The Record.

Tue Commission of Synod is to meet, by adarament, in Knox's Church, Toronto, on Tuesday, the 10th instant, at twelve o'clock noon.

By reference to the Acts of Synod, in our July ther, it will be found that the general collection for the Home Mission Fund is appointed to be made on Sabhath, the 1st March, -the collection for the College having been made instead thereof, on the 6th December. Ministers and missionaries are respectfully requested to take notice of this appointment.

THE attention of the office-hearers and members of the Church is requested to the recommen lation of the Commission (see Meeting of Commission, in this number), respecting the circulation of the Record. Although its circulation is already very extensive, and has been steadily increasing from the beginning, yet, by a little effort, it might be greatly increased, and rendered much more efficient for the purposes of its establishment by the Syand. The publisher has still to complain of the tiseness of some parties in regard to remittances, both on the score of arrears and of payment for these current year.

WE invite the attention of the Church to the Home and Foreign missionary and ecclesiastical intelligence, which this number of the itecord ins. We have given an interesting report, recently presented by Dr. Buchanan, on behalf of the Colonial Committee of the Free Church of Scotland, in order to show the extent of that department of their operations, and the energy and liberality with which they are conducted.

The movement on behalf of Christian Union, which has originated in Toronto, will, we doubt not, interest Christians generally throughout the Province. A notice of a course of lectures, and of a general meeting for promoting union there, will be found among our miscelleneous intelligence. We also learn, that the subject of King's College is shout to be taken up, with the energy which its vast importance to the best interests of the Church and the country at large claims. A great public meeting, at which the Hon. A. Fergusson, of Woodhill, has agreed to preside, is to be held in Toronto on the 3rd instant, to give expression to the mind of the community in that quarter respecting this institution. This example will, no doubt, be followed up in other parts of the country immedistriy; and in a matter which so closely concerns the interests of education, and on the determination of which the preservation of the rising youth of the country from the poissoners influences of Paeryiam depends, we are sure the members and adto of the Pseabyterian Church will not be idic and indifferent spectators.

The first netter of general interest that came before the Commission, was a reference from the Presbytery of Kingston, for advice respecting the reception and organ zation of a second congregation at Kingston, in come xon with the Synod. Together with the reference from the Presbytery, and a tall explanatory letter written by the Moderator at the desire of the Presbytery, there was read a petition to the Commission signed by certain members of the Bag at Street congregation, on behalf of that body, stating that they have leased a place of worship for a term of years, and fitted it up for the account of here yet 450 successful almost all the sittings have already been taken seed that the Presbytery of Kingston, having in the means time granted them the services of the Rev. Robert Raid, recently received as a Probationer and Missionary of the Pre-byterian Church of Coquada, they are now prepared to give him an man mous call, and praying that their case may be favo hably considered, and disposed of as soon as possible. This document also sets forth the protracted period dur- i ing which the members of this congregation have been left destitute of a fixed pristor, and the urgent need there is for the early settlement of a minister over them. After much deliberation, the Commission unanunously agreed to record their approbation of the crution and prodence which the Presbytery of Kingston have exercised in regard to this case, and to remit the whole matter to them, with notherity to take whatever steps may seem to them to be most for edification in regard to the recognition and organization of the Bagot Street Congregation.

The Commission had next under consideration the report of the Committee on Calls, and after some conversation on the subject-from which it appeared that the design of the Commission, in appointing this Committee, had been to secure the compilation of a general code of discipline and order-it was resolved, that the report be recom-mitted, and that the Rev. Geo. Smellie be added to the Committee.

The Commission then took up the remit of the Synod, respecting the lowering of the minimum amount of contribution required of congregations coming outlie Sustentation Fund, under the existing provisions of that scheme-viz. £100 cy. After considerable discussion, it was moved, seconded, and carried, That it is the deliberate and matured opinion of the members present, that it is highly inexpedient, and would tend to the defeating of the scheme, to reduce the present minimum. From this finding Mr. Mackintosh dissented.

The Commission next heard the report of the publisher of the Leclesiastical and Missionary Record of the Church, respecting the state of that publication, and agreed unanimously to record their satisfaction with the same; and earneatly recommend to all office-hearers and members of the Church to use diligence in promoting its cir-
