

The
Galt Shingle

The purpose of a roof on your barn is to protect it and its contents from rain, snow, storms, lightning and fire, isn't it? **Wood shingles can't do this.** They warp, crack, curl and rot, leak, and blow off. "Galt" Galvanized **Steel Shingles** on the other hand **give you the protection you want**—protection from rain snow and storm as well as from fire and lightning. The patented locks fit so perfectly that not even a ray of light can penetrate the joints. Wind can't loosen them because they're locked all round and nailed on two sides as well—they stand rough weather like a stone wall.

Don't spend a cent on roofing—for new or old barns—until you have investigated "Galt" Steel Shingles. Do it now. The whole story is told in our book "Roofing Economy" which we will send you free if you write us today.

THE GALT ART METAL CO. Limited, **GALT, ONT.**
