yesterday, closing tractionary universe text Inst night. Northwestern sold ex-dividend 8 per. cent. for the half year and Northwestern pid, sold ex-dividend II per cent. quarterly. Denver and Rio Grande declared a dividend of 18 per half year. Money closed from 5 to 6. Talk last night in New York among traders, found at various untown resorts, was generally of a ballish character, and traders thought in the absence of a very back bank statement to-day, the market would further rally, and that renewed efforts would be made to advance these specialties which cliques are evidently interested in sceing sell at a higher range of prices.
