VOTE FOR MR, GEDDES.

We trust that the electors Calgary District will return Mr. James D. Geddes as representative in the North west Council. Though we do not concur with him in every thing he says with regard to the lease question yet we feel certain that he has correct views on these local matters which more proper ly come under the authority of the Council. If Mr. Geddes should be elected, we are confident that will go to Regina independent certain influences there which have heen endeavoring to shape th local affairs of this district in away which no true friend of Calgary

THE MAYORALTY!

In a few days the electors of Calgary will be called upon to select a town council, We may re. mark it is of the utmost importance. that the gentleman who is to be at the head of the council should in addition to other qualifications possess some influence. Those who have had experience in towns in the North-west will readily concur with us when we say that it is of vital importance to the people that the first mayor of our young and promising town should possess ina mayor do for the place? Simply nothing. He may be in the common parla nce of the street a "good fellow" even to jollity, he may possess interests enough in the city to justify the expectation that he will counsel with wisdom and administer town affairs honestly and economically, but if he has no influence abroad what is he going to do For this District for Represenfor the town? This is the question, and it is one which the NOR'-WESTER will meet squarely, and without uncertain sound.

Mr George Murdoch is already in the field as a candidate for the mayoralty. Mr. Murdoch is ambitous for the position and he is not lacking in self esteem. He is a respectable citizen and possesses FOR FINE JOB WORK. some popularity. All this is yo well but what the thoughtful elector wants to know is what is Mr. Murdoch capable of doing for the town

When he accertained that we were a newspaper man, he quickly reentered his house and bringing out a copy of our esteem ed contemporary on the Etbow, he pointed out an article which he requested us to read, he at the sametime observing "If I had the fellow that wrote that article I would give him a helt." We had been the tarticle before, and we thought how desirable it was that the milk, butter, poultry and vegetable curror of that journal should give the Livingstone estate a wide berth.

Mr Livingstone invited us into his tent, for this is where he receives his visitors, anp we entered into communication with him from which we derived considerable infor-mation. A man who has put upwards of twenty years in this district is certainly an encyclopedia that a value must often son.
