

Pure Oil Cake Meal

Digestibility is the true test

What the animals digest will produce flesh and milk

USE J. & J. LIVINGSTON BRAND OIL CAKE

Made by the Old Process

Fine Ground, Coarse Ground and Pea Size. Also Linseed Meal and Flax Seed

If your dealer cannot supply you, write us for prices.

THE DOMINION LINSEED OIL CO., LIMITED, MFRS.

Baden, Ontario and Montreal, Que.

POTASH PROMOTES PROSPERITY

All progressive farmers are aiming to improve the fertility of their farms and thus produce first-class crops. Maximum crops cannot be grown unless the plant food, taken from the soil by continuous cropping, is returned to the land in some form. Unless this is done the soil becomes barren. POTASH is one of the essential plant foods and the soil must contain a sufficient quantity of this food if high class crops are to be raised.

REMEMBER! POTASH PROMOTES MATURITY; POTASH IMPROVES QUALITY; POTASH INCREASES QUANTITY. POTASH may be obtained in the highly concentrated forms of MURIATE OF POTASH and SULPHATE OF POTASH, from all reliable fertilizer dealers and seedsmen. Write us for **free** copies of our illustrated bulletins, which include:

"Artificial Fertilizers, Their Nature and Use."

"Fertilizing Fodder Crops."

"The Potato Crop in Canada."

"Farmer's Companion," etc., etc.
