Vancouver, Sept. 22.—Four railroads into North Vancouver. Public building for North Vancouver. Postoffice for North Vancouver. Dredging and docking of False Creek. Widening of the Narrows. Rigid Asiatic exclusion. Better terms for British Columbia. In the course of a speech which lasted nearly two hours, Mr. William Wallace Burns McInnes, Liberal candidate for federal honors, promised the above improvements and measures for the new city if elected at the forthcoming election.

Men should look for this Tag on Chewing Tobacco. It guarantees the high quality of Black Watch The Big Black Plug. 2272

OFFICIAL RECEPTION GIVEN TO ENGINEERS

Charming Scene Witnessed in the Parliament Buildings Last Evening

(From Thursday's Daily) The visit to Victoria of the Canadian Institute of Mining Engineers and their guests came to a close last night with a reception given in their honor at the Parliament buildings. The big grey pile across the bay was thrown open to the visitors last night and illuminated from end to end. Over the main entrance was a large crown piece and on either side of it, while the arch itself was emphasized with a quadruple row of lights. Inside the building the preparation had been made, and the handsome structure was looking its best. Its natural beauties are such that it does not require a great deal of preparation to produce a very beautiful effect, and the legislative chamber in accord with the universal need of admiration. The decorations at this point were simple but effective. The carved wooden screen behind the speaker's chair was draped with two large lion Jacks, while in the intervals between the pillars of Italian marble were draped with the flags of the nations in rows and groups were masses of plants and flowering shrubs which lent an air of softness to the handsome chamber, the whole producing a most charming and picturesque effect.

The inside of the lofty dome was also illuminated with a row of lights high up near the top, and other lights at the angles of the walls at the various landings and at intervals between. On the ground floor a long table was laid, laden with all kinds of good food. The table was covered with a white cloth and tastefully decorated in front, while the remainder of the circular hall was left free for the guests, with a number of comfortable chairs for the accommodation of the ladies.

The reception began at 9 o'clock, and whether the electric light system was temporarily overloaded, or whether from some other defect, is not known, but the lights went out suddenly out throughout the building. Fortunately, but comparatively few of the guests had arrived and these were pitched upstairs, where the candles hastily requisitioned from the recesses of the basement. Fortunately, the candles were plentiful and removed the cause of the trouble to no further detriment of the kind were experienced, although a number of the guests were kept burning in case of accident.

The guests were received in the legislative chamber by the Premier and Mrs. Brown, and the Hon. D. M. Eberts, K. C., speaker of the house, and other members of the cabinet. A gathering present before the visiting engineers, and the ladies of Victoria turned out in the way they always do, in a most impressive manner. Many handsome costumes and flashing jewels rendered the scene fully worthy of its official function at the capital of the great Pacific province.

The proceedings were quite informal, the guests chatting together or wandering over the building, which was thrown open for their inspection while a string band led by E. Claudio, discoursed sweet music in the Grand Gallery. Outside the chamber, shortly after 10 o'clock, a signal given by the Premier, the party made their way downstairs to the great hall, where a faint light reflection had been provided, to which music was done.

The thoughtful act of leaving the hall open was a most commendable one by the visitors, many of whom availed themselves of the opportunity to inspect the splendid collection of the flora and fauna of the province, as well as the Indian relics. They were much interested, and said many appreciative things of the care and skill displayed in its collection and display. At 11 o'clock all was over, and a few minutes afterwards the lights were turned off, and the big building wended their way back to their hotel. Much pleased with the gracious courtesy thus accorded them by the government of British Columbia, a court-ship of doing, they are most eminently creditable to those responsible for its inception. This morning the visitors leave for Nanaimo, and after visiting some of the mines there, and possibly the Tye smelter, they return to Vancouver by the steamer Joan, where they spend day, and then start back on their long return journey over the main line of the C. P. R.

BRUSH CONSUL AT COLIMA IN CITY

Discusses Progress of the Pacific Ports of Mexico—Trade Chances

(From Thursday's Daily) Mr. D. S. C. MacNeill, the British Consul at Colima, in the province of Colima, in flourishing Mexico, with his wife and little daughter, arrived down from their summer quarters at Cowichan Lake yesterday, and are putting up at the Driford. They take the steamer one week from today on their return to their home at Colima. Mr. and Mrs. MacNeill spent two months last year at Cowichan Lake, and they found the trip so exceedingly enjoyable that they have repeated the venture this season, as in this manner they escape the portions of July, August and September, which are unquestionably some of the most beautiful months in the northern part of the tropics, as in Cuba and Mexico, August and September are the months of the hurricane months, but at Colima the weather is perfect, although it is not so hot as the tropics, which extend over a section of about eight degrees of latitude, directly north and south of the equator. The weather is perfect, although it is not so hot as the tropics, which extend over a section of about eight degrees of latitude, directly north and south of the equator. The weather is perfect, although it is not so hot as the tropics, which extend over a section of about eight degrees of latitude, directly north and south of the equator.

The great volcano of Colima is a projection from the mountain range, which is but a continuation of the great range of the Sierra Nevada de Mazatlan, which it will reach in perhaps another year. But the Mexican coast is a most interesting one, and the most important railway in the whole country, is now engaged in the great work of constructing the Imperial railway, which will connect the populous town and leading commercial port of Guadalajara, which is the second city in that country, coming next to Mexico City, with the Pacific coast. The Imperial railway is a project of great importance, and its completion will be a great boon to the country.

President Diaz, who has for such a long time been the benefactor of Mexico, is a man of great ability and sagacious ruler, will be present upon the opening of the Imperial railway, and will be a great boon to the country. The Imperial railway is a project of great importance, and its completion will be a great boon to the country.

The proceedings were quite informal, the guests chatting together or wandering over the building, which was thrown open for their inspection while a string band led by E. Claudio, discoursed sweet music in the Grand Gallery. Outside the chamber, shortly after 10 o'clock, a signal given by the Premier, the party made their way downstairs to the great hall, where a faint light reflection had been provided, to which music was done.

The thoughtful act of leaving the hall open was a most commendable one by the visitors, many of whom availed themselves of the opportunity to inspect the splendid collection of the flora and fauna of the province, as well as the Indian relics. They were much interested, and said many appreciative things of the care and skill displayed in its collection and display.

Accidentally Poisoned Chatham, Ont., Sept. 21.—Miss Rose Doyle, 38 years old, is dead from arsenic poisoning taken in mistake for common salt.

his horse over the brush, Mr. Williams was forced to dismount. "Sams merland," ridden by Miss Smith, of Vancouver, "Pedro," ridden by Mrs. Smith, of Vancouver, and "Marcella," an entry made by Mrs. Sams merland, Sauer, of Victoria, were all highly commended and their exhibition of jumping was thoroughly enjoyed. When asked to show the horses to the evening's entertainment was the exhibition made by the team of grays from the central fire hall. The incident was a very interesting one, answering an imaginary alarm and the dispatch with which they were hitched to a horse wagon was ample proof of the efficiency of the local brigade. The exhibition was loudly applauded.

During the evening Mayor Hall addressed the audience, asking that this afternoon be observed as a holiday by every citizen. His worship explained that owing to yesterday's rain the attendance had been below that which was expected and he expressed the hope that this afternoon there would be a record crowd in attendance at the fair. Following are the results in the various events:

Class 133—Pair draught horses, each horse to weigh under 1,600 pounds, and not less than 1,300 pounds. Mares or geldings, three years old and over, to be shown to an appropriate vehicle. First prize, Colymbia, graphophone, by Mrs. Fletcher Eros, First, "Prince" and "Rose," exhibited by the Inverhousie stock farm, Ladner, B. C., second, "Prince" and "Sandy," exhibited by James Richards, B. C.

Class 143—Single trotting horse, mare or gelding, three years old and over, not under 14.2 hands and not over 15.1. To be driven by amateurs and shown to an appropriate four-wheeled vehicle. Horses to count 10 per cent and appointments 10 per cent. First prize, Association cup, "Lyonesse," exhibited by D. E. Frederick, Seattle.

Class 161—Horses in heavy harness, pairs of mares or geldings, 15 hands and over, to be shown to an appropriate vehicle and to be driven by a lady, conformation and quality to count 75 per cent, appointments 25 per cent. First prize, Association cup, presented by J. M. Whitney company, "Comox" and "Nelson," exhibited by W. S. Holland, Vancouver; second, "Silver" and "Prince," exhibited by David Spencer, Ltd.

Class 167—Pony class, Shetlands, and to be driven by a boy or girl under 15 years of age, pony to count 80 per cent, appointments 20 per cent. First prize, Association cup, "Trinkets," exhibited by R. Thorburn, Vancouver; second, "Clover," exhibited by Miss Helen Farber, Renton, Wash.; third, "Redskin," exhibited by A. Graham, Victoria.

Class 177—Ladies' saddle horses, mares or geldings, over 15 hands one inch; gait, regular, quality to count 75 per cent, paces and manners to count 25 per cent. First prize, silver cup, presented by J. E. Smart, "St. Louis," exhibited by Mrs. E. Loewen, Vancouver; second, "Redskin," exhibited by C. N. Merritt, Vancouver.

Class 189—Special pony class, 14 hands and under, other than Shetland, to be driven by a lady, 12 years of age. Conformation, quality, paces and manners to count 60 per cent, appointments 40 per cent. First prize, silver cup, presented by J. W. Morris, "First," exhibited by Mrs. R. Ker, second, "Lady," exhibited by Mrs. J. W. Morris, third, "Maud," exhibited by F. A. Thompson, Victoria.

NEED OF INDUSTRY IS MORE POPULATION

Hugh F. Marriott Explains How Capital Regards Mining Propositions

(From Thursday's Daily) Hugh F. Marriott, head of the mining department of the world famous mining firm of Wernicke, Belmont & Co., Institute of Mining Engineers, and Marriott's first visit to Canada, when he was in the city of Vancouver, he hesitated to say much of his impressions as he has promised to address the meeting here at Vancouver on his return. However, he has made some interesting observations to make on the requirements of the mining industry from the point of view of the big capitalist.

Speaking generally he said: "One of the things that struck me most was the able way in which the mining industry is being developed by the government. There has been a deal of good work done by the geological survey and others which should be of great assistance to those who wish to explore in an intelligent manner. I don't think that I have seen so much good done in any other country that I have visited."

"Speaking from a mining point of view, I think perhaps that your country is doing more than most. You have been shown some splendid things, and in such a vast mineral area, there are vast resources to be developed. It requires a great deal of capital to develop a mine, and a hundred pairs of eyes could cover what two or three pairs will cover."

"There is also another thing which should be borne in mind. Nowadays mining men are too apt to stake a claim and do a little work on it and then go round trying to sell for large amounts. This is absolutely futile. It is not as if British Columbia, for instance, were the only mining country in the world. There are many other countries where there is a tremendous competition for mineral producing centres, and well equipped as the best. None who have not had the experience can have any idea of how this kind of mining is beset with those who are ready to sell. London is the centre of the mining industry of the world, and the number of mining claims that are there for sale is astounding. If a man finds a promising claim and cannot afford to develop it himself, he should form a small syndicate among his friends and ask them to work to demonstrate what he has got. If he does this and the work is done properly, the syndicate will consider it, and he may get a good price for it, and not otherwise. Capitalists will have too many other better things to put their money into. What is needed is plenty of men. Nowadays more of the old time prospectors are wanted who were not afraid of putting a plenty of money into claims. A man will never get a large claim for merely running across a piece and manning to count 60 per cent, appointments 40 per cent. First prize, silver cup, presented by J. W. Morris, "First," exhibited by Mrs. R. Ker, second, "Lady," exhibited by Mrs. J. W. Morris, third, "Maud," exhibited by F. A. Thompson, Victoria.

Class 185—Military, mares or geldings, three years old, not exceeding 16 hands, suitable for military purposes, weight not less than 150 pounds and not over 1,150 pounds. To be shown to an appropriate vehicle. First prize, silver cup, presented by J. A. Russell, Vancouver; second, "Don Pedro," exhibited by Mrs. G. E. Macdonald, Vancouver; third, "Madcap," exhibited by W. S. Holland, Vancouver; fourth, "Mabel Smith," exhibited by Miss Mabel Smith, Vancouver.

Class 187—Ladies' saddle horses, mares or geldings, over 15 hands one inch; gait, regular, quality to count 75 per cent, paces and manners to count 25 per cent. First prize, silver cup, presented by J. E. Smart, "St. Louis," exhibited by Mrs. E. Loewen, Vancouver; second, "Redskin," exhibited by C. N. Merritt, Vancouver.

Class 189—Special pony class, 14 hands and under, other than Shetland, to be driven by a lady, 12 years of age. Ker, second, "Lady," exhibited by Mrs. J. W. Morris, third, "Maud," exhibited by F. A. Thompson, Victoria.

CITIZENS' AT

Large Crowd Day Despite the F

PRAISE FROM

Stock and Fr in History So

(From Thursday's Daily) Over fifteen hundred through the provincial exhibition yesterday arrived fixed for the horse races. The because of the somewhat heavy deterrent effect of the sun. But it was the principal part of the sun warmed the crowds couldn't see for the heat and although the way company has rolling stock on authority to run as fast as they desire stand was comfortable, enrolling men and women trotters and running but merry throng forth among the building, examining the varied exhibits. There were many thriving business men and women in the animated scene which was shown.

Some about noon the crowds anticipated going to be a selected themselves. Therefore men and women of interest by committee of hundreds by the stock and franchise associates were optimistic frame work of clock in the stock of last year.
