For a Silver Wedding.

Dear Miss Grey: Please tell me how to word a silver wedding anniversary invitation when one desires that no presents shall be brought. Our idea is simply to have a few of our old friends gathered together without having them feel that an expensive gift of silver is expected. To us, this would make our anniversary seem mercenary. By publishing this information in The Advertiser, my husband and I will feel greatly obliged. SILVER WEDDING.

Beautiful Lilian Russell offers a bit of onsolation to those of her readers who are nearing the forties, by recalling the fact that many of the world's most celebrated women made their greatest conquests after the age of 30.

The fair Lilian says: Helen of Troy was more than 40 when when Pericles married her, and she wielded the sceptre of beauty for 30 years afterward, Cleopatra was past 30 when Anthony ell under the spell of her charms.

Turning to more modern history, Diana de Poictiers was 36 when Henry II. of France became attached to her and his love never waned while life lasted. Anne of Austria was 38 when she was described as the handsomest queen i Mme, de Maintenon was 43 when Europe.

Louis married her. Catherine of Russia was 33 when she seized the throne. Her personality never lost its bewitching magnetism. Mile. Mars did not reach the zenith her beauty till she was 45.

Mme, Recamier was 38 when she was eclared to be the most beautiful woman in Europe. Of course, Ninon de L'Enclos stands without a peer; she was the most cele-

Three things were necessary to bear in mind in regard to the subject, the speaker stated. First, the penalty of short time privilege. "Woman placed in world today are living in a wonderful time," she said, "and with all our privileges come new responsibilities which the women of other periods did not have." The second point she impressed upon her hearers was that of the dangers awaiting women and girls who go out into the world without preparation or knowledge of what is before them. And, lastly, she emphasized the tragedy of girls being taught to respect and accept the opinions of fathers and brothers in the home, and then going out into the world to meet men whose influence and opinions were extremely harmful. THE JOURNEY ONWARDS. As slow our ship her foamy track Against the wind was cleaving, Her trembling pennant still look'd back To that dear isle 'twas leaving. so loth we part from all we love, From all the links that bind us; So turn our hearts, as on we rove, To those we've left behind us!

When, round the bowl of vanished years We talk with joyous seeming With smiles that might as well be tears, So faint, so sad their beaming; While memory brings us back again Each early tie that twined us, Oh, sweet's the cup that circles then To those we've left behind us!

And when in other climes, we meet Some isle or vale enchanting, Where all looks flowery wild and sweet, And nought but love is wanting; We think how great had been our bliss If heaven had but assign'd us To live and die in scenes like this, With some we've left behind us!

As travellers oft look back at eve When eastward darkly going. To gaze upon that light they leave Still faint behind them g'oving-So, when the close of pleasure's day To gloom hath near consign'd us, We turn to catch our fading ray Of joy that's left behind -THOMAS MOORE.
