2 .- Premier Ross, of Ontario, in addressing a meeting of the British Empire League at Manchester, made an eloquent appeal on behalf of the claims of Canada upon the interest of the British people, and he declared that British muscle, brain and money were needed to adequately develop Canadian resources.

SEEING THINGS AGAIN. The Times, in an editorial taking a gloomy view of affairs in the near east, says:

"Even official optimism is unable to avert its eyes from the dark thunderclouds which seem to overlook the Balkans." It refers to Russia as "steadily building up in the Slavonic states" and to Bulgaria as "being gradually transformed into a Russian dependency." Commenting on the unrest in Albania and Macedonia, it says: "It is commonly supposed that no serious outbreak will take place in Macedonia till Russia gives the signal, but events are maturing and Russia may be taken unawares.

NEW CUNARDER. The London telegraph says that the Cunard Steamship Company has decided to build a new steamer, and with her make an attempt to capture the Atlantic record. The contract has not yet been placed, but the designs have been prepared and estimates invited for a vessel capable of making 25 knots an hour. She will be built so that she can be used as an armed cruiser, and it is possible that she will

have a protective deck. CURE FOR ST. VITUS DANCE. Prof. Blanchard, in a paper read before the Academy of Medicine at Paris, said the Anophele species of mosquito propagates disease, even leprosy. The Parisian Culex mosquito is less terrible. He advised the destruction of the larvae by placing petroleum in stagnant water and

sweet oil in drinking water. Dr. Robin announced that experiments had been made by Dr. Huyghe, of Lille, in curing St. Vitus dance by inclosing limbs for days in rigid bandages.

RAILROADING IN ENGLAND. Mr. Lander, a shareholder of some magnitude in the Southeastern Railroad, announced at the half-yearly meeting that an American syndicate desired a 30 years' lease of the line and was ready to deposit £1,000,000 as a guarantee of a 3 per cent dividend during the first year, and ultimately a 5 per cent dividend. This statement was made after the chairman of the company, H. C. O. Ponsor, had re-ported that no dividend could be paid this year, that the accounts showed a deficiency, and that it was necessary to issue additional stock to the amount of £1,666,000. This issue was authorized, Mr. Lander caustically commenting upon the state of affairs, showing no dividend after 65 years of working. "DEMOLISH THE CHAPELS."

Canton, Aug. 2.-Violent anti-foreign placards, emanating from the Boxers, have been posted in the vicinity of the Christian chapels.

The placards protest against the imposition of the public tax, saying it is only exacted in order to meet the indemnity to be paid to the powers, and proceeds:

"If money can be obtained, why not make war on the foreigners? China is not yet defeated. It is only the government's eyes which are blinded by disloyal ministers. If we refuse to fight, then it is a case of being greedy to live, yet fearing death. How can the carefully studied military arts be used, except against foreigners? How can we otherwise employ our regi-ments? During 1900 much money was collected through lotteries, gambling and general taxes. But, they were never satisfied. Therefore, should the house tax be collected we will demolish the chapels and drive out the Christians. If the emperor is unable to pay, we, Boxers, have an excellent plan to gain a victory over foreigners. Unless this policy is adopted a great rebellion is certain."

THE FINAL PROTOCOL.

London, Aug. 1.—A dispatch to the Times from Pekin, dated July 31, says: The preparation of the final protocol progressing rapidly. It is expected that it will be signed before the anniversary of the relief of the legations,

Pekin is being placarded with a vigorous proclamation recounting that a national crime was committed by China last year, and that the punishment inflicted is a warning against its recurrence.
