### To Overcome Redness, Tan, Freckles, Wrinkles

If your skin is unduly reddened, freckled or tanned, dab a little pure mercolized wax on the face and allow it to remain over night. When you wash off the wax in the morning, fine flaky, almost invisible particles of cuticle come with it. Repeating this daily, the entire outer skin is absorbed, but so gradually, there's not the slightest hurror inconvenience. Even the stubbornest freckles are affected. The underlying skin which forms the new complexion is so fresh and youthful looking, you'll marvel at the transformation. It's the only thing known to actually discard an aged, faded, muddy or blotchy complexion. One ounce of mercolized wax, procurable at any drug store, is sufficient in most cases.

If sun and wind make you squint and frown, you're bound to cultivate wrinkles and crow's feet. To overcome these quickly, bathe the face in a solution made by dissolving an ounce of powdered saxolite in a half pint witch hazel.
