night at the city hall.

The New York Sun grinds out the following appropriate little ditty: The baseball fiend lay on his bed, His life was nearly ended.

While to his knees, with bended head,

A seat 'mid sainted creatures; Above, as here, content I'll be To sit among the bleachers."

All the teams in both the City and East End Leagues are practicing every available opportunity. The prospects were never better for a hotly contested race than just now.

Loudy Kerr has just handed out the information that he is going to Brantford to pitch for the Veritys. The deal was consummated last night, and the big pitcher will leave so as to open the season on May 24. It is whispered around City League circles that Walter Gibson has been approached by the same people with a gilt-edged proposition and that he may accept it. That will be something of a blow to the McClary people, but some rumors are very fickle. Hope for the best.

Nig Jeffries says that he will probably lay with Galt in the Western Ontario League this summer. That league may cripple the local organization considerably by taking away the star players, but there are lots of promising young-sters here. Cheer up.

There will be a lot of new faces on the teams in the City League this sum-mer, and a lot of the old ones will be missing. That is how it goes, the old making room for the young. The public wants variety constantly, and those who cater to the public must give it what it

Al. Watts is leaving Brantford for Flint, Mich. He is a great traveler, that player. He plays on about forty-five different teams a year. Professional ball players all over the Northern States know him: "Have you seen Al. Watts lately? Where is he now?" That is the question which all ball players ask each other when they meet on trains and elsewhere in their travels. Al. is a great roamer and is certainly seeing the world, all right.

Young Corbett showed some of his old-time form in his fight with young Erne Saturday night. After taking five rounds of punishment, he came back so strong in the sixth that his opponent was out-classed in both speed and strength. That Brantford man who signed Loudy Kerr is right out after players. He is hot on the trail of Curly Perkins now. on the trail of Curly Ferkins how if he gets the Perrins' man his team will be complete, but the curly-headed one may decide to stay with the candy

THE DAILY PIPE DREAM.

Appearances are sometimes deceptivein baseball fans as well as others. At a game between the New York Highlanders and the Senators at Washington, the Chi-nese ambassador and his suite were enjoying the game. Finally turning to her neighbor, the delegate said

The Baltimore Club sued the Brooklyn Club in the New Jersey supreme court for approximately \$40,000, alleged to be

by Justice Fort in February because of the failure of the Brooklyn Club to put in an appearance. The Brooklyn Club set up that it had not been served with sufficient particulars, and the interlocutory judgment was over-ruled.

The Sunshine is differently and better constructed than common furnaces. It's stronger, safer, more healthful

The dome, the two sections of the firepot and the frame of the ash-pit are all securely fastened together by our famous "cup joint." Three "cup joints" in all, you see. All sections, you will notice, fit together

perfectly, and are lined with a layer of asbestos cement, which unites them so firmly together that they become, in every purpose, one solid piece of metal. Can never spring or fall apart.

And that's not all! The top of the dome is fastened to the sides with cement and boiler rivets, making the Sunshine just as smoke, gas, heat and dust tight as a steam boiler. From a hygienic standpoint it takes precedence in the furnace world. Notice, too, the Sunshine is equipped with an auto-

matic gas damper. This damper automatically opens when the gas in the furnace reaches a certain pressure and allows it to escape up the chimney. Eliminates all danger of an explosion or gas escaping through the registers
